NOTES:

1. The Ministry of Corporate Affairs ('MCA'), vide its General Circular No. 20/2020 dated May 5, 2020 read with subsequent General circulars issued from time to time, the latest one being General Circular No. 09/2024 dated September 19, 2024 ('MCA Circulars'), permitted holding of Annual General Meeting through VC/OAVM facility and dispensed physical presence of the members at the meeting. In compliance with the provisions of the Companies Act, 2013 ('Act'), SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('Listing Regulations'), and MCA Circulars, the 30th Annual General Meeting ('AGM') of the Members of the Company is being held through VC/OAVM facility. The detailed procedure for remote e-voting and participating through VC/OAVM facility is mentioned in Note Nos. 18, 20 & 21. The Registered Office of the Company shall be deemed to be the venue for AGM. In compliance with the MCA Circulars, items of special business as mentioned in this Notice are considered unavoidable and forms part of this Notice.

2. As the AGM will be conducted through VC/OAVM, the facility for appointment of proxy by the Members is not available for this AGM and hence, the proxy form is not attached to this Notice. Further, as the meeting will be conducted through VC/OAVM, the attendance slip and route map is not annexed to this Notice.

3. The Explanatory Statement, pursuant to Section 102 of the Act read with Regulation 17(11) of Listing Regulations, setting out material facts and rationale in respect of Item No. 4 of the Notice is annexed hereto. Further, the relevant details, pursuant to Regulation 36(3) of the Listing Regulations and Secretarial Standard on General Meetings issued by the Institute of Company Secretaries of India ('SS-2') respectively, in respect of Director seeking appointment at the AGM is also annexed and marked as Annexure-A.

4. Members attending the AGM through VC/OAVM shall be counted for the purpose of reckoning the quorum under Section 103 of the Act.

5. In case of joint holders attending the AGM, the Member whose name appears as the first holder in the order of names as per the Register of Members of the Company as on Thursday, August 21, 2025 (cut-off date) will be entitled to vote during the AGM.

6. **Dividend for FY 2024-25:** The Board of Directors of the Company at its meeting held on May 14, 2025 recommended a dividend of ₹ 1.2/- (i.e. 60%) per equity share of ₹ 2/- each for FY 2024-25 subject to approval of members at the AGM. The dividend, if approved at the AGM, will be paid/dispatched subject to tax deducted at source (TDS) within 30 days from the date of AGM to those member(s) or their mandates:

   a) whose names appear as Beneficial Owners at the end of business hours on, Friday, July 18, 2025 in the lists of Beneficial Owners furnished by National Securities Depository Limited and Central Depository Services (India) Limited in respect of the shares held in electronic form;

   b) whose names appear as Member(s) in the Register of Members of the Company as on Friday, July 18, 2025.

   SEBI vide Master Circular No. SEBI/HO/MIRSD/MIRSD-PoD/P/CIR/2025/91 dated June 23, 2025 mandated the shareholders holding shares in physical form to furnish PAN Card, KYC details, Bank account details, Choice of Nomination and specimen signature for their corresponding folio to the Company/RTA. Further, any dividend payments in respect of such folios which do not have PAN or Choice of Nomination or Contact Details or Mobile Number or Bank Account Details or Specimen Signature updated, will be made through electronic mode only with effect from April 01, 2024, upon furnishing of all the aforesaid details. In absence of these details, the payment of dividend amount cannot be processed.

7. **Tax Deducted at Source ('TDS') on Dividend:** Pursuant to the relevant provisions of Income Tax Act, 1961 as amended by Finance Act, 2020 ('IT Act'), dividend income is taxable in the hands of shareholders and the Company is required to deduct tax at source from dividend paid to shareholders at the prescribed rates under the IT Act. The shareholders are requested to complete and/or update their Residential Status, Permanent Account Number ('PAN'), Category as per the IT Act with their Depository Participant(s) in case shares are held in demat form and in case shares are held in physical form, with the Company by sending email at investor@jublfood.com.

   A resident individual shareholder holding a valid PAN having dividend income exceeding ₹ 10,000 from the Company and who is not liable to pay income tax can submit a duly signed declaration in Form No. 15G/15H, to avail the benefit of non-deduction of tax at source by uploading the documents through MUFG Intime Portal https://web.in.mpms.mufg.com/formsreg/submission-of-form-15g-15h.html on or before Thursday, August 07, 2025. Shareholders are requested to note that in case their PAN is not valid / inoperative, the tax will be deducted at a higher rate of 20%.

   For resident shareholders (other than individual) holding a valid PAN and not subject to withholding tax under Section 194 of the IT Act, can submit duly signed declaration along with other documents as sought separately to avail the benefit of non-deduction of tax at source by uploading the documents through MUFG Intime Portal https://web.in.mpms.mufg.com/formsreg/submission-of-form-15g-15h.html on or before Thursday, August 07, 2025. Shareholders are requested to note that in case their PAN is not valid / inoperative, the tax will be deducted at a higher rate of 20%.

   For a Non-resident shareholder [including Foreign Portfolio Investors ('FPI')], applicable withholding tax rate is either 20% as per the IT Act or the tax rate as specified in the tax treaty, whichever being more beneficial to the Non-resident shareholder. Further, Non-resident shareholders can avail the beneficial rates under tax treaty between India and their country of residence, subject to providing necessary documents i.e. Tax Residency Certificate, Electronically Form 10F, Beneficial Ownership declaration, No Permanent Establishment declaration and any other document which may be required to avail the tax treaty benefits by uploading the documents through above mentioned MUFG Intime Portal. The aforesaid forms, declarations and documents need to be submitted by the shareholders on or before Thursday, August 07, 2025. Further details in this regard are available on the website of the Company at https://www.jubilantfoodworks.com/investors/shareholder-information/dividend.

Trace the email sent to you from NSDL in your mailbox from evoting@nsdl.com. Open the email and open the attachment i.e. a .pdf file. Open the .pdf file.

         The password to open the .pdf file is your 8 digit client ID for NSDL account, last 8 digits of client ID for CDSL account or folio number for shares held in physical form. The .pdf file contains your 'User ID' and your 'initial password'.

      ii. If your email ID is not registered, please follow steps mentioned below in **process for those shareholders whose email ids are not registered**.

6. If you are unable to retrieve or have not received the "Initial password" or have forgotten your password:

   a) Click on "**Forgot User Details/Password?**"(If you are holding shares in your demat account with NSDL or CDSL) option available on www.evoting.nsdl.com.

   b) **Physical User Reset Password?**" (If you are holding shares in physical mode) option available on www.evoting.nsdl.com.

   c) If you are still unable to get the password by aforesaid two options, you can send a request at evoting@nsdl.com mentioning your demat account number/folio number, your PAN, your name and your registered address.

   d) Members can also use the OTP (One Time Password) based login for casting the votes on the e-Voting system of NSDL.

7. After entering your password, tick on Agree to "Terms and Conditions" by selecting on the check box.

8. Now, you will have to click on "Login" button.

9. After you click on the "Login" button, Home page of e-Voting will open.

Step 2: Cast your vote electronically and join Meeting on NSDL e-Voting system.

How to cast your vote electronically and join Meeting on NSDL e-Voting system?

Chairmen Message

Dear Fellow Shareholders,

For nearly three decades, bold decisions and actions have shaped Jubilant FoodWorks' journey. We are not just following trends; we are shaping them—building platforms and operating as a cutting-edge food-tech company, leading the way with innovation and a passion for delicious food. This philosophy is encapsulated in our theme for the year: Be the BOLD. It is our core strategy for driving profitable growth and enhancing customer satisfaction, standing firmly on four fundamental pillars.

We are pleased to share with you that FY'25 stands out as a landmark turnaround year for Jubilant FoodWorks, showcasing significant growth and increased market share. The Group system sales reached almost $1.1 billion, with nearly one store opening every day in FY '25, expanding our network to over 3,300 stores. Our strategic decisions—a relentless focus on execution, providing value through free delivery and menu offers and an improved pace of innovation—have propelled our Company to lead the industry in growth and profitability.

Despite headwinds, our self-help initiatives delivered strong results. Consolidated Revenue reached ₹8,142 crore. Standalone Revenue grew to ₹6,105 crore, a 14.3% increase, powered by Domino's India's standout revenue growth of 13.4% and a 7.5% Like-for-Like (LFL) growth.

Breakthrough Technology

We are harnessing the power of data and AI not just to improve, but to revolutionise every aspect of our business. We are building a proprietary, end-to-end AI ecosystem that provides a formidable competitive advantage.

- Our AI journey begins before a store even exists with Location.AI, our proprietary engine that predicts demand with remarkable accuracy down to a specific street or mall. By analysing thousands of data signals, it allows us to optimise our network expansion, delivery areas and hyperlocal marketing with scientific precision.
- Once a store is operational, Restaurant.AI and Delivery.AI create smarter, more efficient kitchens and delivery networks. This integrated suite of tools dynamically adjusts delivery zones to manage peak loads, ensures compliance and cleanliness through advanced AI surveillance and optimises every aspect of the rider experience—from 30-minute onboarding to intelligent order allocation—to ensure faster, more reliable service.
- Tying this all together is Elate, the revolutionary, India-first Android-based Point-of-Sale (POS) system developed entirely in-house by our 250-member technology team. As a cloud-first platform, Elate seamlessly integrates with our D2C apps and machine learning models to create a unified, personalised digital ecosystem. It is fundamentally changing our in-store operations, slashing training times and elevating the customer experience across our entire brand portfolio.
- This deep technology focus extends to our customer relationships. Our loyalty programme, Domino's Cheesy Rewards, has grown to over 30 million members, whose engagement demonstrates the power of a scaled, data-driven platform.

Operate with Excellence

A bold vision must be matched by excellence in execution. This year, we made strategic investments that have supported our growth.

- We took the step of implementing free delivery, a move that has impacted the competitive landscape. While this initially moderated our average ticket price, we successfully absorbed the impact and are now seeing ticket prices grow upwards again, fuelled by a record high new customer acquisition.
- Despite the increase in our delivery mix, Domino's India EBITDA scaled a record high of ₹857 crore with a 12.4% growth and its margin at 14.5% (Pre-Ind-AS-116) was near flat year-on-year. Our consolidated EBITDA (Pre-Ind-AS-116) came in at ₹1,037 crore, a margin of 12.7%.
- To support this growth, we simultaneously ramped up our regional office and commissary infrastructure. Our unique supply chain, anchored by our state-of-the-art FoodParks, continues to deliver efficiency, quality and control.

Leading with Purpose

At Jubilant, our purpose—**Serving JOY**—is the compass guiding our strategy, culture and long-term value creation. It reflects our belief that sustainable growth stems from a deep commitment to **CARE**—for our people, our customers and our communities. This purpose is brought to life through our core values, which shape how we lead, operate and innovate.

- **Empowering Our People:** We believe that performance is driven by purpose. Our teams continue to deliver differentiated outcomes, even in a muted demand environment, by **Hustling Mindfully**—balancing intensity with intention—and embracing a culture of ownership and self-initiated excellence. Our consecutive recognition this year as a Great Place to Work® is a testament to our investment in leadership development, well-being and building a future-ready organisation that thrives on **Driving Growth**.
- **Caring for the Planet and Communities:** Our responsibility extends beyond our stores. We **Lead with Care** by embedding environmental and social stewardship into our operating model. With over 15,000 e-bikes—one of India's largest EV fleets—we are reducing our carbon footprint while enhancing delivery efficiency. These efforts are complemented by community engagement programmes that amplify our impact.
- **Putting the Customer First:** Every innovation, process improvement and product enhancement is designed to **Put the Customer First**. From leveraging data and AI to personalise experiences and optimise delivery, to maintaining uncompromising quality standards, we are building enduring customer relationships—one order at a time. Our teams consistently **Find Better Ways** to serve, adapt and exceed expectations.

Delicious Food in Every Offering

Our passion for food is the soul of JFL. We have accelerated our pace of product innovation, introducing new offerings that resonate with our customers.

- For Domino's, our 'It Happens Only with Pizza' campaign has broadened the brand's role as a companion for many occasions. We are strategically building comprehensive food platforms through innovations centred around meal occasions where we launched lunch thali, cheese credentials where we launched Cheese Volcano and expanded Cheese burst range and newer offerings on Chicken through all new Chicken feast range.
- In Popeyes, we continue to build greater traction, with Average Daily Sales (ADS) improving quarter-on-quarter and nearing their lifetime highs. We believe in the Popeyes India playbook, based on a differentiated product, our own digital and delivery assets and a sound economic model.
- This platform strategy is powered by investment in culinary R&D, high-quality ingredients and a constant feedback loop with our customers.

A Year of Strong International Performance

With successful integration of DP Eurasia, JFL Group now serves ~22% of the world's population. Our international business combined is delivering strong growth, profitability and recorded market share gains.

- The DP Eurasia region achieved ₹3,071 crore in System Sales for FY'25. Revenue came in at ₹1,906 crore with EBITDA and PAT margin at 21.8% and 6.6% respectively.
- Domino's Turkey delivered an FY'25 LFL of 0.4% on a high prior-year base of 29.2%. COFFY continues to make strides in Turkey, with its network reaching 160 cafés across 36 cities. Its system sales of ₹295 crore for FY'25 now contribute nearly 10% to DPEU system sales.
- Domino's Sri Lanka is a great turnaround story. By applying our emerging market playbook, the business delivered its highest-ever revenue at ₹81 crore, with record growth of 45.6%.
- Domino's Bangladesh Revenue stood at ₹62 crore, registering a growth of 25.3%.

Strategic Focus and Outlook

As we look ahead, our priorities remain clear:

- We will continue to aggressively pursue growth opportunities for Domino's, leveraging our brand strength, innovative spirit and delivery capabilities.
- We are committed to building large, profitable businesses with Popeyes and COFFY.
- We will maintain our disciplined approach to capital allocation, ensuring we invest in areas that deliver the greatest value.

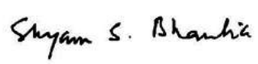

Looking ahead, we are accelerating our network expansion with a clear target of opening approximately 360 new stores. This includes adding 250 new Domino's stores in India and 30 in Turkey, significantly expanding the footprint of our growth engines with 50 new COFFY cafés and continuing the strategic rollout of Popeyes with 30 new restaurants.

Looking Ahead with Gratitude

We want to congratulate the entire Jubilant FoodWorks team for their exceptional performance. We thank our brand partners—Domino's International, RBI and Inspire Brands—and extend our gratitude to our aggregator partners, vendors, service providers and local communities.

We must also thank you, our investors, for your support throughout our journey. And most importantly, we thank our customers, who constantly inspire us to do better. We are focused on building a durable business for the long term, ready to embrace the opportunities with the same bold spirit that has defined our past.

Thank you.

Materiality Assessment

The Company conducted its first comprehensive materiality assessment in 2022, with assistance from an independent third party. The materiality assessment shows the areas where the Company's operations and sustainability initiatives have the greatest impact.

Based on the materiality assessment, the Company has organised all material issues into four overarching focus areas: Food, Planet, People and Communities and Governance.

The following section covers the mitigation actions that have been taken by the Company to address the material issues outlined above.

Following steps were involved in the assessment

Stakeholder Identification

Stakeholders are identified, based on individuals or groups who have an interest that is impacted or potentially affected by the Company's activities.

Collecting and analysing insights

After reviewing the relevance of the material topics with regards to the local geographies in which we operate, the output of stakeholder dialogues was studied after consulting relevant departments.

The materiality assessment is based on several elements which include administering primary as well as secondary research. This included combination of one-on-one interviews, online surveys and research of relevant industry sub-factors. The questionnaire was designed considering the mode of research and keeping in mind the profile of varied stakeholder groups.

Integrating sustainability strategy

The materiality assessment was then presented to the Sustainability and CSR Committee, which then approved the final materiality matrix.

In accordance with our materiality assessment approach, we have aligned the results into the Company's risk management process and established a one view of risks to ensure consistency, efficiency and comprehensive understanding across the organisation.

Potential material topics

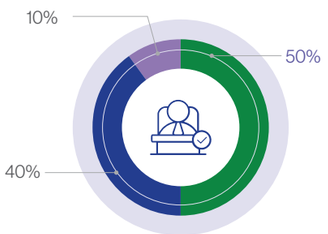

A number of national and international standards including the Sustainability Accounting Standards Board (SASB), ESG ratings and matrices, National Guidelines on Responsible Business Conduct were evaluated to accumulate a laundry list of material topics which are relevant for the foodservice industry.

Prioritise material topics

After collecting response from all stakeholders, the datasets were codified and a proprietary framework was developed to assign weightage to different stakeholders. This helped us plot the material issues against the matrix of importance from negligible to major stakeholders. The Executive Management team then voted against each material topic which helped us plot various material issues with regards to the impact on Company's success, while considering the strategic priorities for the business.

In addition, it performs third-party vulnerability analyses, including simulated hacker attacks. Notably, no information security breaches were reported in FY'25.

Risk Management Process

Risk Management is a continuous process of identification, prioritisation, mitigation, monitoring and reporting of risk implementation status.

01
Establishing Context

The components of risk management are defined by the Company's business model, organisational structure and risk appetite. It is essential to align the Company's risk management focus with its objectives and strategies. This is an annual exercise carried out by Risk Management Committee to establish the overall risk exposure, tolerance, risk management strategies and governance structure.

02
Risk Identification / Refresh

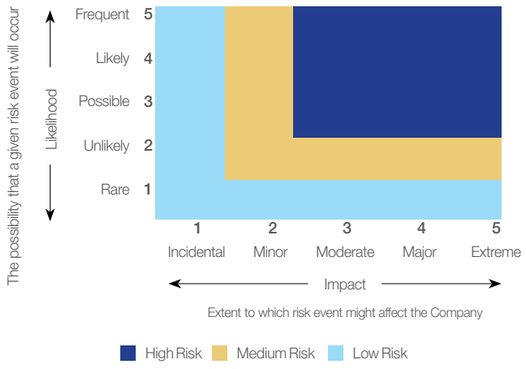

Risk identification is the first step in building the risk profile. It captures significant risks that may have an adverse impact on the organisation's objectives. It involves creation of a risk library based on a detailed study of business processes and inputs from senior management personnel. Risk Refresh is a continuous activity, which ensures that new emerging risks are identified and included in the risk library for prioritisation. The Risk Library is reviewed periodically by the Steering Committee for identification of new risks / modification in existing risks.

03
Risk Prioritisation

Risk prioritisation is the process of rating the risks in order to identify those risks, which may have the most significant impact on the achievement of the business goals and objectives. The identified risks are rated by the Steering Committee based on the following parameters:

- **Impact** - Extent to which risk might affect the Company.
- **Likelihood** – The possibility that a given risk event will occur.

A risk matrix is used for risk prioritisation. It creates a risk score from the combination of all the parameters defined above. The risk becomes more severe as the risk score increases. Based on the rating and placement on the risk matrix, risks are classified and prioritised as follows:

04
Risk Mitigation

Risk mitigation is the process of initiating responsive action for managing the critical risks and restricting them at a tolerable level. For key risks, Chief Risk Officer (CRO) coordinates with the risk owners for development of the mitigation actions. Process for risk mitigation is broken down into the following activities:

- - Root cause analysis to identify risk drivers
- - Development of mitigation strategies
- - Development of detailed action steps with ownership and implementation timelines
- - Finalisation of Risk KPIs

05
Risk Monitoring

The risk monitoring process is aimed at ensuring that the agreed mitigation actions are implemented as desired. The following activities are carried out by the CRO for monitoring purposes and updates to the Steering Committee:

- Generation of self-assessment questionnaires for mitigation plan owners and collating results
- Review and mapping of progress in the mitigation status
- Review of the Risk KPI status

06
Risk Review

On an annual basis, Risk Management Committee reviews and advices the Board on the following:

- Overview of the Risk Management process in place and status of Risk Management activities
- New risks identified and action taken to mitigate them
- Status and effectiveness of implementation of the mitigation actions for key risks

Risk Management Structure

The Risk Management Organisation of the Company comprises of the following:

(a) Board of Directors (BoD)

- Frame, implement and monitor the risk management structure and process.
- Evaluate risk assessment and minimisation procedures considering the recommendations from the Risk Management Committee.

(b) Risk Management Committee (RMC)

- Advise the Board on the Company's overall risk strategy
- Review the Company's overall risk assessment processes and the methodology adopted
- Oversee implementation of risk management policy, review various aspects of risk management and major risk exposures of the Company
- Advise the Board on Business Continuity Plan

(c) Steering Committee (CEO, CFO and Senior Management Personnel)

- Participate in risk identification and prioritisation
- Review results of the identification, prioritisation and mitigation plan development
- Report to the RMC on the mitigation status and KPIs of key risks

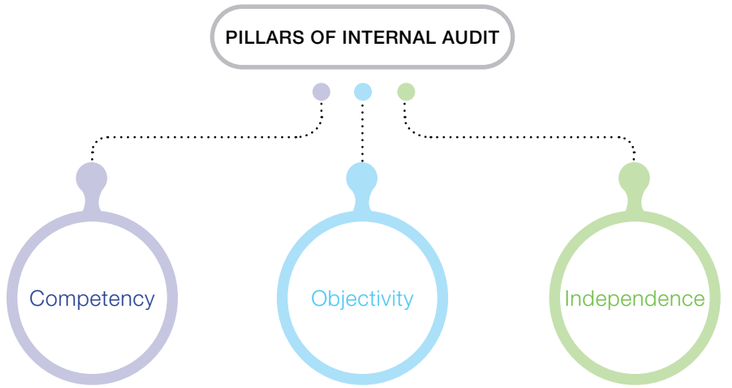

(d) Chief Risk Officer and Chief Information Security Officer

- Chief Risk Officer (CRO):
  - Facilitates risk identification and prioritisation exercise
  - For key risks, coordinates development of the mitigation plans with the risk owner
  - Submit the mitigation and KPI status to the Steering Committee for review and confirmation
- Chief Information Security Officer (CISO):
  - Ensures data protection and privacy compliance as per applicable statutory requirement
  - Updates Steering Committee and Risk Management Committee about data privacy compliance status
  - Manage cyber security breach and update Steering Committee, Risk Management Committee as per cyber crisis management plan

(e) Risk Owners and Mitigation Plan Owners

- Risk owners are Senior Management personnel who are responsible for monitoring key risks and ensuring timely implementation of mitigation plans
- Mitigation plan owners are responsible for timely implementation of the mitigation plans assigned to them and periodic certification on their effectiveness

Internal Audit Scope and Plan

Internal Audit

Through a risk-based approach, the Internal Audit function provides independent and reasonable assurance over internal controls' design and operating effectiveness. The function reports directly to the Audit Committee and administratively to the Chief Financial Officer.

In accordance with the provisions of Section 138 of the Companies Act, 2013, the Company appointed Ernst & Young (EY) and PricewaterhouseCoopers (PwC) as Internal Auditors for the period from April 1, 2024 to June 30, 2024. Effective July 1, 2024, Ms. Seema Bassi, an internal employee was appointed as the Internal Auditor of the Company. Her appointment reflects a strategic shift towards leveraging internal expertise for enhanced audit effectiveness.

At the start of each financial year, the Internal Audit Committee reviews and approves the annual internal audit plan. This plan is determined by considering the Internal Audit's review framework to ensure complete coverage in 3 years and the outputs of a data-driven risk assessment.

The committee reviews progress against the approved plan and the results are deliberated for all the audit reports, quarterly.

Management is responsible for ensuring that issues raised by Internal Audits are addressed within agreed timelines and that the Committee reviews their timely completion.

The internal Audit function has adopted comprehensive data analytics to provide focused and insightful audit deliverables.

Management Discussion and Analysis

Economy Overview

The global economy is projected to grow by 3.0%[1] in 2024, reflecting a moderation amid ongoing geopolitical tensions and supply chain disruptions. Despite these challenges, improvements in inflation outlooks and the implementation of proactive monetary policies have supported stability and consumer confidence. This resilience fosters cautious optimism, with many economies avoiding a prolonged slowdown or recession.

Growing Influence of Emerging Markets

Emerging markets within the G20 continue to play a crucial role in shaping the global economic landscape. They contribute approximately 30% to global output and trade, with their influence expanding through integration into global value chains. Over the past two decades, these economies have maintained impressive growth rates - averaging nearly 6% annually - fuelled by structural reforms, demographic advantages and technological advancements.

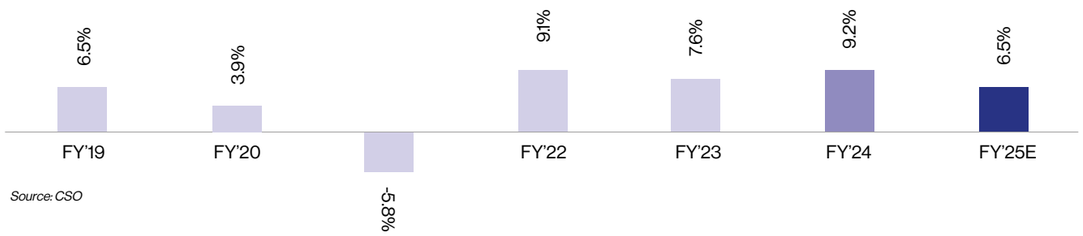

India remains a key growth engine for the global economy. The Reserve Bank of India projects FY'25 GDP growth at 6.5%, consistent with the second advance estimates from the National Statistical Office, driven largely by strong private consumption. Real Gross Value Added (GVA) is expected to grow by 6.4% y-o-y, propelled by agriculture and services sectors.

India's resilience is underpinned by ongoing reforms in digitisation, infrastructure and a sustained investment cycle supported by increased government expenditure. Improved capacity utilisation and a resilient financial sector further bolster this trajectory. These factors position India well on its path towards becoming the world's third-largest economy.

Inflation, projected at 4.8%[2] for FY'25, is expected to decline further owing to favourable food prices and the impact of prior monetary policy measures. Recognising this favourable outlook, the Reserve Bank of India has begun rate cuts to stimulate growth while maintaining price stability, thus creating a conducive environment for sustained economic expansion.

Industry Overview

The Global Consumer Foodservice Industry's revenues is estimated to have surpassed $3.1trillion in CY2024 with higher transaction volume growth partially offset by a decline in revenue per transaction. This also impacted investment in outlet expansion with the global outlet count increasing only by 1.8%. While the revenue growth was distributed across most regions as services' spending continue to improve an upward trajectory following the pandemic; however, cost inflation and the ability to pass on price increase to consumers led to higher value offerings impacting profitability for the industry.

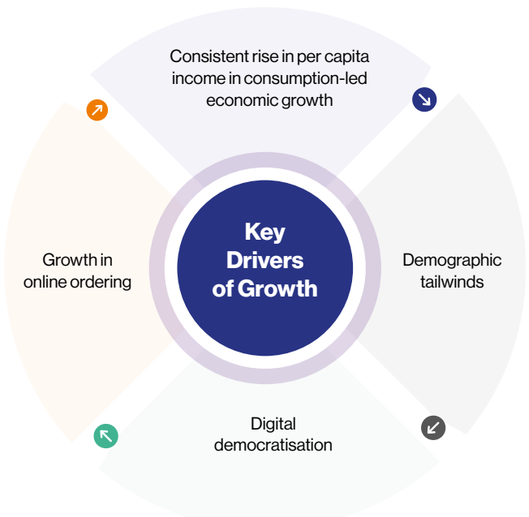

Delivery is expected to be the most dynamic channel within Consumer Foodservice. By 2029, Delivery is expected to account for 25% of global sales, compared to 21% in 2024. Consequently, the share of Takeaway is expected to stabilise. Dine-in share is expected to continue to experience a decline from 55% in 2024 to 51% by 2029, largely driven by the growth of delivery services.

The Indian foodservice Industry, at $56.1 billion in CY 2024, is currently the ninth largest food service market in the world. Over the last fifteen years, the Indian food services market (Industry) has grown at CAGR of 8%, largely mirroring the nominal GDP growth of the country. Within it, organised market is growing faster and its share at 33.8% is increasing at the expense of the unorganised market.

Indian Food Delivery, estimated at $7.6 billion in CY 2023, saw an unprecedented CAGR growth of 42% between CY 2018-23 and the CAGR growth is estimated to be ~16% between CY 2023 and CY 2028. The growth will be spurred by increased adoption of home delivery, well supported by higher frequency as per industry estimates.

Growth Drivers

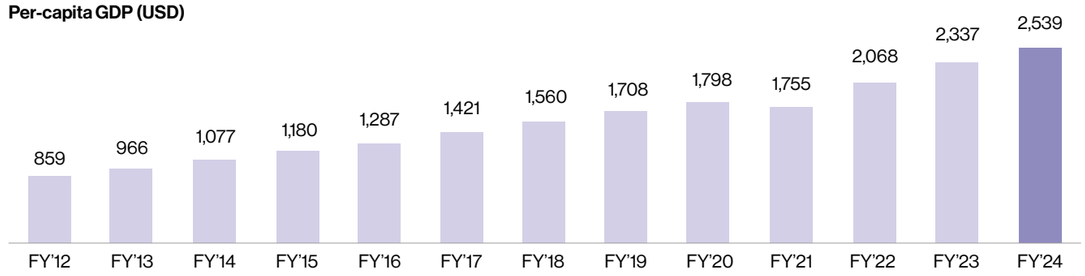

The food services industry in India will continue to grow at a faster rate owing to a number of secular trends. Within the overall industry, Chained QSR segment is expected to chart an even faster growth trajectory.

Consistent Rise in Per Capita Income in Consumption-Led Economic Growth

India's share of domestic consumption, measured as private final consumption expenditure, in its GDP is ~60%. The continued strength in consumption can be attributed to a mix of socioeconomic factors. The high share of private consumption to GDP has the advantage of insulating India from volatility in the global economy. It also implies that sustainable economic growth directly translates into sustained consumer demand for goods and services. The per-capita income (at current prices) has grown at a CAGR of 9%. This rate of growth of per-capita income is expected to give a major boost to discretionary spending.

Demographic Tailwinds

India has the second-largest urban population in the world. The pace of India's urbanisation is a key trend to note for its implication on India's economic growth. As per UN estimates, around 416 million people will be added to India's urban population between 2018 and 2050, translating to approximately 40% urbanisation by 2030. This trend is expected to reflect greater purchasing power in the urban centres with stronger growth opportunity for industry.

India also has one of the youngest populations globally compared to other leading economies. The median age in India is estimated to be 28.7 years and is expected to remain under 30 years until 2030. The younger population is likely to have a greater inclination towards branded food service players.

Digital Democratisation

The Indian economy has been digitalising at a remarkable pace over the last decade. According to the State of India's Digital Economy Report 2024, India is the third largest digitalised country in the world in terms of economy-wide digitalisation and 12th among the G20 countries in the level of digitalisation of individual users.

The improving broadband network penetration, device and services affordability has caused an increase in data usage across the country and enabled Indians to embrace digital applications.

The number of internet users at 840 million, has doubled since 2016. The digital transaction volumes have grown by seven times since 2019.

By 2030, India's digital economy is projected to contribute nearly one-fifth of the country's overall economy, outpacing the growth of traditional sectors. Over the past decade, digital-enabling industries have grown at 17.3%, significantly higher than the 11.8% growth rate of the economy as a whole. Digital platforms, in particular, have expanded rapidly, with an anticipated growth rate of approximately 30% in the coming years.

Growth in Online Ordering

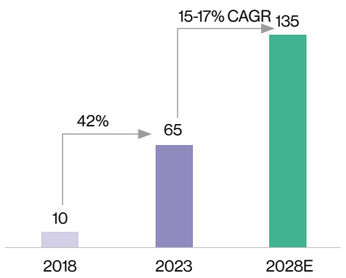

The share of online sales in the food service industry has reached double digit in 2021 and has continued to grow since then. The analysis of the funnel of Indian online consumers shows a tapering from a high number of internet users at 840 million to active consumers of social media and content at 450 million to 165 million digital commerce transactors.

Aided by digital democratisation and huge headroom for growth for digital commerce transactors, the share of online sales is expected to increase at a faster clip, further enabled by the following secular trends:

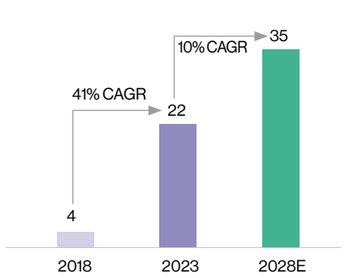

- Consumers are now accustomed to delivery across town classification helped with the ever-expanding reach of the delivery ecosystem in Tier II/III/IV
- With the option of food now being delivered at the touch of a button from the comfort of their home and at any time of the day, convenience is helping drive delivery growth and move users from occasion-based ordering to habitual ordering

Strategic Priorities

The Company's strategic priorities defines key focus areas, establishes the framework for decision-making and lays the foundation for the Company to maintain a consistent focus on driving sustained and profitable growth while creating long-term value for all stakeholders.

'Be the BOLD' is the Company's core strategy, driving profitable growth, enhancing customer satisfaction and solidifying market leadership. This strategy rests on four fundamental pillars: Breakthrough Technology, Operate with Excellence, Leading with Purpose and Delicious Food in every offering.

The Company embraces **Breakthrough Technology** by consistently investing in and leveraging cutting-edge technologies to optimise operations, personalise customer experiences and foster innovation across the value chain. A key component is the active utilisation of the proprietary Location.AI platform for data-driven site selection, optimising expansion strategies through market analysis and predictive modeling. Store.AI is implemented to create smarter stores, optimising in-store operations through real-time data analytics to enhance efficiency, inventory management and the customer experience. Moreover, the Company strives to deliver immersive and delightful customer shopping experiences through engaging mobile apps and an enhanced loyalty programme, leveraging customer data to tailor promotions, offers and recommendations for increased customer engagement and retention.

Operate with Excellence is all about continually streamlining processes, improving efficiency and ensuring consistency across all outlets and operations. A unique commissary-based sourcing, manufacturing of critical items and distribution model is leveraged to achieve the lowest recipe cost and highest fill rate, ensuring efficient resource utilisation and a consistent ingredient supply. The Company delivers the freshest pizzas with the fastest delivery times, optimising processes to minimise the time from order to delivery. Proprietary last-mile platforms are utilised to optimise delivery routes, track orders in real-time and ensure efficient and timely delivery, further enhancing the customer experience.

Leading with Purpose is at the heart of the Company's strategy, driven by the overarching purpose of Serving JOY. This is reflected in the understanding that 'The Joy of Customers is our ultimate reward' and 'Joy in teams is our secret ingredient.' The Company recognises the power of food to create extraordinary experiences, contributing to happy memories every day. 'Serving JOY' serves as the North Star, guiding all choices, decisions, work practices and investments. This commitment means prioritising the CUSTOMER FIRST, endeavouring to find A BETTER WAY, expressing CARE, thriving in HUSTLE and chasing GROWTH ambitions. The Company translates this purpose across the entire organisation, ensuring every store delivers JOY and can rely on the Company's values for guidance.

Finally, the Company is deeply committed to providing **Delicious Food in Every Offering**. This commitment extends beyond simply introducing new menu items; the Company is strategically developing comprehensive food platforms. This involves continuously innovating the menu, improving product quality and catering to evolving customer preferences through the creation of diverse and compelling food platforms. The Company invests in culinary research and development to create innovative and appealing food platforms, uses high-quality ingredients and ensures adherence to strict food safety standards, personalises offerings to cater to diverse tastes and dietary requirements within these platforms and continuously seeks customer feedback to refine recipes and improve product satisfaction across all food platforms.

B. Breakthrough Technology

Store.AI

The Company is leveraging the power of data and AI to unlock unprecedented growth and elevate the customer experience. One key area is Location.AI, a proprietary engine that analyses thousands of internal and external demand signals to identify optimal locations for new stores. This allows for prediction of demand with remarkable accuracy, down to specific streets and malls, strategically expanding the network and maximising reach. Location.AI also optimises existing delivery areas and store timings, maximising growth and operational efficiency and enables hyperlocal marketing campaigns to drive demand and engage customers at a granular level.

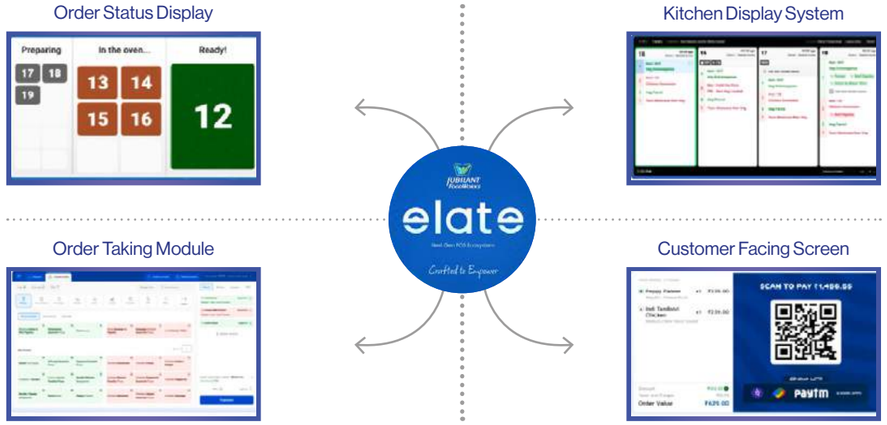

Another area of focus is Restaurant.AI, a suite of AI-powered tools designed to enhance efficiency, optimise performance and elevate the customer experience. This includes an advanced surveillance solution that uses AI to ensure compliance and cleanliness in stores, safeguarding high standards. Restaurant.AI also dynamically adjusts delivery

zones and discounting strategies, optimising demand and managing peak loads, even during challenging conditions.

Finally, Delivery.AI, powered by rider technology, ensures the hiring, onboarding and retention of the best riders to deliver fast and efficient service. This facilitates rider onboarding in under 30 minutes, dynamically allocates orders for optimal efficiency and proactively communicates with customers about potential delays, ensuring faster deliveries, optimised rider performance and an exceptional customer experience. The Company is shaping the future of food through these AI-driven initiatives.

During the year, the Company launched Elate, India's first Android-based POS (Point of Sale) and Order Taking System designed specifically for the food service industry. Elate represents a significant step forward in Company's digital transformation journey. It is cloud-first and seamlessly integrates with the Company's D2C platforms and hence is able to take advantage of sophisticated machine learning models to form a unified and personalised digital ecosystem. Elate has been developed by the Company's 250-member product, UX, tech and data science team. It is specifically designed to improve order-taking, store operations and customer experiences inside stores and is all set to revolutionise the restaurant operations by reducing the training times and ensuring desired customer experiences across the entire portfolio of Brands.

O. Operate with Excellence

The third priority is to continue driving operational excellence. The Company places inordinate focus on continuous improvement when it comes to executing with excellence. From procurement to food tech park operations to managing the logistics to kitchen operations to last mile operations, across brands and countries, the Company is developing a unique way of execution – 'The JFL Way'. Notably, with the Company's vast expanse of operations, the continuous endeavour is to manage complexity at lower cost, generate leverage while bringing in improvements in the backward-integrated sourcing supply chain with state-of-the-art commissaries. One critical outcome of this priority will be marked improvement across cost lines and productivity.

Store Operations

A foundational element for Domino's india turnaround has been the restructuring from a four-region to a seven-region model, further segmented into 35 circles, with each region poised to scale to a Rs. 1000-cr business and each circle led by a dedicated 'market-maker.' This localised approach is yielding a strong uptick in underlying customer metrics, signaling significant potential for future gains.

Integrated Supply Chain

The Company has built a robust integrated supply chain, which oversees four broad functions, ensuring consistent quality, efficient operations and support for future growth:

Sourcing and Supplier Management

The Company places considerable emphasis on procuring high-quality raw materials, fresh ingredients, packaging, engineering products, capital goods and equipment, enabling it to provide quality products and experiences to its customers. A key element of this strategy is the centralised procurement through commissaries, which maximises leverage and enables the Company to negotiate favourable pricing with suppliers. This approach is evident not only in India but also in Jubilant FoodWorks' DPEU operations (Turkey, Azerbaijan and Georgia). DPEU utilises a similar commissary-based procurement organisation, ensuring consistent standards and cost efficiencies across its supply base. The Procurement and Quality teams maintain strong oversight to uphold quality standards at every stage.

Food Safety and Quality Control

High hygiene standards, food that is uncompromised on quality and taste and consumer safety are the Company's top priorities. The Company has developed sustainable systems and processes for ensuring the highest standards of food safety and hygiene. It also adheres to all the applicable rules and regulations regarding the manufacture, storage, distribution of products and labelling information – under Food Safety and Standards – for all its food products, including legal metrology. The Company works with its partners and employees to ensure that there is no compromise on the taste, quality and safety of the products, which its consumers have come to love over the years.

Commissaries and Distribution Centres

The Company operates a network of commissaries and distribution centres to support its diverse brand portfolio. In India, eight commissaries and four distribution centres primarily manufacture food intermediaries, house central kitchens and act as fulfillment centers/warehouses for the majority of ingredients, ensuring consistent quality and timely delivery to stores. The primary raw materials used in pizza preparation, such as cheese, flour, vegetables and chicken, are sourced and processed within these commissaries. Domino's utilises fresh, centrally produced dough made with the standard global recipe. The Greater Noida commissary features a dedicated dough lab that continuously monitors inputs to ensure consistency. Dedicated facilities also exist for desserts meant for Domino's, donuts for Dunkin' and a recently introduced central kitchen. This central kitchen exemplifies forward integration, enabling standardised menus, consistent quality through enhanced supervision, automation and cost efficiencies.

DPEU operates six commissaries and one distribution centre across Turkey, Azerbaijan and Georgia. These facilities manufacture dough and serve as fulfillment centers, mirroring the function of the Indian commissaries. The Gebze commissary features a dedicated dough lab, ensuring quality standards are maintained in the dough production process. COFFY's fulfillment operations are managed through four main commissaries in Turkey, creating synergies with Domino's operations. To support future store expansion across all regions, the Company plans to continue investing in both new and existing commissary infrastructure, optimising capital expenditure through strategic use of 3PL capacities and facility expansions.

The Jubilant Food Park Bangalore commissioned in the previous year is the largest and the most prestigious food processing unit, adding unprecedented new capabilities for business growth across the entire portfolio of brands. This facility is designed to serve 750+ Domino's stores and 300 stores of Popeyes, Hong's Kitchen and Dunkin'. In addition to the usual Dough manufacturing and the Cold Warehouses at our Supply Chain Centers, the Bangalore Food Park has large factories for chicken toppings and chicken marination, bakery products manufacturing, seasoning manufacturing and a state-of-the-art Central Kitchen. This gives the Company a unique cost advantage along with end-to-end value chain control.

Research and Development

The Company has an internal product development team (comprising a team of chefs, food technology expert and a kitchen in-charge) which interacts constantly with consumers, the marketing team and the market research teams to get their feedback on our food products and new product ideas. The Company also has a dedicated internal product development kitchen located at the commissary in Greater Noida and at its Head Office in Noida. It also relies on franchisor's expertise along with close collaboration among other franchisees for new product development ideas as well as food technology. The internal product development team works independently and also in close collaboration with the vendors to develop the ingredients for our food products to meet ongoing requirements for menu innovation.

During the year, the Company pivoted from ingredient innovation to establishing a full-fledged R&D function for new product development and new categories. The famous Brioche bun in Popeyes India is developed in-house with recipes validated by RBI team. In Domino's, the R&D team ensured that the menu is 100% free from usage of artificial preservatives, colours and flavour under the Baking Goodness initiative of the brand. The team also continuously strives to reduce fat and salt content in all its products while maintaining the same loved taste.

Logistics

Efficient logistics are critical to the Company's success. In India, store operations depend on frequent and consistent deliveries of raw materials, intermediaries and finished food items, requiring a high fill rate (Domino's has an industry leading fill-rate of over 99.5%). This is achieved through rigorous materials and resource planning, load leveling, close engagement with suppliers and optimised inventory levels. DPEU mirrors this focus, with Domino's stores receiving deliveries twice per week and COFFY stores varying based on store type. Across all operations, a dedicated cold-chain fleet ensures the timely delivery of temperature-sensitive goods, minimising wastage and maintaining quality. The logistics teams in both India and DPEU continuously focus on improving fleet utilisation and reducing mileage through advanced planning and collaboration with suppliers.

The Company has a dedicated cold-chain fleet that helps in ensuring timely delivery of raw materials to stores. These trucks are refrigerated to ensure that the ingredients are supplied in a temperature-controlled environment, which is monitored during transit to ensure quality and minimise wastage.

L. Lead with Purpose

Companies built to last, have a culture and people processes that are home grown. To succeed, the Company has identified three interlinked objectives:

(i) Engaged and inclusive front-line teams

(ii) Be the employer of choice

(iii) Be guided by a unique JFL culture embedded with values that last beyond us

Culture and Allied HR Strategy

Smart hustle, guest-centric, collaborative, flexible and tech-driven are the five basic tenets which define the Company's culture. Accordingly, the objectives of the Company's Human Resources strategy have been defined with a view to attracting talent, optimising their deployment and providing them with opportunities to develop their potential, thereby ensuring that all their skills and expertise are available to meet the current and future needs of the Company. The success of this approach is borne out by the results of employee engagement and satisfaction surveys, conducted every year.

During the year, the Company was regarded as Great Place to Work for third time in a row as a reflection of high trust, high performance culture and a marker of being an employer of choice.

Diversity and Inclusion

The Company firmly believes that focusing on diversity, equity and inclusion is not just the right thing to do, it is critical for long-term success. All the stakeholders benefit when the Company amplifies diversity, creates a platform to celebrate uniqueness and creates an environment where everyone can contribute, thrive and prosper. It brings diversity of thought, greater innovation, better understanding of customer mind-sets, better employee engagement and sets the Company on a path to excellence. During the year, the Company took concerted efforts to build a more diverse workforce and nurture an equitable and inclusive culture. The Company is committed to create an ecosystem that attracts and grows talent from all genders, backgrounds and generations.

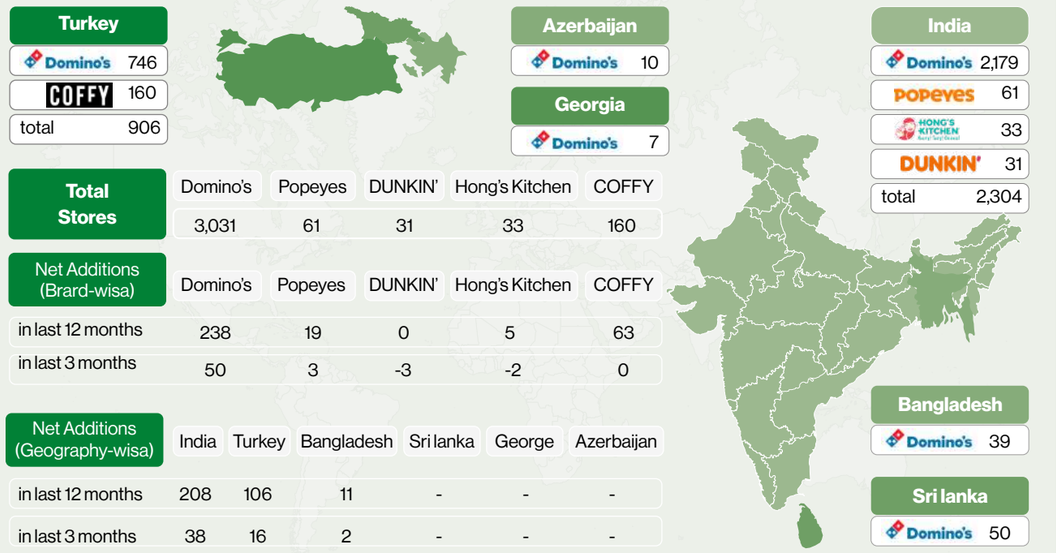

D. Delicious Food

The underlying objective here is to build a multi-brand and multi-country food service organisation. The endeavour is to serve multiple occasions, innovate on formats that drive engagement and customise menu as per the needs of local market. JFL Group's store network is now 3,316 stores strong across six markets and five brands.

Through the market presence in these six countries – India, Turkey, Bangladesh, Sri Lanka, Azerbaijan and Georgia – the Group has a potential to serve ~22% of world's population. This enhances the potential long-term growth for the Group.

The Group has further strengthened its Portfolio of Brands comprising three franchised global brands – Domino's, Popeyes and Dunkin' along with two own-brand Hong's Kitchen and COFFY. The Portfolio of Brands is further accentuated with participation of multiple cuisines, which significantly enhances the ability of the Group to participate in its consumer's total share of meal occasions.

Domino's

The Global QSR Pizza industry is valued at $94 bn, with the international QSR Pizza segment (outside USA) is estimated at $41 bn. A large part of the future international growth will be contributed by the emerging markets. The partnership between Domino's and the JFL Group represents a long-standing relationship between the world's leading pizza brand and one of the most prominent foodservice players in emerging markets.

The JFL Group operates a total network of 3,031 stores across six markets—India, Turkey, Bangladesh, Sri Lanka, Azerbaijan and Georgia—through both corporate-owned and sub-franchise stores. These markets share several strategic similarities. Each has exclusive full-territorial rights for under-penetrated, high potential markets. These markets are supported by one of the strongest value equations and operate on a unique commissary-based sourcing model. These markets have developed self-delivery and own-app infrastructure from the ground up. A distinct culture of agility and relentless focus on operational execution enable high throughput per store. Deep local expertise has been cultivated over decades, underpinned by a long-term vision and proactive investments for sustainable growth. During the year, a total of 238 net new stores were added across these six markets.

Domino's: JFL Group - World #1 Pizza Company; One of the Largest Emerging Market Franchisee

- Under-penetrated high-potential markets
- Self-delivery and Own-app Infrastructure
- Culture of Hustle (Highest throughput per store)
- Growth investments ahead of the curve
- Full Territorial Rights
- Strong Value Equation through unique Commissary model
- Maniacal focus on Operational Execution
- Local Know-how developed over decades

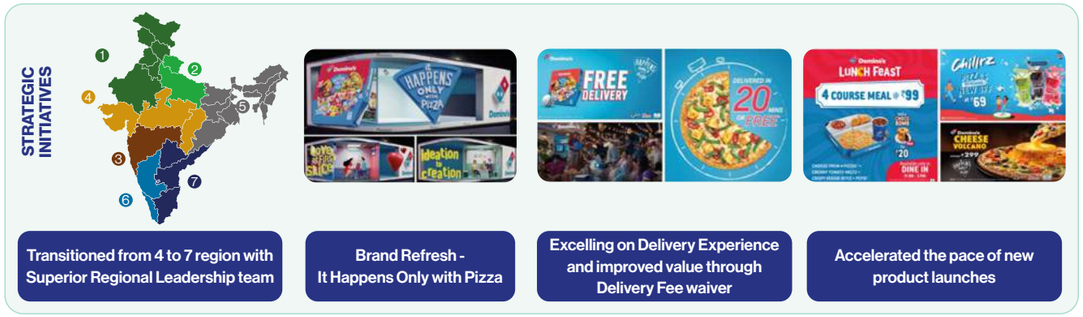

India

The turnaround of Domino's India has been propelled by a powerful confluence of strategic initiatives, each playing a crucial role in driving growth and enhancing the customer experience.

On the technology front, the complete migration of the customer app to a 'micro-services'-based architecture has been transformational. This shift has enabled a record-high monthly active user (MAU) and app installations during the year.

Concurrently, the brand refresh with the 'It Happens Only with Pizza' campaign improved brand scores, bolstering the brand's ability to capture key occasions and expand market share. A key focus has been on consistently reducing delivery times for customers and the Company has have achieved this via technology interventions in delivery systems as well as improving efficiencies in stores.

To further capitalise on in-store growth during lunch hours, the Company launched the 'Lunch Thali,' a competitively priced four-course meal at Rs. 99, offering exceptional value. Complementing this, the introduction of the 'Chillrz' beverage range aims to improve beverage attachment rates, while the globally acclaimed Domino's Cheese Volcano pizza range catered to indulgence-seeking customers, creating excitement and buzz within the category.

During the year, Domino's India introduced three new flavors to the popular Cheese Burst range, further enhancing the existing pizza offerings. Recognising the untapped potential in the chicken segment, the Company identified significant opportunities to drive value through chicken-based products. IInsights from international Domino's markets revealed a strong consumer preference for chicken items as shareable companions to pizza, known to increase order value and repeat visits. In response, Domino's India refined its customer value proposition, particularly in South India. As a result, the Chicken Feast range has now been launched nationally, starting at Rs. 99, supported by a dedicated Above-The-Line (ATL) campaign.

Turkey

Domino's Turkey delivered above-inflation growth and gained share. This was driven by successful activation of key consumption occasions, including the Bol launch, TPG campaign and calendar moments such as Sports events, Eid, Summer, Black Friday and New Year.

Through initiatives such as Cepte100, enhanced personalisation and an overhauled performance marketing strategy, Domino's Turkey maximised its own online sales (OLO).

On aggregator platforms, the team implemented new order acquisition strategies by leveraging platform-specific tools more efficiently. Additionally, the regional pricing restructure introduced a mid-tier pricing segment, which supported improved store-level profitability.

With the new version of MyDominos, the backoffice system for stores and franchisees for Domino's Turkey, it is now easier for the team to manage their operations more efficiently. Through the franchisee incentive project, the teams have enabled stores to clearly track their targets and get rewarded when they meet them.

Popeyes

Popeyes is known for its bold and unique Louisiana-style Cajun fried chicken and iconic chicken sandwiches. The use of bold Cajun spices - a proprietary blend of cayenne pepper, garlic, onion, black pepper, celery and white pepper - and techniques developed by an in-house culinary team of chefs have made the fried chicken a point of reference for Michelin Chefs and celebrities. The brand's passion for its Louisiana heritage and flavorful authentic food has enabled Popeyes to become one of the world's largest chicken quick service restaurants.

The iconic US Fried Chicken brand - Popeyes - made its debut in India with the opening of its first restaurant in Bengaluru in January 2022, followed by rapid expansion to 61 restaurants across 23 cities.

COFFY

Between 2019 and 2024, Turkey's coffee market underwent a significant transformation, marked by a clear shift towards chained operators. Chained cafés expanded their market presence and grew foodservice value by 382%, reaching TRY 11.8 bn, while their store count increased modestly to 1,033. In contrast, independent cafés saw a 26% drop in store numbers and a sharp 66% decline in transaction volume, although their foodservice value still rose by 195%, driven more by inflation than by organic growth. This divergence reflects evolving consumer behavior, with preferences shifting toward consistency, digital integration and modern experiences offered by branded chains. By 2024, total transactions across the market grew by 10%, store count rose by 7% and foodservice value surged by 49%, underscoring a broad rebound in demand. Among the most dynamic entrants, COFFY stood out, rapidly capturing a 2.3% share in the chained café segment, matching some of the global players in Turkey. COFFY's rapid rise is rooted in strategic store expansion, competitive pricing and a digitally native brand approach.

During the year, the Company expanded its product portfolio in COFFY with trend-driven innovations - such as introducing pistachio-flavored coffee - which helped increase both customer frequency and new customer acquisition.

The team successfully migrated COFFY to the newly developed, modern and stable app infrastructure. During the year, the Company also introduced Wallet and QR code payment capabilities, enhancing the digital customer experience for COFFY consumers. Additionally, the Company delivered digitalisation-focused improvements that strengthened marketing capabilities.

The team along with the franchisees opened 63 new stores, growing the network to 160 café, now serving consumers across 36 cities in Turkey.

Risk Management

Risk Management Framework

Effective risk management is integral to JFL operations and is embedded in its day-to-day business transactions and activities. The framework seeks to identify, prioritise, mitigate, monitor and appropriately report any significant threat to the organisation's strategic objectives, its reputation, operational continuity, environment, compliance as well as the health and safety of its employees.

A Disciplined Approach to Managing Risks

The approach is based on assessment of several factors and associated risks through proper analysis and understanding, conducted before undertaking any business activities or implementing changes to processes and systems.

Sr. No.	Material Issue Identified	Indicate whether risk or opportunity	Rationale for identifying the risk or opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity
1	Food Safety	Opportunity, Risk	**Opportunity** • The Company has developed sustainable systems and processes for ensuring the highest standards of food safety and hygiene that results in increased consumer satisfaction and helps in attracting and retaining customers. **Risk** • The Company operations involve various stages, from sourcing ingredients to food preparation and service, where potential food safety hazards may arise. • These food safety incidents may - Impact the well-being of consumers. - Erode the brand reputation leading to loss of consumer trust and loyalty. - Result in regulatory repercussions, including fines or sanctions. - Disrupt normal business operations, causing temporary closures, product recalls or supply chain disruptions. • Inability to adhere to prescribed food safety standards or any contamination of food product pose a significant risk to the Company.	• The Company has instituted stringent quality processes, standards and parameters that adhere to FSSAI norms across all sectors, including Restaurants, SCCs, Warehouses, Vendors, among others. • Periodic testing of food products and regular food safety reviews are conducted to ensure sustained compliance and effectiveness. • The Company is highly committed in procuring raw materials from suppliers certified under GFSI programme. • Regular training and awareness sessions are carried out for restaurant and SCC staff on adherence to quality norms. • The Company is actively monitoring and reducing food related customer complaints.	**Positive** • Higher sales due to increased brand loyalty and customer retention. • Cost savings in production, transportation and inventory management due to reduced waste, optimised processes and enhanced supply chain efficiency. **Negative** • Product recall and disposal costs. • Costs related to finding alternative suppliers, renegotiating contracts or even temporary production halts. • Penalties for non-compliance with food safety regulations. • Legal fees, settlements and damages due to lawsuits from affected consumers or regulatory bodies.
2	Health, Safety and Wellbeing	Opportunity, Risk	**Opportunity** • Safety and well-being of its employees and delivery associates are of utmost importance to the Company and form a cornerstone of its operational priorities. • Ensuring a secure and supportive workplace environment that fosters productivity and loyalty and enhances workforce morale. **Risk** • Given the nature and scale of our business which involves a large workforce engaging daily in food preparation, delivery logistics and interaction with diverse urban environments, workforce safety is crucial. • Health, safety and wellbeing is considered as critical because of following reasons - Unsafe working conditions and lack of support for employee well-being can lead to low morale and productivity, violation of employee rights and high attrition. - Employee casualty can be subject to negative publicity and a loss of customer trust and confidence, which can impact the Company's reputation. - Poor employee safety and well-being can lead to increased health care costs and compensation claims, which can have a significant financial impact on the organisation.	• The Company has systematically identified potential safety hazards at SCCs and restaurants and has ensured that adequate safety measures are implemented in compliance with applicable occupational health and safety regulations. • Additionally, the management has established a safety review process to ensure that employees comply with safety measures. • All reported cases undergo a comprehensive review and corrective and preventive actions are implemented as necessary. • To enhance employee awareness and preparedness, regular safety training and communications are carried out. • Each Company location maintains a first response plan and details of nearby medical facilities for emergency cases. • The Company ensures that all employees and workers are covered by insurance policies, including medical and accident cover, to provide financial support in case of unforeseen incidents.	**Positive** Increased workforce morale, satisfaction and retention lead to: • Enhanced productivity and improved service, resulting in better customer satisfaction positively impacting sales and profitability. • Reduced costs associated with recruiting, training and on-boarding new employees. **Negative** • Costs associated with medical treatment, rehabilitation, claims management and increased insurance premiums. • Fines and penalties due to non-compliance with Occupational Health and Safety regulations. • Litigation and settlement costs.
3	Business Ethics	Opportunity, Risk	**Opportunity** • Upholding the highest ethical standards present an opportunity for - Differentiation and competitive advantage. - Enhancement of brand reputation - Fostering trust among stakeholders. - Reinforce commitment to long-term value creation and sustainablegrowth. **Risk** • In today's increasingly interconnected and scrutinised business environment, maintaining a steadfast commitment to ethical conduct is paramount. While the Company has a strong track record of upholding ethical principles, it is essential to remain vigilant and proactive in addressing emerging ethical challenges. • These ethical challenges can impact - Culture of ethical behaviour across all levels of the organisation. - Compliance with evolving regulatory frameworks. - Company reputation on being associated with any perceived ethical lapses.	• Clear ethical guidelines and code of conduct that outline expected behaviour from employees and vendors. • Robust and effective framework for reporting of statutory compliances and review on a periodic basis. • Confidential Whistle blower channels for employees to report unethical behaviour or concerns without fear of retaliation. • Regular training sessions and educational programmes to raise awareness about ethical issues. • Effective oversight mechanisms, such as independent audits, compliance committees and Board Committees to monitor adherence to ethical guidelines.	**Positive** • Enhanced collaboration, partnerships and business opportunities leading to improved operations, access to new markets and strategic alliances that drive growth and innovation. **Negative** • Costs related to legal investigations and lawsuits. • Fines, penalties and increased regulatory oversight. • Impact on sales and profitability due to negative publicity.
4	ESG Framework and Sustainable Business Conduct	Opportunity, Risk	**Opportunity** Ensuring a robust ESG framework helps in • Cost reduction opportunities through waste minimisation and efficient use of resources. • Creation of a responsible brand image attracting environmental conscious customers. • Increased investor confidence. **Risk** • In today's dynamic business environment, there is a growing emphasis on ESG considerations in business operations. • It is essential to recognise the risk associated with evolving landscape of ESG frameworks and regulations and also acknowledge the changing expectations of stakeholders, including investors, regulators and communities. • The risk can impact the Company in following ways - Non-compliance with statutory requirements resulting in adverse action by regulators. - Negative publicity related to sustainable business practices causing reputational damage	**a) ESG framework** • Review of business processes to identify material focus areas and to establish objectives and targets. • Periodic tracking and review of actual achievement against targets. • Define reporting format, content and matter in line with statutory requirements and industry best practices. **b) Human Rights** • Create and implement a Policy that clearly outlines the standards and principles supported by the organisation. • Communicate the Human Rights principles to suppliers and partners through Supplier Code of Conduct, outlining clear expectations. • Establish formal channels for reporting concerns by employees (POSH, Whistle Blower mechanism and other relevant frameworks). • Conduct frequent employee communication around Human Rights policy and channels available for reporting concerns **c) Waste Management** • Partner with certified vendor for waste pick-up and disposal • Streamline the waste disposal, recycling, and reuse processes in a phased manner, ensuring compliance with statutory requirements and sustainable practices • Conduct periodic reviews to identify opportunities for waste recycling, reuse, and reduction, defining clear action plans and ensuring their effective implementation. **d) Environment** • Develop and implement an Environmental Policy outlining the Company's commitment and key initiatives to reduce - Carbon Footprint - Water Wastage - Impact of Company's Operations on Environment • Ensure Energy Management System ('EMS') is installed at all SCCs and restaurants for real-time, remote monitoring of electricity consumption and gaining actionable information for optimising energy usage.	**Positive** • Cost savings and better resource utilisation due to improved operational efficiency. • Higher sales volume due to increased brand loyalty from customers supporting businesses that prioritise sustainability and social responsibility. **Negative** • Legal liabilities, fines and penalties due to non-compliance with ESG regulations. • Impact on sales and profitability due to negative publicity related to ESG issues.

A Disciplined Approach to Managing Risks

The approach is based on assessment of several factors and associated risks through proper analysis and understanding before undertaking any business activities and implementing changes to processes and systems.

Internal Controls and their Adequacy

The Company's current systems of Internal Financial Controls (IFC) are aligned with the requirement of Section 134(5)(e) of the Companies Act, 2013 (Act). As stipulated under the said provisions, the IFC framework established by the Company encompasses the following elements:

- Orderly and efficient conduct of business
- Safeguarding of its assets
- Adherence to Company's policies
- Prevention and detection of frauds and errors
- Accuracy and completeness of the accounting records and timely preparation of reliable financial information

The Company's internal controls are commensurate with its size and the nature of its operations. They have been designed to provide reasonable assurance with regard to all the above stated IFC elements. To make the IFC framework robust, the Company worked on three lines of defence strategy:

First Line of Defence: Build internal controls into operating processes, which primarily include controls operated by the process owners under the overarching guidance of the Code of Conduct, Whistle-blower mechanism, budgetary controls, financial delegation of authority, accounting policies and manuals, period-end closing checklist, basis of accounting estimates and various other Company policies and procedures. For better governance, these operational controls have been implemented through robust digital, Enterprise Resource Planning (ERP) and other IT systems.

Second Line of Defence: Create an efficient review mechanism, comprising monthly business performance reviews under which each business unit and function is reviewed on its performance. Additionally, a robust Control Self-assessment (CSA) process enables process owners to perform self-assessment against the Risk and Control Matrices (RCMs). The CSA process enables the Company to monitor the adequacy and effectiveness of the internal control environment.

Third Line of Defence: Independent assurance through internal audits performed by audit firms of international and national repute. The internal audit scope covers the entire gamut of the Company's operations based on a rolling audit plan approved by the Audit Committee. The Audit Committee reviews reports submitted by the internal auditors and suggestions for improvement are considered. Additionally, the statutory auditors audited Company's financial statements included in this Annual Report and have also confirmed the adequacy and operational effectiveness of the Company's internal control over financial reporting (as defined in Section 143 of the Act).

Outlook

The JFL Group believes in the immense long-term potential of the food service category in the under-penetrated emerging markets. Secular trends such as young population, rising urbanisation, growing affluence, accelerated shifts towards digitalisation and shift in favour of the organised sector—particularly in favour of big, established, credible brands. With its portfolio of strong brands, key competitive advantages such as a proprietary commissary and delivery network and an in-house technology stack, the Group is well positioned to capitalise on these growth opportunities.

Cautionary Statement

Certain statements in the 'Management Discussion and Analysis' describing the Company's objectives, projections, estimates and expectations may be 'forward-looking statements' within the meaning of applicable securities laws and Regulations. Actual results could differ materially from those expressed or implied. Important factors that could influence the Company's operations include economic developments within the Country, demand and supply conditions in the industry, input prices, changes in Government regulations, tax laws and other factors, such as litigation and industrial relations.

BUSINESS RESPONSIBILITY AND SUSTAINABILITY REPORT

The Business Responsibility and Sustainability Report ('BRSR') highlight the Company's adherence to the principles outlined in the 'National Guidelines on Responsible Business Conduct'. The Company actively promotes its suppliers, partners, and other stakeholders in adopting these principles.

This report offers stakeholders insights into the Company's Environmental, Social, and Governance ('ESG') initiatives. The BRSR framework encompasses 9 (nine) core principles that listed companies must uphold in their business operations.

According to Regulation 34(2)(f) of the Listing Regulations, the BRSR for FY 2025 is annexed herewith as '**Annexure 'E'**, forming an integral part of this Board's Report. The reasonable assurance certificate (obtained by the Company voluntarily) for BRSR Core Indicators from an independent agency – TUV SUD South Asia Ltd. also forms part of this Integrated Annual Report.

PREVENTION OF SEXUAL HARASSMENT

The Company is committed towards promoting the work environment that ensures every employee is treated with dignity and respect and afforded equitable treatment irrespective of their gender, race, social class, caste, creed, religion, place of origin, sexual orientation, disability or economic status. Pursuant to the provisions of the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 ('POSH Act'), the Company has adopted a Policy on prevention of Sexual Harassment at Workplace. Periodic sessions were also conducted to apprise employees and build awareness on the subject matter. The Company's key focus is to create a safe, respectful and inclusive workplace which fosters professional growth for each employee.

As per the requirement of the POSH Act and Rules made thereunder, the Company had constituted an Internal Complaints Committee ('ICC') to redress the complaints received regarding sexual harassment. The ICC meets periodically to discuss various scenarios/sample cases and steps that can be taken to ensure that POSH cases are reported and addressed uniformly across the organization. The details of the complaints received during the year under review are as follows. The Company endeavours to complete the inquiry process within the stipulated period of 90 days.

i. Complaints filed during the financial year : 64
ii. Complaints disposed off during the financial year : 60
iii. Complaints pending as on end of the financial year : 4

CONSERVATION OF ENERGY, TECHNOLOGY ABSORPTION, FOREIGN EXCHANGE EARNINGS AND OUTGO

(A) Conservation of Energy

The Company continuously strives to reduce the environmental impact of its operations and lower its carbon footprint. It focusses on improving energy efficiency, increasing the use of renewable energy and improving waste management to reduce the overall environment footprint.

i) The steps taken or impact on conservation of energy

During FY 2025, the Company has installed Variable Frequency Drives ('VFDs') to dynamically regulate fan speeds based on real-time load requirements. With the VFDs in place, exhaust fans operate at optimal speeds—delivering full power only when needed and reducing their speed during low demand periods. This targeted solution has significantly reduced energy usage, extended equipment lifespan, and enhanced overall operational efficiency.

ii) The steps taken by the Company for utilising alternate sources of energy

a) **Renewable energy:** The Company has strategically transitioned to renewable energy for its sites with high energy demand to advance its Sustainability goals. The Company has successfully procured renewable power for its Bangalore facility through open access, and has signed a PPA to power its Greater Noida site with clean energy. This initiative has resulted in procurement of more than 6,000 MWh of Renewable energy.

b) **E-Bikes:** The Company has invested significantly in expanding E-Bikes to the ever growing fleet and business demand in its commitment towards sustainable operations. During FY 2025, the Company has made significant progress by increasing the number of e-bikes and e-cycle to 56%. This is an important initiative to reduce carbon footprint and transition to a more sustainable future. The Company is focused to implement e-bikes in all of the new stores, taking into account the local terrain. All of the bikes used in Popeyes and Hong's Kitchen are already electric.

c) **Petrol:** The Company has also optimized petrol consumption for petrol bikes by integrating smart business demand based limits resulting in a savings of 13 Lac litres of petrol worth 14 Cr in petrol cost. Even with significant higher scale of business growth in FY 2025, the Company's net cost per delivery has dropped by more than 50%. With its delivery bikes covering more than 300 million kilometers, this decrease in fuel consumption has led to a notable reduction in the carbon footprint. The Company is also integrating latest technology based Internet of Things ('IoT') devices for further optimization and developing excellence in business operations.

d) **Piped Natural Gas:** The Company operates over 230 stores using Piped Natural Gas ('PNG'), embracing cleaner fuel alternatives for store operations. Since PNG emits significantly fewer greenhouse gases compared to Liquefied Petroleum Gas ('LPG'), more than 10% of the Company's portfolio now relies on this eco-friendly fuel, reinforcing its commitment to sustainable and responsible growth. Additionally, the Company has achieved a 7% year-on-year reduction in overall gas consumption by implementing smart usage limits and deploying innovative solutions across its store network.

iii) The capital investment on energy conservation equipment

Capital investment on energy conservation equipment during FY 2025 was approx. ₹909.23 million.

(B) Technology Absorption

The Company continues to set new benchmarks in technology adoption within the food service industry, pioneering digital innovations that enhance customer experience and drive operational excellence across its digital platforms, restaurant network, delivery systems, commissaries, and supply chain.

Best-in-Class Digital Ecosystem and Consumer Experience

The Company has built an industry-defining, food-first digital ecosystem anchored by a friction-free, high-conversion mobile app and powered by a sophisticated digital commerce platform. Through deep investments in UX research and the development of proprietary personalization and recommendation engines, the Domino's India App has emerged as the highest-rated food delivery app on both iOS and Android. These efforts have led to record-high conversion rates and a seamless ordering experience, reinforced by innovative features such as ordering pizza on moving trains and drive-through collection.

A next-generation digital platform underpins this transformation—designed to seamlessly scale across multiple brands, countries, and languages. This foundation positions the Company to unlock new business models and expand its digital footprint globally.

Store.AI: Proprietary AI Engine Powering Strategic Growth and Precision Operations

The Company is at the forefront of integrating Data, Artificial Intelligence ('AI'), and Machine Learning ('ML') at scale to drive its next phase of growth and operational efficiency. Central to this transformation is its proprietary store.AI engine, a cutting-edge platform that supports data-driven decision-making across the network.

In a highly competitive market where location is critical to a restaurant's success, particularly for a market leader like Dominos, identifying optimal store sites is both a challenge and a strategic priority. With nearly 2,200 stores in operation, planning the next 1,000 locations requires precision, foresight, and technological innovation.

The store.AI engine evaluates thousands of internal and external demand signals to pinpoint high-potential areas for new store development. It enables the Company to predict demand with exceptional accuracy, down to specific streets and malls, ensuring that each new outlet is strategically placed for maximum impact.

Beyond expansion, store.AI plays a crucial role in optimizing existing operations. It enables data-led refinements in delivery zones and store operating hours, ensuring enhanced efficiency and superior customer service. Furthermore, the ability to identify micro-clusters empowers the Company to deploy hyperlocal marketing campaigns, driving targeted demand and deeper customer engagement at a granular level.

Through store.AI, the Company is not only transforming how it grows but also reinforcing its position as a technology-first, customer-centric brand committed to long-term value creation.

Enhancing Customer Experience through Proprietary Customer Science Engine

The Company continues to strengthen its competitive advantage by leveraging data and advanced analytics to deliver highly personalized customer experiences. At the core of this effort is the Company's proprietary Customer Science Engine, which plays a pivotal role in deepening customer understanding and driving engagement across all touchpoints.

This engine continuously tracks a wide range of customer interactions—including order history, browsing behaviour, CRM engagement, Net Promoter Scores ('NPS'), and feedback—to generate rich, actionable insights. By analysing this data, the engine enables the Company to understand each customer uniquely, predict future behaviour, and prescribe the Next Best Action—whether it's a personalized offer, product recommendation, or tailored communication.

As a result, customers receive dynamically curated menus, relevant cross-sell and upsell suggestions, and a faster, more intuitive ordering experience. This not only enhances convenience and satisfaction but also improves conversion rates and order values.

Additionally, the engine supports precision in promotional strategy by powering targeted discount investments. Instead of broad-based discounts, the Company can selectively offer incentives to customers where they are most effective, improving return on investment and protecting margins.

Through the Customer Science Engine, the Company is creating a more personalized, efficient, and profitable customer journey—underscoring our commitment to customer-centric innovation and sustainable growth.

Precision Pricing Powered by AI

The Company's proprietary pricing engine harnesses the power of Artificial Intelligence and Machine Learning to drive intelligent, pricing decisions with precision and agility. By integrating real-time demand signals, market dynamics, and a wide array of external data sources, the engine continuously refines pricing strategies and tailors promotional constructs to maximize revenue across channels. The pricing engine is designed to deliver the most value to customers—ensuring pricing remains competitive, relevant, and responsive to customer needs.

This AI-led approach not only strengthens the Company's ability to respond to shifting market conditions but also reinforces its commitment to profitable, customer-centric growth. By embedding intelligence at the core of its pricing strategy, the Company is well-positioned to drive long-term value creation and maintain its leadership in a dynamic, data-driven marketplace.

Driving excellence in restaurant operations, delivery, commissaries, and supply chain

The Company is advancing its operations by embedding automation in its restaurants, commissaries, and logistics through enterprise-grade processes. An auto-indenting tool forecasts daily ingredient requirements at the store level, optimizing inventory to ensure maximum availability while minimizing waste and sales loss. The in-house Last Mile Delivery Platform ('DMS') empowers the Company's restaurants and riders to efficiently manage order deliveries, providing customers with a smooth order-tracking experience. The proprietary restaurant app, OSSOM, serves as a comprehensive tool for restaurant managers to streamline operations.

The Transportation Management System ('TMS') optimizes the Company's outbound logistics, including route optimization, delivery scheduling, real-time tracking via a Digital Control Tower, and detailed reporting on key performance indicators, freight cost allocation, and more. The Company also employ IoT sensors to monitor variables such as chamber temperature, truck speed, door status, and truck geolocation to ensure food quality.

The Warehouse Management System ('WMS'), supported by hand-held terminals ('HHTs'), effectively manages warehouse activities. Additionally, tech-based resource planning tool incorporates sales forecasts and delivery schedules to project daily staffing requirements, production schedules, dispatch cases, truck and dock requirements, and more. The Company utilizes face biometric-based access control to accurately measure area-wise productivity at commissaries, digital energy meters, and an Energy Management System ('EMS') to drive energy efficiency. Advanced cameras are used to read vehicle number plates, enhancing its ability to monitor truck movements.

The Company is making strategic advancements in Generative AI ('GenAI') to unlock scalable intelligence across customer engagement and operations. This next-generation capability is enhancing its voice-of-customer initiatives, enabling deeper understanding and faster responsiveness at scale. GenAI is being deployed to generate personalized marketing content, automate customer support interactions, and synthesize large volumes of operational data, significantly improving productivity, consistency, and insight generation across functions.

Through these initiatives, the Company continues to lead the industry in innovation, setting new standards for customer satisfaction and operational excellence. The Company's dedication to technological advancement ensures that it remain at the cutting edge, providing exceptional value and experiences for customers as well as employees.

Performance Evaluation of the Board and its Criteria

Pursuant to the provisions of the Act, Listing Regulations, Performance Evaluation Policy and Guidance Note on Board Evaluation issued by SEBI, the Board has carried out annual evaluation of its performance, its Committee(s) and of each Director. During the year under review, the NRC Committee ascertained and reconfirmed that the deployment of "questionnaire" as a methodology, is effective for evaluation of performance of Board and Committees and Individual Directors. A structured questionnaire was prepared and circulated to the Directors for each of the evaluation.

Performance of the Board was evaluated by each Director on the parameters such as its roles and responsibilities, business risks, contribution to the development of strategy and effective risk management, understanding of operational programmes, availability of quality information in a timely manner, regular evaluation of progress towards strategic goals and operational performance, adoption of good governance practices and adequacy and length of meetings etc. Independent Directors also carried out evaluation of the Board performance.

Board Committees were evaluated by the respective Committee members on the parameters such as its role and responsibilities, effectiveness of the Committee *vis-a-vis* assigned role, appropriateness of committee composition, timely receipt of information by the committee, knowledge updation by the committee members, effectiveness of communication by the committee with the Board, Senior Management and Key Managerial Personnel etc.

Performance of the Chairman was evaluated by the Independent Directors (after taking into account the views of Executive and Non-Executive Directors) on the parameters such as demonstration of effective leadership, contribution to the Board's work, communication with the Board, use of time and overall efficiency of Board Meetings, quality of discussions at the Board Meetings, process for settling Board agenda etc.

Directors were also evaluated individually by all other Directors (except the Director himself/herself) on the parameters such as his/her preparedness at the Board Meetings, devotion of time and efforts to understand the Company and its business, quality of contribution at the Board meetings, application of knowledge and experience while considering the strategy, effectiveness of follow-up in the areas of concern, communication with Board Members, Senior Management and Key Managerial Personnel etc. Independent Directors were additionally evaluated for their performance and fulfilment of criteria of independence and their independence from the Management. Also, the performance evaluation of the Non Independent Directors was carried out by the Independent Directors.

The results of evaluation showed high level of commitment and engagement of Board, its various committees and senior leadership. The results of the evaluation were shared with the Board, Chairperson of respective Committees and individual directors.

The Directors expressed their satisfaction with the entire evaluation process.

- Statement containing significant transactions and arrangements entered into by the subsidiaries are placed before the Board of Directors of the Company on a quarterly basis.
- Minutes of Board Meetings of the subsidiaries are placed before the Board of Directors of the Company on a quarterly basis.

d) **Disclosure of commodity price risk or Foreign exchange risk and commodity hedging activities:** Risk management is integral to Company's strategy and the attainment of Company's long-term objectives. In the ordinary course of business, the Company is exposed to various risks, particularly concerning price fluctuations in commodities (as defined in the SEBI Circular No. SEBI/HO/MRD/MRD-PoD-1/P/CIR/2024/13 dated March 5, 2024, hereinafter referred to as 'commodities') as well as exposure to foreign exchange fluctuations. While the Company has observed a moderation in inflationary pressures on certain commodities over previous year, external factors such as extreme weather events and geopolitical uncertainties continue to present inflationary risks in the near to medium term. To address these challenges, the Company adopts a proactive risk management approach, continuously monitoring and assessing risks across short, medium, and long-term horizons and implementing targeted mitigation strategies. Outlined below are some of the key actions:

1. **Real-time Commodity Monitoring:** The Company has instituted a comprehensive system to collect and analyze relevant data on key raw materials, tracking both domestic and international price trends, lead and lag indicators, industry dynamics, and supply-demand conditions. This enables informed decision-making regarding the volume, timing, and duration of commodity contracts, thereby facilitating effective management of supply and price volatility risks.

2. **Productivity Initiatives:** A cross-functional program focused on enhancing operational productivity and cost efficiency has been implemented across the organization. By leveraging in-house manufacturing, internal expertise and collaborating closely with global suppliers, the Company identifies and executes initiatives aimed at reducing commodity costs without compromising product quality and consumer experience.

These measures reflect the Company's commitment to robust risk management practices and the sustainable operation of its business. All risk management activities are conducted within a clearly defined governance framework that ensures oversight, accountability and adherence to established policies.

As per the Company's Policy for Determination of Materiality of Events and Information, the details of the exposure of the Company to material commodity in terms of SEBI Master Circular No. SEBI/HO/CFD/PoD2/CIR/P/0155 dated November 11, 2024 is as under:

The Company has identified and prioritized material sustainability topics that pose risks and/or opportunities to the business.

Below is a list of these material issues, categorized by their financial implications and mitigation actions taken to address the associated risk.

Sr. No.	Material Issue Identified	Indicate whether risk or opportunity	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity
1	Food Safety	Opportunity	**Opportunity:** • The Company has developed sustainable systems and processes for ensuring the highest standards of food safety and hygiene that results in increased consumer satisfaction and helps in attracting and retaining our customers	**To address this risk:** • The Company has instituted stringent quality processes, standards and parameters that adhere to FSSAI norms across all sectors, including Restaurants, SCCs, Warehouses, Vendors, etc.	**Positive:** • Higher sales due to increased brand loyalty and customer retention
		Risk	**Risk:** • The Company operations involve various stages, from sourcing ingredients to food preparation and service, where potential food safety hazards may arise. • These food safety incidents may: - Impact the well-being of consumers - Erode the brand reputation leading to loss of consumer trust and loyalty - Result in regulatory repercussions, including fines or sanctions - Disrupt normal business operations, causing temporary closures, product recalls or supply chain disruptions • Therefore, inability to adhere to prescribed food safety standards or any contamination of food product poses a significant risk to the Company.	• Periodic testing of food products and regular food safety reviews are conducted to ensure sustained compliance and effectiveness • The Company is highly committed in procuring raw materials from suppliers certified under GFSI program • Regular training and awareness sessions are carried out for restaurant and SCC staff on adherence to quality norms • The Company is actively monitoring and reducing food related customer complaints	• Cost savings in production, transportation and inventory management due to reduced waste, optimized processes, and enhanced supply chain efficiency **Negative:** • Product recall and disposal costs • Costs related to finding alternative suppliers, renegotiating contracts or even temporary production halts • Penalties for non-compliance with food safety regulations • Legal fees, settlements and damages due to lawsuits from affected consumers or regulatory bodies
2	Health, Safety and Wellbeing	Opportunity	**Opportunity:** • Safety and well-being of its employees and delivery associates is of high importance to the Company and a cornerstone of its operational priorities • Ensuring a secure and supportive workplace environment, fosters productivity, loyalty and enhances workforce morale"	To mitigate health and safety risks, several measures have been undertaken: • The Company has systematically identified potential safety hazards at SCCs and restaurants and has ensured that adequate safety measures are implemented in compliance with applicable occupational health and safety regulations • Additionally, the management has established a safety review process to ensure that employees comply with safety measures • All reported cases undergo a comprehensive review and corrective and preventive actions are implemented as necessary • To enhance employee awareness and preparedness, regular safety training and communications are carried out	**Positive:** Increased workforce morale, satisfaction and retention leading to: • Enhanced productivity and improved service resulting in better customer satisfaction positively impacting sales and profitability • Reduced costs associated with recruiting, training, and onboarding new employees **Negative:** • Costs associated with medical treatment, rehabilitation, claims management and increased insurance premiums • Fines and penalties due to non-compliance with Occupational Health and Safety regulations
		Risk	**Risk:** • Given the nature and scale of our business, which involves a large workforce daily engaged in food preparation, delivery logistics, and interaction with diverse urban environments, ensuring workforce safety is paramount. • Health, safety and wellbeing is considered as critical because of following reasons: • Unsafe working conditions and lack of support for employee well-being can lead to low morale and productivity, violation of employee rights and high attrition		

Sr. No.	Material Issue Identified	Indicate whether risk or opportunity	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity
			- Employee casualty can be subject to negative publicity and a loss of customer trust and confidence, which can impact the Company's reputation - Poor employee safety and well-being can lead to increased health care costs and compensation claims, which can have a significant financial impact on the organization	• Each Company location maintains a first response plan and details of nearby medical facilities for emergency cases • The Company ensures that all employees and workers are covered by insurance policies, including medical, accident cover etc. to provide financial support in case of unforeseen incidents	• Litigation and settlement costs

3	Business Ethics	Opportunity
		
		Risk
			Opportunity:
			Upholding the highest ethical standards present an opportunity for:
			• Differentiation and competitive advantage
			• Enhancement of brand reputation
			• Fostering trust among stakeholders
			• Reinforce commitment to long-term value creation and sustainable growth
			Risk:
			• In today's increasingly interconnected and scrutinized business environment, maintaining a steadfast commitment to ethical conduct is paramount. While the Company has a strong track record of upholding ethical principles, it's essential to remain vigilant and proactive in addressing emerging ethical challenges.
			• These ethical challenges can impact:
			  • Culture of ethical behaviour across all levels of the organization
			  • Compliance with evolving regulatory frameworks
			  • Company reputation on being associated with any perceived ethical lapses.
				The Company has been practicing high standards of good governance and ethics by having:
				• Clear ethical guidelines and code of conduct that outline expected behaviour for employees and vendors
				• Robust and effective framework for reporting of statutory compliances and review on a periodic basis
				• Confidential Whistle blower channels for employees to report unethical behaviour or concerns without fear of retaliation
				• Regular training sessions and educational programs to raise awareness about ethical issues
				• Effective oversight mechanisms, such as independent audits, compliance committees and Board Committees to monitor adherence to ethical guidelines
					Positive:

Governance, leadership and oversight

7. Statement by director responsible for the business responsibility report, highlighting ESG related challenges, targets and achievements.

Dear Readers,

I'm excited to share our progress on our 'Jubilant for All' Sustainability Agenda. This agenda symbolizes how we work to create enduring value, delighting not only our consumers but all stakeholders through value creation. In our Integrated Annual Report for FY'25, we have demonstrated through select case studies how the shared value is benefitting multiple stakeholders.

At Jubilant FoodWorks, our sustainability strategy rests on four robust pillars:

- Responsible Sourcing
- Baking Goodness
- Emissions, Energy and Waste Management
- Benefit People and Community

These pillars form the foundation of our commitment to sustainable and responsible business practices. Let me share some key highlights from each of these pillars:

In *Responsible Sourcing*, we've made significant strides across various fronts. We've achieved 100% farm traceability for key ingredients and implemented a corn localization initiative to support local farmers. Our use of Integrated Pest Management techniques for chili sourcing in Andhra Pradesh demonstrates our commitment to sustainable agricultural practices. In the dairy sector, we've empowered over 14,000 dairy farmers with training and veterinary support, enhancing both productivity and quality. During the year, a key focus area for us poultry sourcing, given that the sales mix of chicken products is expected to increase for our Company. Recognizing this trend, we're taking proactive steps to ensure responsible and sustainable practices in our poultry supply chain. Having achieved the unique milestone of implementing our 'No Antibiotics Ever' policy across our chicken products, we've recently introduced a comprehensive animal welfare policy, which has further strengthened our poultry sourcing practices. This policy ensures that our suppliers adhere to strict standards of animal care and well-being throughout the supply chain.

Under our *Baking Goodness* pillar, we've ensured all Domino's ingredients are free from artificial additives. We use 100% dairy-based mozzarella cheese. Our Pizza Box is 100% recyclable, and 96% of our vendors for Domino's are also certified under the Global Food Safety Initiative. We have reimagined our consumer-facing packaging by eliminating pizza box lids from dine-in order, significantly reducing GSM without compromising strength of the box, and introducing brown boxes — serving millions of consumers with reduced environmental impact. The pivot to an edible pizza stool - from a plastic pizza stool - meant for ensuring multiple pizza boxes in an order are delivered to customers in the desired state is one of the many examples on how small yet positive changes are helping us advance our Baking Goodness agenda while benefitting all stakeholders.

For *Emissions, Energy and Waste Management*, we've made significant strides. I'm proud to announce that we have become India's largest EV fleet operator in the food service industry. About 56% of our delivery fleet, or ~16,853 vehicles, are now EVs. This achievement is particularly impactful as we see an increase in our delivery channel mix. By proactively transitioning to EVs and even electric bikes in some cases, we're eliminating tailpipe emissions from a growing segment of our business, significantly reducing the overall carbon footprint for the entire ecosystem.

Additionally, our unique multi-brand, multi-temperature commissary-based manufacturing and sourcing model is leading to substantial conservation of natural resources and reduction of wastage through volume-based scale efficiencies. This model helps us in pooling the requirements of a very large network of 2,300+ neighbourhood stores into 8 commissaries across India also leading to significant improvement in food safety which is a cornerstone of our sustainability efforts and our highest priority. Our NABL-accredited laboratories ensure that each batch of raw materials meets rigorous standards. Continued investments in store-level training empower our teams to consistently deliver safe, high-quality products, thereby strengthening customer trust and minimizing operational risks.

In logistics for distribution of multiple SKUs meant for stores from commissaries, during the year, we optimized packaging which led to lower fuel requirement while maintain high standards of temperature control. Through redesigned dough ball placement patterns, we were able to enhance delivery efficiencies in addition to continuous focus on route planning. Through ongoing enhancements in our auto-indenting and transport management tools, we were able to reduce both logistics costs and emissions. Furthermore, our move to in-house manufacturing at SCCs has improved quality consistency and reduced production expenses.

On the energy front, we are transitioning to a higher renewable energy mix by pooling our energy requirements and investing in operators of large-scale solar farms. This helps us reduce our carbon emissions and significantly lowering electricity costs.

Across our value chain, we are also implementing advanced technologies to aid our employees in executing the assigned tasks more efficiently while ensuring a safer work environment for everyone. This includes real-time tracking, IoT tagging on assets, face-detection based access controls, embedded sensors for automatic door closures in temperature-controlled areas to mitigate operational risks and create a safer work environment.

Our fourth pillar, *Benefit People and Community*, focuses on creating positive impact on society. We've trained over 4,732 students through J-FARM, our restaurant management academy. We're building a more diverse workforce with 36% female representation, making concerted efforts to increase the participation of women across our operations. We're Great Place to Work Certified and conduct regular employee engagement surveys and continuously work on feedback to further improve. Our community initiatives provides healthcare access to 469,000 people.

These initiatives and achievements are overseen by our Sustainability and CSR Committee of the Board, ensuring that our sustainability strategy is integrated at the highest levels of our organization.

Importantly, we have now pivoted from Limited Assurance to voluntary Reasonable Assurance in FY'25 BRSR report, demonstrating our commitment to the highest standards of transparency and disclosure.

As we move forward, we remain committed to our multi-year, time-bound goals anchored around Food, Planet, People and Communities, and Governance. We have made significant progress year-on-year in achieving these targets. We recognize that sustainability is an ongoing journey, and we're dedicated to continuous improvement and transparent reporting of our progress.

One programme	Food Safety, Health and Safety, Animal Welfare, Sustainability, Environment Conservation, sensory testings and other quality assurance related topics	100%

P1-L2 Does the entity have processes in place to avoid/ manage conflict of interests involving members of the Board? (Yes/No) If Yes, provide details of the same

Yes, the Company's Code of Conduct for Directors and Senior Management, inter alia, outlines that

a) If an individual's personal interest interferes with the interests of the Company, a 'conflict of interest' arises. A conflict of interest has the effect of influencing or distorting business decisions by reason of individual, family, financial or other interests. In such a situation, the Directors/Senior Management must promptly disclose the details to the Board of Directors.

b) Monetary transactions between the Company and a Director and/or their related parties shall be brought to the knowledge of the Board.

c) The Directors/Senior Management should not appropriate corporate business opportunities for themselves or use Company information for personal gain. The Board of Directors annually affirm to the Compliance of the Code of Conduct.

The Company receives annual declaration from the Board of Directors with a list of entities they are interested in and also when there is any change in their interest. The Company ensures requisite approvals as required under the applicable laws before transacting with such entities / individuals. Also, the interested director doesn't participate in the matter at the Board/ committee meetings.

PRINCIPLE 2

Businesses should provide goods and services in a manner that is sustainable and safe

Essential Indicators:

P2-E1 Percentage of R&D and capital expenditure (capex) investments in specific technologies to improve the environmental and social impacts of product and processes to total R&D and capex investments made by the entity, respectively.

	FY24-25	FY23-24	Details of the improvement in environment and social impacts
R&D	-	-	Not Applicable
Capex	13%	5%	The Company is investing in enhancing energy management systems, reducing environmental impact by lowering tail pipe emissions, retrofitting old air-conditioning units with energy-efficient models, and procuring renewable energy through open access.

P2-E2 A. Does the entity have procedures in place for sustainable sourcing? (Yes/No)

Yes, the Company has dedicated policies for Sustainability and a Supplier Code of Conduct, which integrate social, ethical, and environmental factors into the supplier evaluation and onboarding processes to support responsible sourcing.

As part of this framework, all suppliers are audited to assess compliance with our standards and to establish a foundation of ethical business practices. These audits ensure that suppliers align their operations with applicable environmental laws, regulations, and industry best practices. The Supplier Code of Conduct is shared with all suppliers, setting clear expectations regarding environmental performance, labour practices, human rights, and responsible sourcing.

A key example of the Company's commitment to sustainable sourcing is the procurement of chicken under its 'No Antibiotics Ever' (NAE) policy. Under this initiative, chicken is sourced exclusively from dedicated poultry farms within its supply network. These farms operate under the strict supervision of the Company's veterinary team and must adhere to detailed Standard Operating Procedures (SOPs) and robust animal welfare standards. By eliminating antibiotic use, the Company promotes responsible farming practices and sets a benchmark for ethical sourcing and supply chain transparency.

Additionally, the Company is sourcing responsibly through several other key initiatives:

- A Dairy Farmer Development Program focused on promoting ethical farming practices for milk production and animal welfare.
- Sourcing palm oil exclusively from suppliers certified by the Roundtable on Sustainable Palm Oil (RSPO).
- Implementing backward integration for chilli procurement utilizing Integrated Pest Management (IPM) practices.

The policies are available on the website:

1. Supplier Code of Conduct: Weblink
2. Sustainability and Business Responsibility Policy: Weblink

2.B. If yes, what percentage of inputs were sourced sustainably?

Yes, 100% of JFL's key inputs are sustainably sourced. The Company ensures this through the suppliers compliance with Food Safety Management Systems (FSMS). JFL also prioritizes sourcing from Global Food Safety Initiative (GFSI) certified suppliers and requires FSSAI certification for all raw material suppliers during on-boarding.

In addition to this, some of our suppliers are certified to ISO 22000, while others hold additional certifications like ISO 14001 (Environment), ISO 45001 (Health and Safety), HACCP (Food Safety), and RSPO (Sustainable Palm Oil).

P2-E3 Describe the processes in place to safely reclaim your products for reusing, recycling and disposing at the end of life, for (a) Plastics (including packaging) (b) E-waste (c) Hazardous waste and (d) other waste.

The Company has implemented comprehensive processes to ensure the safe reclaiming, recycling, and disposal of various waste streams at the end of their life cycle.

1. **Plastics (including packaging):** The plastic packaging is designed with an intent to reduce plastic use through lightweight and alternative materials. The Company's recycling partners collect, and process used plastic products from our operations. The Company aims to spread awareness to the consumers through various initiatives such as serving in pizza boxes made of 80% recycled paper, replacing plastic pizza stool with edible stool, using paper packaging and serving beverages in glass bottles.
2. **E-waste:** The Company ensures the safe disposal of electronic products and equipment. Obsolete or damaged electronics are collected and sent to authorised e-waste recycling vendors who follow responsible recycling practices, ensuring that valuable materials are recovered and hazardous components are disposed of safely.
3. **Hazardous waste:** The Company does not use hazardous materials in its operations. Limited hazardous waste, such as used oil from diesel generators and sludge from Effluent Treatment Plants (ETPs), is generated from utility operations and is safely collected, stored, and disposed of through authorized contractors. A battery buy-back program has been adopted to ensure responsible recycling. All hazardous waste is managed in compliance with regulations, with regular monitoring to uphold the highest environmental standards.
4. **Other Waste:** The Company manages other types of waste, such as food waste and used oil, through a structured waste segregation system. At some of our facilities, the organic food waste is either sent to fisheries for use as feed or composted for using in green belt areas, maintained by the Company. Non-recyclable waste is handed over to authorized waste handlers to ensure safe disposal with minimal environmental impact. Additionally, under the RUCO (Repurpose Used Cooking Oil) initiative, used oil is collected and converted into biodiesel, contributing to cleaner energy solutions.

P2-E4 Whether Extended Producer Responsibility (EPR) is applicable to the entity's activities (Yes / No). If yes, whether the waste collection plan is in line with the Extended Producer Responsibility (EPR) plan submitted to Pollution Control Boards? If not, provide steps taken to address the same.

Yes, Extended Producer Responsibility (EPR) is applicable to the Company's activities. The Company's waste collection and recycling processes are fully aligned with the EPR plan submitted to the respective Pollution Control Boards. Compliance is ensured through partnerships with authorized waste management agencies, regular tracking of waste quantities, and fulfilment of recycling obligations as per regulatory requirements.

Leadership Indicators:

P2-L1 Has the entity conducted Life Cycle Perspective / Assessments (LCA) for any of its products (for manufacturing industry) or for its services (for service industry)? If yes, provide details in the following format? The Company does not use any recycled or reused material in production.

Yes, the Company has adopted a Life Cycle Perspective through its Product Lifecycle Policy. The Company strives to create a greener and more efficient supply chain by considering the environmental impact of its products and services from design to disposal. The Company works closely with stakeholders, including designers, producers, and recyclers, to ensure environmental responsibility throughout the value chain. The Company continuously reviews and integrates resource-efficient technologies and processes to reduce resource consumption, promote recycling, and ensure safe product disposal. The Company also focuses on reducing water and electricity use across its value chain, enhancing sustainability.

P2-L2 If there are any significant social or environmental concerns and/or risks arising from production or disposal of your products / services, as identified in the Life Cycle Perspective / Assessments (LCA) or through any other means, briefly describe the same along-with action taken to mitigate the same.

None of our products are associated with any significant social or environmental concerns. The Company ensures environmentally responsible disposal practices across product categories, ranging from biodegradable food items to other forms of waste, which are managed through authorized recyclers and certified waste handling agencies.

P2-L3 Percentage of recycled or reused input material to total material (by value) used in production (for manufacturing industry) or providing services (for service industry).

Within the entire brand portfolio, the largest network for JFL in India is of Domino's. The pizza boxes used in Domino's are 100% recyclable. However, with continued progress the fully recyclable Domino's India boxes in turn are made of 80% recycled paper with an inner layer made of virgin paper to ensure that the food is safe for the consumers.

P2-L4 Of the products and packaging reclaimed at end of life of products, amount (in metric tonnes) reused, recycled, and safely disposed, as per the following format:

Particulars	FY 24-25			FY 23-24		
	Reused	Recycled	Safely Disposed	Reused	Recycled	Safely Disposed
Plastics including packing (MT)	0	232	0	0	143.21	0
E waste	-	-	-	-	-	-
Hazardous waste	-	-	-	-	-	-
Other	-	-	-	-	-	-

Note: In compliance with the Plastic Waste Management Rules as mandated by CPCB, our the EPR Plan is designed to ensure the collection and recycling of 100% of post-consumer plastic waste.

P2-L5 Reclaimed products and their packaging materials (as percentage of products sold) for each product category.

As a food service Company, our operations are based on the use of fresh, made-to-order products, and therefore, product reclamation is not applicable to our business model. Similarly, due to the perishable nature of our offerings, the concept of reclaiming sold products or their packaging materials does not arise.

However, we remain committed to sustainable packaging practices. Our pizza boxes are made from approximately 80% recycled paper, with the inner lining composed of virgin paper to ensure product quality and compliance with food safety standards.

P3-E3 Accessibility of workplaces: Are the premises / offices of the entity accessible to differently abled employees and workers, as per the requirements of the Rights of Persons with Disabilities Act, 2016? If not, whether any steps are being taken by the entity in this regard.

Yes, the Company's workplaces are accessible to people with disabilities, and constant efforts are being made to improve infrastructure and remove barriers to accessibility.

The Company understands the importance of providing equal access at our workplaces to all employees and workers. Our Company has implemented various measures to provide infrastructure support to the Differentially Abled Employees and Workers. Some of the Company's facilities are equipped with ramps, wheelchair access, lift operating panel with braille signages and all gender accessible toilets.

P3-E4 Does the entity have an equal opportunity policy as per the Rights of Persons with Disabilities Act, 2016? If so, provide a web-link to the policy.

Yes, the Company has an Equal Opportunity Policy in line with our core value, "Lead With Care". The policy is aligned with the provisions of the Rights of Persons with Disabilities Act, 2016. This policy aims to provide practical guidance on the management of disability issues in the workplace in accordance with the provisions of the Act. Weblink

Note: The Company provides trainings to all employees and workers entire year, through various platforms. Please refer below details on various platforms provided for trainings.

The Company has a diverse agenda to provide skills to employees and workers through various online and offline training programmes. A brief of the Health and Safety Trainings, and Skill Development Trainings is given below.

Health and Safety Trainings:

The Company prioritize health and safety trainings to educate the employees and workers for maintaining safe working conditions and accident prevention.

Our mandatory health and safety trainings are delivered through classroom sessions, LMS modules, on-the-job training, toolbox talks, evacuation drills, driver and rider safety programs, visual aids, and train-the-trainer initiatives. A dedicated Safety Week was also celebrated to promote awareness and active involvement, featuring sessions by industry experts, strengthening our culture of safety across all operations.

Skill Development Trainings:

The Company believes that through structured learning, employees are empowered to perform efficiently, adapt to new challenges, and drive continuous improvement, hence strengthening both individual capabilities and overall business growth.

We have multiple training platforms to cater to diverse skill development needs:

- **Percipio Platform** for corporate employees focuses on enhancing professional skills to support business growth. It covers topics like Six Sigma, Scrum Master, Project Management, Art of Communication, among many others.
- **Learning Management System (LMS)** is leveraged at commissaries and stores, offering focused operational trainings such as material handling, FOSTAC trainings, dough certifications, logistics, operations, chemical safety, ISO certification trainings, guest hospitality, among many others.

In addition to this the Company provides specialized training programs to employees in collaboration with distinguished institutes across the country, allowing them to learn from the best minds in the industry and access advanced learning, certifications, and leadership development opportunities.

The total training hours of full-time equivalent (FTE) employee is around 124,730 training hours (Male - 107,526 training hours and Female - 17,204 training hours) and the training coverage was inclusive across all levels ranging from junior to senior employees at our Stores and Commissaries.

A. Implementation of the "Guest Hospitality" Employee Development Program

The Company has implemented the "Guest Hospitality" Employee Development Program to strengthen customer engagement, enhance service quality, and improve operational efficiency. The program covered comprehensive training modules on Food Safety Training and Certification (FoSTaC), guest hospitality, POS system and new product launch, etc. These trainings helped the Company's employees and workers to deliver consistent and accurate services.

The Company achieved reduction in customer complaints, improved NPS, sales growth and order accuracy thus elevating customer experience, strengthening brand perception, and driving business growth through a more capable and engaged frontline workforce.

B. Continuous Skill-Building Through Corporate and Commissary Learning and Development Initiatives

The Company focuses on continuous skill-building of the employees by providing them trainings through various Learning and Development initiatives. The Company has established these trainings across both corporate offices and commissaries, focused on fostering ongoing skill enhancement to empower employees and drive performance across all functions.

The Learning and Development team has launched targeted training programs, including storytelling with data and insights, artificial intelligence, and domain-specific certifications such as FoSTaC for manufacturing teams. These initiatives are designed to equip employees with the latest knowledge and practical skills needed to address real business challenges effectively.

The tangible impact is reflected in improved cross-functional collaboration, reduced operational risks, and a more agile, future-ready workforce.

Leadership Indicators:

P4-L1 Provide the processes for consultation between stakeholders and the Board on economic, environmental, and social topics or if consultation is delegated, how is feedback from such consultations provided to the Board.

The Company conducted a comprehensive Materiality Assessment, supported by PricewaterhouseCoopers (PwC). This assessment was designed to be inclusive, engaging both internal stakeholders (such as employees, leadership, and the Board) and external stakeholders (including customers, suppliers, investors, regulators, and the local community).

The assessment accurately reflected the priorities of each stakeholder group through, a tailored questionnaire. This questionnaire was specifically designed for individual stakeholder categories, considering their perspectives and concerns. The questionnaire was aligned with industry-specific sustainability standards to ensure that material topics relevant to each sector were identified in alignment with global best practices.

The Company also conducted external consultations through a mix of online surveys, interviews, and community visits to have a broad participation while internal consultation was conducted through group discussions and questionnaire. The collected data was then analysed and plotted into a Materiality Matrix, which identified the key issues of significance to both stakeholders and the Company. These final matrix was then presented to the Sustainability and Corporate Social Responsibility (SCSR) Committee and then to Board level for its integration into the Company's strategic planning.

P4-L2 Whether stakeholder consultation is used to support the identification and management of environmental, and social topics (Yes / No). If so, provide details of instances as to how the inputs received from stakeholders on these topics were incorporated into policies and activities of the entity.

Yes, stakeholder consultation was conducted to identify and manage environment and social topics. The starting point for the assessment was identification of relevant stakeholders.

Sustainability standards and frameworks were evaluated to accumulate a list of material topics which are relevant for foodservice industry. After reviewing the relevance of the material topics, the output of stakeholder dialogues were studied with relevant departments.

Each material topic was then ranked by the Executive Management team with regards to the impact it can create on the Company's success.

Based on the material issues identified, the Company developed a Sustainability and Business Responsibility Policy. This policy was crafted to address the material issues identified during the materiality assessment and to align with the nine principles of NGRBC.

P4-L3 Provide details of instances of engagement with, and actions taken to, address the concerns of vulnerable/ marginalized stakeholder groups

**No of upheld complaints excluding the pending cases.*

P5-E8 Mechanisms to prevent adverse consequences to the complainant in discrimination and harassment cases.

The Company ensures that no threats, retribution, or punishment is initiated against anyone who has reported a violation or suspected violation of the law, this Code, or other Company rules, or against anyone who is aiding in any investigation or process relating to such a violation. Dedicated team ensures that every problem is addressed sensitively and that its resolution is delivered on time.

The Company's Employee Wellbeing Policy assures its employees a workplace free of harassment as captured in the Policy on Prevention of Sexual Harassment at Workplace. Weblink:

P5-E9 Do human rights requirements form part of your business agreements and contracts? (Yes/No)

Yes, the Company has a Supplier Code of Conduct to communicate the expectation in terms of legal compliance, corporate conduct, basic human rights, and treating people and the environment fairly. In every purchase order, the Company mandates the partners to abide by the Supplier Code of Conduct.

P5-E10 Assessments for the year:

	% of your plants and offices that were assessed (by entity or statutory authorities or third parties)
Child labour	100% of the sites and office were assessed by the entity
Forced/involuntary labour	
Sexual harassment	
Discrimination at workplace	
Wages	
Others – please specify	NA

P5-E11: Provide details of any corrective actions taken or underway to address significant risks / concerns arising from the assessments at Question 9 above.

Not Applicable, as there were no significant concerns identified during the assessments conducted by the Company.

Leadership Indicators:

P5-L3: Is the premise/office of the entity accessible to differently abled visitors, as per the requirements of the Rights of Persons with Disabilities Act, 2016?

Yes. The Company understands the importance of providing equal access at our workplaces to all visitors. Our Company has implemented various measures to provide infrastructural support to the Differentially Abled Visitors. Some of the Company's facilities are equipped with ramps, wheelchair access, lift operating panel with braille signages and all gender accessible toilets.

P5-L4 Details on assessment of value chain partners:

Category	% of value chain partners (by value of business done with such partners) that were assessed
Sexual Harassment	100% of our value chain partners are audited by our in-house teams, with a focus on food safety, human rights parameters and supplier compliance assessments. In cases where non-compliance with regulatory or non-regulatory requirements is identified, our team provides a defined rectification period, after which a follow-up audit is conducted to verify compliance and ensure corrective actions have been implemented.
Discrimination at workplace	
Child labour	
Forced labour/involuntary labour	
Wages	
Others – please specify	NA

P5-L5 Provide details of any corrective actions taken or underway to address significant risks / concerns arising from the assessments at Question 4 above.

Not Applicable, as during the reporting period, no significant risks or concerns were identified.

PRINCIPLE 6

Businesses should respect and make efforts to protect and restore the environment

Essential Indicators:

P6-E1 Details of total energy consumption (GJ) and energy intensity, in the following format:

Parameter	FY 24-25	FY 23-24
From renewable sources		
Total electricity consumption (A)	29,506	5,393
Total fuel consumption (B)	-	-
Energy consumption through other sources (C)	-	-
Total energy consumed from renewable sources (A+B+C)	29,506	5,393
From non-renewable sources		
Total electricity consumption (D)	618,781	532,665
Total fuel consumption (E)	791,890	754,644
Energy consumption through other sources (F)	0	0
Total energy consumed from non- renewable sources (D+E+F)	1,410,671	1,287,309
Total energy consumed (A+B+C+D+E+F)	1,440,177	1,292,702
Energy intensity per rupee of turnover (Total energy consumed / Revenue from operations)	0.000024	0.000024
Energy intensity per rupee of turnover adjusted for Purchasing Power Parity (PPP) (Total energy consumed / Revenue from operations adjusted for PPP)	0.00049	0.00055

Note: In FY'25 Renewable share of energy has significantly increased due to renewable power purchase for the Bangalore Commissary through open access mechanism

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, the above data is verified by TUV SUD SOUTH ASIA PRIVATE LIMITED, for more details, please refer to the assurance statement.

P6-E2 Does the entity have any sites / facilities identified as designated consumers (DCs) under the Performance, Achieve and Trade (PAT) Scheme of the Government of India? (Y/N) If yes, disclose whether targets set under the PAT scheme have been achieved. In case targets have not been achieved, provide the remedial action taken, if any.

No

P6-E3 Provide details of the following disclosures related to water, in the following format:

Parameter	FY 24-25	FY 23-24
Water withdrawal by source (in kilolitres)		
(i) Surface water	-	-
(ii) Groundwater	73,788	52,442
(iii) Third party water m^3	63,478	41,621

Total water discharged (in kilolitres)	**7,525**	**18,824**

Note: The water discharge has been significantly reduced due to water recycling project implemented at Greater Noida Commissary and segregation of water used in gardening and water getting discharged out of the boundary.

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency

Yes, the above data is verified by TUV SUD SOUTH ASIA PRIVATE LIMITED. For more details, please refer to the assurance statement.

P6-E5 Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation.

Yes, the Company has implemented a zero-liquid discharge mechanism at the Greater Noida Supply Chain (GNSC) Commissary. At this site, the Company has adopted an advanced water treatment process, which includes ultra-filtration technology post Effluent Treatment Plant (ETP) . This ensures that the treated water is further purified for reuse. The treated water is utilized for non-potable purposes such as cooling tower operations,truck washing etc. Any remaining water is then used for gardening, thus supporting sustainability efforts while reducing overall water consumption.

The other two sites follow a zero-water discharge from their boundaries.The Company ensures that no untreated wastewater is discharged into the environment.

P6-E6 Please provide details of air emissions (other than GHG emissions) by the entity, in the following format:

Parameter	Please specify unit	FY 24-25	FY 23-24
NOx	mg/nm^3	75.7	57.4
SOx	mg/nm^3	14.5	29.6
Particulate matter (PM)	mg/nm^3	31.6	27.1
Persistent organic pollutants (POP)	-	-	-
Volatile organic compounds (VOC)	-	-	-
Hazardous air pollutants (HAP)	-	-	-
Others – please specify	-	-	-

Note: Air emissions, including NOx, SOx, and Suspended Particulate Matter (SPM), are monitored from diesel and gas generator sets installed at our facilities. Regular monitoring is conducted, and reports are evaluated periodically to ensure compliance with applicable environmental standards and to assess emission performance.

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, the above data is verified by TUV SUD SOUTH ASIA PRIVATE LIMITED, for more details, please refer the assurance statement.

P6-E7 Provide details of greenhouse gas emissions (Scope 1 and Scope 2 emissions) and its intensity, in the following format

Parameter	Unit	FY 24-25	FY 23-24
Total Scope 1 emissions (Break-up of the GHG into CO2, CH4, N2O, HFCs, PFCs, SF6, NF3, if available)	tCo2e	48,316	47,492
Total Scope 2 emissions (Break-up of the GHG into CO2, CH4,N2O, HFCs, PFCs, SF6, NF3, if available)	tCo2e	123,068	105,941
Total Scope 1 and Scope 2 emissions per rupee of turnover (Total Scope 1 and Scope 2 GHG emissions / Revenue from operations)	tCo2e/₹	0.0000028	0.0000029
Total Scope 1 and Scope 2 emission intensity per rupee of turnover adjusted for Purchasing Power Parity (PPP) (Total Scope 1 and Scope 2 GHG emissions / Revenue from operations adjusted for PPP)	tCo2e/USD	0.000058	0.000066

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, the above data is verified by TUV SUD SOUTH ASIA PRIVATE LIMITED, for more details, please refer to the assurance statement.

P6-E8 Does the entity have any project related to reducing Green House Gas emission? If Yes, then provide details.

Yes, the Company has projects contributing in reducing Green House Gas Emissions.

Switching to E-Bikes

The Company has made a significant progress this year, increasing the number of e-bikes and e-cycle to 56%. This is an important initiative to reduce carbon footprint and transition to a more sustainable future. The Company is focused to implement e-bikes in all of the new stores, taking into account the local terrain. All of the bikes used in Popeyes and Hong's kitchen are already electric.

Energy Savings through VFDs on Exhaust Systems:

To ensure proper ventilation, exhaust fans are essential for our operations. However, they have been running at a full speed regardless of the actual demand, leading to unnecessary energy consumption and inefficiency.

To address this, we installed Variable Frequency Drives (VFDs) to dynamically regulate fan speeds based on real-time load requirements. With the VFDs in place, exhaust fans operate at optimal speeds, delivering full power only when needed and reducing their speed during low-demand periods. This targeted solution has significantly reduced energy usage, extended equipment lifespan, and enhanced overall operational efficiency.

Purchasing renewable power

To advance our Sustainability goals, we've strategically transitioned to renewable energy for our sites with high energy demand. We successfully procured renewable power for our Bangalore facility through open access and have signed a PPA to power our Greater Noida Commissary with clean energy.

Through the open access purchase, the renewable energy is generated off-site and is fed into the regional grid from where the Company is drawing an equivalent amount for our facilities. This initiative has resulted in procurement of more than 6000 Mwh of RE energy.

In accordance with the Environment Policy, the Company is committed to improve environmental performance by adopting cleaner production methods and promoting energy efficient environmental technologies (including renewable energy) in operations to reduce Green House Gas emissions.

P6-E9 Provide details related to waste management by the entity, in the following format:

Parameter	FY 24-25	FY 23-24
Total Waste generated (in metric tonnes)		
Plastic waste (A)	137	414
E-waste (B)	1.4	0.7

Note:
• The waste generate is disposed responsibly through authorised service providers.
• The waste data for the previous year has been revised and updated to reflect improved data accuracy and reporting methodologies.
Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.
Yes, the above data is verified by TÜV SÜD SOUTH ASIA PRIVATE LIMITED, for more details, please refer the assurance statement

P6-E10 Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your Company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

The Company has implemented waste management practices to manage hazardous and non-hazardous wastes generated by operations. Proper labelling, storage, and disposal of hazardous waste materials, as well as employee training on safe handling practices is conducted. The Company, manages and dispose their waste through authorised third-party vendors.

The Company has also published Environment policy highlighting Company's vision on waste management by focusing on reducing, recycling, reusing and recovering waste.

The Company also introduced a Product Life Cycle Policy that strives to ensure reduction, reuse and recycling of resources and sharing information to stakeholders in their value chain on appropriate disposal and recycling for their packaging.

P6-E11 If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format:

The offices and commissaries are built on government-approved land in industrial zones and do not fall within or adjacent to protected areas or high biodiversity areas.

P6-E12 Details of environmental impact assessments of projects undertaken by the entity based on applicable laws, in the current financial year:

The Company has not conducted any environmental impact assessment, since the offices and commissaries are built on government approved land and we do not operate in ecologically sensitive areas. However, all the requirements related to environmental compliance are fulfilled as per various local laws and regulations.

P6-E13 Is the entity compliant with the applicable environmental law/ regulations/ guidelines in India; such as the Water (Prevention and Control of Pollution) Act, Air (Prevention and Control of Pollution) Act, Environment protection act and rules thereunder (Y/N). If not, provide details of all such non-compliances, in the following format:

Yes

Leadership Indicators:

P6-L3 With respect to the ecologically sensitive areas reported at Question 11 of Essential Indicators above, provide details of significant direct and indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities

Not applicable as per the response to Question 11.

P6-L4: If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions / effluent discharge / waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:

Sr. No.	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative
1	Converting waste cooking oil to bio-diesel	This initiative involves diverting waste Used Cooking Oil (UCO) to FSSAI approved aggregators, ensuring its responsible disposal and facilitating its conversion into biodiesel.	Used cooking oil was successfully converted into biodiesel, producing a clean, renewable fuel. The process also generated glycerol and helped reduce the waste and emissions.
2.	Achieving Zero Liquid Discharge at our Greater Noida Commissary	To improve water efficiency and increase the reuse of treated water, the Company has upgraded its Effluent Treatment Plant (ETP) by installing secondary and tertiary treatment processes. These advanced treatment stages significantly enhance the quality of treated water, making it suitable for reuse in various utility applications such as cooling towers and hand wash stations.	This initiative has enabled the Company to achieve Zero Liquid Discharge (ZLD) at the site, thereby reducing the dependency on freshwater sources and significantly lowering the overall water footprint.
3.	Increasing share of EV's in our delivery fleet	The Company is strategically increasing the share of electric vehicles in its delivery fleet, thereby reducing reliance on petrol-engine bikes.	By adopting EVs, the Company is achieving substantial savings on petrol consumption and vehicle maintenance costs, which together contribute to a lower overall cost per delivery. The use of governor-controlled speed attachments on EVs has also enhanced delivery rider safety. Moreover, this transition supports our efforts to reduce carbon emissions and minimize our environmental footprint

P6-L5: Does the entity have a business continuity and disaster management plan? Give details in 100 words/ web link.

Yes, the Company has business continuity and disaster management plan to ensure the seamless operation and swift recovery of an organization. Effective communication channels are established, and employees are trained through drills to handle emergencies efficiently. Backup systems and redundancy measures are implemented to mitigate disruptions, while regular reviews and updates ensure the plan remains relevant.

P6-L6 Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard.

The Company has a Supplier Code of Conduct, which is shared with every value chain partner during the onboarding process. This document outlines the Company's expectations on ethical, environmental, and social performance across the supply chain.

Company suppliers are expected to strictly observe and comply with all the fundamental principles outlined in the Supplier Code of Conduct which includes its compliance with all applicable environmental laws and regulations, and the adoption of responsible practices that minimize adverse environmental impacts in their operations.

In situations where a supplier receives any requests that conflicts with the Supplier Code of Conduct, or if they become aware of any suspected or actual violations of the code, they are obligated to report the same to the Ombudsperson. This mechanism ensures accountability and provides a channel for addressing and resolving concerns related to environmental or ethical misconduct.

P6-L7 Percentage of value chain partners (by value of business done with such partners) that were assessed for environmental impacts.

The Company provides a Supplier Code of Conduct to all value chain partners. This code provides guidance to our value chain partners on our expectations towards a sustainable supply chain. Our code enunciates that all the value chain partners should conduct their business and operate its facilities in a manner compliant with applicable environmental laws, regulations and industry standards and shall support Company's efforts to operate sustainably. We are committed towards handholding new and existing value chain partners in this journey of continuous improvement. 100% of the value chain partners were assessed under the Supplier Code of Conduct which covers environmental impacts.

PRINCIPLE 7

Businesses, when engaging in influencing public and regulatory policy, should do so in a manner that is responsible and transparent

Essential Indicators:

P7-E1 A. Number of affiliations with trade and industry chambers/ associations.

Four affiliations

B. List the top 10 trade and industry chambers/ associations (determined based on the total members of such body) the entity is a member of/ affiliated to

Sr. No.	Name of the trade and industry chambers/ associations	Reach of trade and industry chambers/ associations
1	Confederation of Indian Industry (CII)	National
2	Federation of Indian Chamber of Commerce and Industry (FICCI)	National
3	National Restaurant Association of India (NRAI)	National
4	Retail Association of India (RAI)	National

P7-E2 Provide details of corrective action taken or underway on any issues related to anti- competitive conduct by the entity, based on adverse orders from regulatory authorities.

Leadership Indicators:

P7-L1 Details of public policy positions advocated by the entity:

Sr. No.	Public policy advocated	Method resorted for such advocacy	Whether information available in public domain? (Yes/No)	Frequency of Review by Board (Annually/ Half yearly/ Quarterly / Others – please specify)	Web link, if available
1	Ease of Doing Business for QSR Industry	Representation and Engagement with various relevant External Stakeholders	Yes	As Required	

PRINCIPLE 8

Businesses should promote inclusive growth and equitable development

Essential Indicators:

P8-E1 Details of Social Impact Assessments (SIA) of projects undertaken by the entity based on applicable laws, in the current financial year.

The Company has conducted external third party review of our projects on voluntary basis to understand the impact created by our initiatives.

1. **Dairy Farmer Development: Assessment Report May 2025**

About the Project:

The programme is a notable initiative for enhancing livestock productivity and improving the livelihoods of livestock farmers. This program is implemented in collaboration with BAIF Institute for Sustainable Livelihood and Development.

The objective of the initiative is to provide scientific herd management techniques to dairy farmers for enhancing herd quality and improving milk quality and yield for their dairy businesses
Target Scale: 14000+ farmers
Project Location: Western Maharashtra

Whether conducted by independent external agency: Yes

Impact Created:

1. 21% Increase in milk rate
2. 74% increase in milk productivity
3. 64% increase in cattle herd size
4. 0.12% increase in fat percentage

2. **Skill Development Program: Assessment 2023-24**

About the Project:

The JFARM is a CSR initiative by Jubilant FoodWorks Ltd. The main objective is to support young adults from unprivileged communities and under-developed geographies in their attaining livelihood by way of skilling them in the restaurant service industry.
Target Scale: : 6600+ youths

Project Location: PAN India - 12 states

Whether conducted by independent external agency: Yes

Impact Created

1. 82% students found this course accessible and convenient
2. 97% found course effective in imparting QSR knowledge
3. 89% found adequate chances for practical learning
4. 58% female candidates trained
5. 83% reported household income ≤ INR 20,000
6. 100% respondents are from a marginalised community
7. 70% employed post-training

3. Community Healthcare Initiative: Assessment Report May 2024

About the Project:

Utilizing Mobile Health Vans to provide primary healthcare services to more than 469,000 people living within 15 km of eight JFL commissaries across more than 150 villages. This ensures that the elderly, women, and children who are among the most vulnerable populations in rural areas have access to essential medical care. A driver, pharmacist cum paramedical staff and an MBBS doctor comprise the health team per Mobile Health Van.

Objective:

Establish on-ground presence and social connections to cultivate a favorable reputation within the village communities

Better access to primary medical services for the communities within the project area.

Use a doorstep delivery model to diagnose patients and dispense medications in order ensure curative healthcare

To deliver health care services to targeted beneficiaries in a way that is inclusive, accessible, affordable, and acceptable

To promote health awareness and educate the villagers about preventative healthcare issues, such as diseases that are communicable and others.

Whether conducted by independent external agency: Yes

Impact Created (on a scale of 1 – 5 : where 5 represents the highest possible rating, indicating excellent or outstanding performance)

1. 95% Rated "Quality of the Mobile Medical Unit (MMU) staff and services" above 4 on a scale of 1 to 5
2. "Effectiveness of the treatment" was rated above 4 by 90%
3. 95% Rated the "MMU to be women and children friendly" above 4
4. 91% "Efficiency of the MMU during COVID-19" was rated above 4

P8-E2 Provide information on project(s) for which ongoing Rehabilitation and Resettlement (R&R) is being undertaken by your entity, in the following format.

PRINCIPLE 9

Businesses should engage with and provide value to their consumers in a responsible manner

Essential Indicators:

P9-E1 Describe the mechanisms in place to receive and respond to consumer complaints and feedback.

The consumers are able to raise their concerns or make a complaint through the complaint management systems wherein the complaints from different platforms such as telephonic complaints, complaints from the APP, and complaints from other known channels are documented in a complaint database and every complaint is directed to the serving restaurant. The teams quickly calls the consumers to understand and resolve their concerns followed by their feedback on their experience.

In accordance with Jubilant Foodworks Ltd.'s Customer Services Policy, the Company continually monitors and reviews complaints, enquiries, suggestions and act on the feedback shared by the customers.

P9-E2 Turnover of products and/ services as a percentage of turnover from all products/service that carry information about:

Independent Auditor's Report

To The Members of **JUBILANT FOODWORKS LIMITED**

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of **Jubilant FoodWorks Limited** (the "Parent") and its subsidiaries, (the Parent and its subsidiaries together referred to as the "Group") which includes the Group's share of loss in its associates, which comprise the Consolidated Balance Sheet as at March 31, 2025 and the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Cash Flows and the Consolidated Statement of Changes in Equity for the year ended on that date, and notes to the consolidated financial statements, including a summary of material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of reports of the other auditors on separate financial statements of the subsidiaries, JFL Employees Welfare Trust (the "Trust") and associates referred to in the Other Matters section below, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act, ("Ind AS") and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group and its associates as at March 31, 2025 and their consolidated profit, their consolidated total comprehensive income, their consolidated cash flows and their consolidated changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing ("SA"s) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group and its associates in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in the sub-paragraphs (a) and (b) of the Other Matters section below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

1. Impairment assessment of Goodwill and Intangible Assets:

As disclosed in Note 3e in the consolidated financial statements, the carrying values of goodwill and intangible assets with indefinite life are INR 7,416.38 million and INR 9,351.35 million respectively, related to acquisition of controlling interest in DP Eurasia B.V. (considered as a Cash Generating Unit). Both the assets together represents 19.66 percentage of the total assets as at March 31, 2025.

The recoverable value of the Cash Generating Unit is based on the value in use model, which has been derived from the discounted forecast cash flow model ("model"). This model requires the Group to make significant assumptions such as discount rate, near and long-term revenue growth rate, and projected margins which involve inherent uncertainty since they are based on future business prospects and economic outlook.

Due to the materiality of above assets in context of the consolidated financial statements and sensitivity of discount rate and near and long-term revenue growth rate assumptions where a minor change could have a significant impact on the recoverable value, we have considered the impairment assessment of aforesaid Goodwill and Intangible Assets to be a key audit matter.

How the key audit matter was addressed in the audit

Our principal audit procedures in this area included, among others:

a. We evaluated the Parent Company's impairment assessment process and tested the design and implementation of internal controls established to the estimates and judgments for determining the carrying value and recoverable value of Cash Generating Unit.

b. Challenged key market related assumptions used in the model including discount rate, long term growth rates against external data, using our internal valuation specialist;

c. Assessed the reliability of cash flow forecasts through a review of actual past performance and comparison to earlier year's budgeted performance and assessed the reasonableness of the forecasts by challenging the assumptions in respect of growth strategies in the market in which it operates;

d. Tested the mathematical accuracy of model and performed sensitivity analyses of key assumptions used therein;

e. Understood the commercial prospects of aforesaid Goodwill and Intangible Assets under the current economic environment including the challenges faced by the business to specifically evaluate whether these have been appropriately reflected in the forecast growth rates;

f. Assessed the appropriateness and completeness of the related disclosures in the consolidated financial statements in accordance with the applicable accounting standards.

2. Claim and litigations:

The Parent is subject to lawsuits and claims which could have a significant impact on the results if the potential exposure were to materialize. For the current year ended March 31, 2025, we believe there is a risk relating to ongoing litigations on Goods and Services Tax which are disclosed in Note 33 sub note A(c)(i),(ii),(iii) of the consolidated financial statements. The amounts involved are significant and the application of accounting standard to determine the amount, if any, to be provided as a liability or disclosed as a contingent liability, is inherently subjective. This includes assumptions relating to the likelihood and/or timing of cash outflows from the business and the pending decision of the appropriate authorities.

Due to the level of significant judgments involved, the above matter has been identified as a key audit matter.

How the key audit matter was addressed in the audit

Our audit procedures in this area included, among others:

a. We have evaluated the Parent Company's processes and controls over litigations operated by the Management through regular meetings with in-house legal counsels and review of minutes of meetings of Board of Directors and Audit Committee;

b. We have assessed correspondence with the Parent Company's external counsels accompanied by formal confirmations from that external counsels, discussions with and representations from in-house counsel;

c. We have involved our internal tax specialist to assess relevant historical and recent judgments passed by the judicial authorities in order to challenge the basis used for the accounting treatment and resulting disclosures; and

d. Assessed whether the Parent Company has adequately disclosed the litigation with relevant facts, circumstances and potential liabilities in its Consolidated financial statements in accordance with the applicable accounting standards.

Information Other than the Financial Statements and Auditor's Report Thereon

The Parent Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Corporate Overview, Statutory Reports including Management Discussion and Analysis, Board Report and Corporate Governance Report, but does not include the consolidated financial statements, standalone financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information, compare with the financial statements of the subsidiaries and associates audited by the other auditors, to the extent it relates to these entities and, in doing so, place reliance on the work of the other auditors and consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

Other information so far as it relates to the subsidiaries and associates, is traced from their respective financial statements audited by the other auditors.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Board of Directors for the Consolidated Financial Statements

The Parent Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated changes in equity of the Group including its associates in accordance with the accounting principles generally accepted in India, including Ind AS specified under section 133 of the Act. The respective Board of Directors of the companies included in the Group and of its associates are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and its associates and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Parent Company, as aforesaid.

In preparing the consolidated financial statements, the respective Management and Board of Directors of the companies included in the Group and of its associates are responsible for assessing the ability of the respective entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intend to liquidate their respective entities or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its associates are also responsible for overseeing the financial reporting process of the Group and of its associates.

Auditor's Responsibility for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.

- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Parent Company has adequate internal financial controls with reference to consolidated financial statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associates to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associates to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associates to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities or business activities included in the consolidated financial statements of which we are the independent auditors. For the other entities or business activities included in the consolidated financial statements, which have been audited by the other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the Parent Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal financial controls that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

(a) We did not audit the financial statements of JFL Employees Welfare Trust (the "Trust") included in the standalone financial statements of the Parent Company included in the Group whose financial statements reflect total assets of INR 946.30 million as at March 31, 2025 and total revenue of INR 2.81 million for the year ended on that date, as considered in the standalone financial statements of the Parent Company. The financial statements of the Trust have been audited by the other auditor whose report has been furnished to us, and our opinion in so far as it relates to the amounts and disclosures included in respect of the Trust and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid Trust, is based solely on the report of such other auditor.

We did not audit the financial statements of ten subsidiaries whose financial statements reflect total assets of INR 23,126.72 million as at March 31, 2025, total revenue of INR 20,473.36 million and total net profit after tax of INR 148.96 million for the year ended March 31, 2025 and total comprehensive income of INR 196.25 million for the year ended March 31, 2025 and net cash outflows amounting to INR 325.98 million for the year ended on that date, as considered in the consolidated financial statements. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries is based solely on the reports of the other auditors.

Nine of the above subsidiaries are located outside India whose financial statements and other financial information have been prepared in accordance with accounting principles generally accepted in their respective countries and which have been audited by other auditors under generally accepted auditing standards applicable in their respective countries. The Company's management has converted the financial statements of such subsidiaries located outside India from accounting principles generally accepted in their respective countries to accounting principles generally accepted in India. We have audited these conversion adjustments made by the Company's management. Our opinion in so far as it relates to the balances and affairs of such subsidiaries located outside India is based on the report of other auditors and the conversion adjustments prepared by the management of the Company and audited by us.

(b) The consolidated financial statements also include the Group's share of loss of INR 1.00 million for the year ended March 31, 2025 and total comprehensive (loss) of INR (0.32) million for the year ended March 31, 2025, as considered in the consolidated financial statements, in respect of one associate, whose financial statement has not been audited by us. These financial statements have been audited by other auditor whose report has been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of this associate, and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid associate is based solely on the report of the other auditor.

(c) The consolidated financial statements also include the Group's share of net (loss) of INR (9.35) million for the year ended March 31, 2025 and total comprehensive (loss) of INR (9.35) million for the year ended March 31, 2025, as considered in the consolidated financial statements, in respect of two associates, whose financial statements have not been audited by us. These financial statements are unaudited and have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these associates, is based solely on such unaudited financial statements. In our opinion and according to the information and explanations given to us by the Management, these financial statements are not material to the Group.

Our opinion on the consolidated financial statements and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements certified by the Management.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit and on the consideration of the reports of the other auditors on the separate financial statements of the subsidiaries and associates referred to in the Other Matters section above we report, to the extent applicable that:

   a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.

   b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept by the Group and its associates including relevant records so far as it appears from our examination of those books and the reports of the other auditors, except in relation to compliance with the requirements of audit trail, refer paragraph (i)(vi) below.

   c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including Other Comprehensive Income, the Consolidated Statement of Cash Flows and the Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.

   d) In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under Section 133 of the Act.

   e) On the basis of the written representations received from the directors of the Parent Company as on March 31, 2025 taken on record by the Board of Directors of the Company and the reports of the statutory auditors of its subsidiary and its associates incorporated in India, none of the directors of the Group and its associates incorporated in India is disqualified as on March 31, 2025 from being appointed as a director in terms of section 164(2) of the Act.

   f) The modification relating to the maintenance of accounts and other matters connected therewith, is as stated in paragraph (b) above.

   g) With respect to the adequacy of the internal financial controls with reference to consolidated financial statements and the operating effectiveness of such controls, refer to our separate Report in "Annexure A" which is based on the auditors' reports of the Parent Company, subsidiary and associates incorporated in India whose audit under section 143 of the Act has been completed. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of internal financial controls with reference to consolidated financial statements of those companies.

   h) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us and based on the auditor's report of subsidiary (as applicable) incorporated in India, the remuneration paid by the Parent Company and such subsidiary and associate to their respective directors during the year is in accordance with the provisions of section 197 of the Act.

   i) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as

amended in our opinion and to the best of our information and according to the explanations given to us:

i) The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group and its associates - Refer Note 33 to the consolidated financial statements;

ii) The Group and its associates did not have any material foreseeable losses on long-term contracts including derivative contracts.

iii) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Parent Company, its subsidiary and associates incorporated in India.

iv) (a) The respective Managements of the Parent Company, its subsidiary and its associates which are companies incorporated in India, whose financial statements have been audited under the Act, have represented to us and to the other auditors of such subsidiary and associates respectively that, to the best of their knowledge and belief, other than as disclosed in the note 35(iv) to the consolidated financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Parent Company or any of such subsidiary and associates to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Parent Company or any of such subsidiary and associates ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(b) The respective Managements of the Parent Company, its subsidiary and its associates which are companies incorporated in India, whose financial statements have been audited under the Act, have represented to us and to the other auditors of such subsidiary and associates respectively that, to the best of their knowledge and belief, other than as disclosed in the note 35(v) to the consolidated financial statements, no funds have been received by the Parent Company or any of such subsidiary and associates from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Parent Company or any of such subsidiary and associates shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(c) Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances performed by us and that performed by the auditors of the subsidiary and associates which are companies incorporated in India whose financial statements have been audited under the Act, nothing has come to our or other auditor's notice that has caused us or the other auditors to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

v) The final dividend proposed in the previous year, declared and paid by the Parent Company and its subsidiary, associates which are companies incorporated in India, whose financial statements have been audited under the Act, where applicable, during the year is in accordance with section 123 of the Act, as applicable.

As stated in Note 44 to the consolidated financial statements, the Board of Directors of the Parent Company, its subsidiary and its associates which are companies incorporated in India, whose financial statements have been audited under the Act, where applicable, have proposed final dividend for the year which is subject to the approval of the members of the Parent Company and such subsidiary, associates at the ensuing respective Annual General Meetings. Such dividend proposed is in accordance with section 123 of the Act, as applicable.

vi) Based on our examination which included test checks and based on the other auditor's reports of its subsidiary company and associate company incorporated in India, whose financial statements have been audited under the Act, except for the instances mentioned below, the Parent Company, its subsidiary company and associate company incorporated in India have used accounting softwares for maintaining their respective books of account for the financial year ended March 31, 2025 which have the feature of recording audit trail (edit log) facility and the same have operated throughout the year for all relevant transactions recorded in these softwares except that for the Parent Company

a) in respect of primary accounting software which has been used during the period April 1, 2024 to February 21, 2025, audit trail feature for front end transactions operated throughout such period, however, the audit trail feature was not enabled for certain tables and at the database level to log any direct changes. The Company has updated its existing software to the upgraded version from February 22, 2025 to March 31, 2025, wherein the audit trail feature for front end transactions operated throughout such period, however, the audit trail feature was not enabled for certain tables, whereas the same has been enabled at the database level in the upgraded version. Consequently, we are unable to comment whether there were any instances of the audit trail feature being tampered for the period where audit trail was not enabled.

b) in respect of primary sales recording software, audit trail feature at the application level has operated throughout the year for all relevant transactions recorded in the software. However, audit trail was not enabled at the database level to log any direct data changes. Consequently, we are unable to comment whether there were any instances of the audit trail feature being tampered with. Further, the Parent Company has migrated to a new primary sales recording software in a phased manner on a few stores during the year, which has the audit trail feature at application level as well as database level to log any direct data changes and the same has operated from the date of migration at respective stores throughout the remaining period for all relevant transactions recorded in the software.

c) in respect of an accounting software operated by a third-party software service provider, for lease accounting having feature of audit trail, in the absence of independent auditor's System and Organisation Controls report, we are unable to comment whether audit trail feature of the said software was enabled and operated throughout the year, for all relevant transactions recorded in the software and whether there were any instances of the audit trail feature been tampered with.

d) in respect of softwares operated by third-party software service providers for maintaining significant processes such as utility bill processing, employee reimbursements, maintenance of payroll masters etc. having feature of audit trail, in the absence of independent auditor's reports covering the audit trail requirement for these softwares, we are unable to comment whether the audit trail at the application and database feature layers of the said software was enabled and operated throughout the year for all relevant transactions recorded in the software or whether there were any instances of the audit trail feature been tampered with.

Further, during the course of our audit, we and respective other auditors, whose reports have been furnished to us by the Management of the Parent Company, have not come across any instance of the audit trail feature being tampered with, in respect of said accounting softwares for the period for which the audit trail feature was enabled and operating.

Additionally, the audit trail that was enabled and operated for the year ended March 31, 2024, has been preserved by the Parent Company, above referred subsidiary company and associate company as per the statutory requirements for record retention.

2. With respect to the matters specified in clause (xxi) of paragraph 3 and paragraph 4 of the Companies (Auditor's Report) Order, 2020 ("CARO"/ "the Order") issued by the Central Government in terms of Section 143(11) of the Act, according to the information and explanations given to us, and based on the CARO reports issued by us and the auditors of respective companies included in the consolidated financial statements to which reporting under CARO is applicable, as provided to us by the Management of the Parent Company, we report that there are no qualifications or adverse remarks by the respective auditors in the CARO reports of the said companies included in the consolidated financial statements. We have not reported any qualification or adverse remark in the CARO report of the Parent Company.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1(g) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls with reference to consolidated financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Group as at and for the year ended March 31, 2025, we have audited the internal financial controls with reference to consolidated financial statements of J**ubilant FoodWorks Limited** (hereinafter referred to as "Parent"), its subsidiary company and its associate companies, which includes internal financial controls with reference to separate financial statements of its subsidiary company and its associate companies, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Parent, its subsidiary company and its associate companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls with reference to consolidated financial statements based on "the internal control with reference to financial statements criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI)". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to consolidated financial statements of the Parent, its subsidiary company and its associate companies, which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls with reference to consolidated financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors of the subsidiary companies and associate companies, which are companies incorporated in India, in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements of the Parent, its subsidiary company and its associate companies, which are companies incorporated in India.

Meaning of Internal Financial Controls with reference to consolidated financial statements

A Company's internal financial control with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to consolidated financial statements

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial control with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors referred to in the Other Matter paragraph below, the Parent, its subsidiary company and its associate companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls with reference to consolidated financial statements and such internal financial controls with reference to consolidated financial statements were operating effectively as at March 31, 2025 based on, the criteria for internal financial control with reference to financial statements established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matter

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to consolidated financial statements insofar as it relates to one subsidiary company and three associate companies, which are companies incorporated in India, is based solely on the corresponding reports of the auditors of such companies incorporated in India, where available.

Our opinion is not modified in respect of the above matters.

1. Corporate information

Jubilant FoodWorks Limited (the Parent Company) and its subsidiaries (together referred as 'the Group') are engaged in wholesale and retail sales of food items through strong international and home grown brands addressing different food market segments across six countries - India, Turkey, Bangladesh, Sri Lanka, Azerbaijan and Georgia. International brands include Domino's, Dunkin' and Popeyes. Homegrown brands are Hong's Kitchen and COFFY.

Currently, Domino's is operated by the Parent Company and by its subsidiaries and sub-franchisees (as applicable) in India, Turkey, Bangladesh, Sri Lanka, Azerbaijan and Georgia. The Parent Company operates Popeyes, Dunkin' and Hong's Kitchen in India and its subsidiaries and franchisees (as applicable) operates COFFY in Turkey.

The registered office of the Parent Company is located at Plot No. 1A, Sector 16-A, Noida-201301, UP, India. The consolidated financial statements were authorised for issue in accordance with a resolution of the directors on May 14, 2025.

2. Material accounting policies

2.1 Basis of preparation of Financial Statements

The consolidated financial statements of the Group and its associates have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the section 133 of the Companies Act 2013 (to the extent notified) read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter (Indian GAAP). Accordingly, the Group and its associates have prepared these financial statements which comprise the Consolidated Balance Sheet as at March 31, 2025, the Consolidated Statement of Profit and Loss, the Consolidated Statement of Cash Flows and the Consolidated Statement of Changes in Equity for the year ended March 31, 2025, and a summary of material accounting policies and other explanatory information on accrual and going concern basis.

The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the previous year.

2.2 Basis of Consolidation

The consolidated financial statements comprise the financial statement of the Parent Company, its subsidiary companies Jubilant FoodWorks Lanka Private Limited (Jubilant FoodWorks Lanka (Pvt) Ltd), Jubilant FoodWorks Bangladesh Limited (formerly Jubilant Golden Harvest Limited), Jubilant Foodworks Netherlands B.V., Jubilant FoodWorks International Investments Limited, and Jubilant FoodWorks International Luxembourg, DP Eurasia B.V. (formerly DP Eurasia N.V.) (DPEU), Fidesrus B.V., Fides Food Systems B.V., Pizza Restaurants LLC, Pizza Restaurantları A.Ş. and controlled trust viz. JFL Employee Welfare Trust (together called as 'the Group') and of the associates Hashtag Loyalty Private Limited, Wellversed Health Private Limited and Roadcast Tech Solutions Private Limited as at March 31, 2025. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

(i) Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)

(ii) Exposure, or rights, to variable returns from its involvement with the investee, and

(iii) The ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

(i) The contractual arrangement with the other vote holders of the investee

(ii) Rights arising from other contractual arrangements

(iii) The Group's voting rights and potential voting rights

(iv) The size of the group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders.

On the contrary the presumption may be rebutted when the Group does not have control over the decision making body of the investee (like board of directors), in which case the management reviews the structure and decides on existence of control basis when the Group is able to actually exercise control over decision making body of the investee.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

The Group treats transactions with non - controlling interests that do not result in a loss of control as transactions with equity owners of the Group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and fair value of any consideration paid or received is recognized within equity.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and

events in similar circumstances, appropriate adjustments are made to that group member's financial statements in preparing the consolidated financial statements to ensure conformity with the group's accounting policies.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the Parent Company, i.e., year ended on March 31, 2025. When the end of the reporting period of the Parent Company is different from that of a subsidiary or associate, the subsidiary or associate prepares, for consolidation purposes, additional financial information as of the same date as the financial statements of the parent to enable the Parent Company to consolidate the financial information of the subsidiary or associate, unless it is impracticable to do so.

2.3 Consolidation Procedures:

a. Subsidiaries:

(i) Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the consolidated financial statements at the acquisition date.

(ii) Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary.

(iii) Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognised in assets, such as inventory and fixed assets, are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS - 12 "Income Taxes" applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

b. Associates:

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

The Group's investment in its associate are accounted for using the equity method from the date on which it becomes an associate. On acquisition of the investment, any difference between the cost of the investment and the Group's share of the net fair value of the investee's identifiable assets and liabilities is accounted for as follows:

- Goodwill relating to an associate is included in the carrying amount of the investment. Such goodwill is not amortised.

- Any excess of the Group's share of the net fair value of the investee's identifiable assets and liabilities over the cost of the investment (if material) is recognised directly in equity as capital reserve in the period in which the investment is acquired.

The carrying amount of the investment is adjusted to recognise changes in the Group's share of net assets of the associate since the acquisition date. Goodwill relating to the associate is included in the carrying amount of the investment and is not tested for impairment individually.

The Statement of Profit and Loss includes the Group's share of the results of operations of the associate. Any change in OCI of those investees is presented as part of the Group's OCI. In addition, when there has been a change recognised directly in the equity of the associate, the Group recognises its share of any changes, when applicable, in the Statement of Changes in Equity. Unrealised gains and losses resulting from transactions between the Group and the associate are eliminated to the extent of the interest in the associate.

The financial statements of the associate are prepared for the same reporting period as the Group. When necessary, adjustments are made to bring the accounting policies in line with those of the Group.

After application of the equity method, the Group determines whether it is necessary to recognise an impairment loss on its investment in its associate. At each reporting date, the Group determines whether there is objective evidence that the investment in the associate is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value, and then recognises the loss as share of profit or loss of associate in the Statement of Profit or Loss.

2.4 Summary of material accounting policies

a. Use of estimates

The preparation of financial statements in conformity with Indian Accounting Standards (Ind AS) requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and disclosure of contingent liabilities at the end of the reporting period. Although these estimates are based upon management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods. Changes in estimates are reflected in the financial statements in the period in which changes are made and if material, their effects are disclosed in the notes to the financial statements.

Critical accounting estimates and judgments:

The areas involving critical estimates and judgments are:

I. Useful lives and residual value of property, plant and equipment and intangible assets

Useful life and residual value are determined by the management based on a technical evaluation considering nature of asset, past experience, estimated usage of the asset, vendor's advice etc. and same is reviewed periodically, including at each financial year end. Management reviews the useful economic lives at least once a year and any changes could affect the depreciation rates prospectively and hence the asset carrying values changes accordingly. The Group also reviews its property, plant and equipment and intangible assets, for possible impairment if there are events or changes in circumstances that indicate that carrying amount of assets may not be recoverable. In assessing the property, plant and equipment and intangible assets for impairment, factors leading to significant reduction in profits, the Group's business plans and changes in regulatory/ economic environment are taken into consideration.

The Group has determined that the master franchisee right asset for Turkey, Azerbaijan and Georgia relating to Domino's Pizza Inc and arising on the acquisition of DP Eurasia B.V. are to be treated as indefinite life intangible assets. This judgment is based on the sufficiency of available evidence supporting the ability of the Group to renew the underlying agreements beyond their initial terms without incurring significant cost. The market and competitive trends suggests that the product will give cash flows to the group for an indefinite period therefore the management has carried the Master franchise right asset (MFA) over indefinite period without amortization.

In respect of Coffy Brand Asset considering the substantial capital outlay, nature of business, management's plan to operate the brand as distinct business unit warrants sustained profitability and growth without foreseeable limitations on the benefits it provides to the Group. Therefore, the management is of the view that by recognizing Coffy Brand as having an indefinite life in financial statements, will have accurate representation of the Brand's value and potential for sustained growth and profitability.

II. Impairment of investments and other assets

The Group has reviewed its carrying value of long term investments and other assets of consolidated financial statements at the end of each reporting period in accordance with the requirements of IND AS, for possible impairment if there are any events or changes in circumstances that indicate that carrying amount of assets may not be recoverable. If the recoverable value, which is based upon market price or economic circumstances and future plan is less than its carrying amount, the impairment loss is accounted.

III. Claims and Litigations

The Group is the subject of lawsuits and claims arising in the ordinary course of business from time to time. The Group reviews any such legal proceedings and claims on an ongoing basis and follow appropriate accounting guidance when making accrual and disclosure decisions. The Group establishes accruals for those contingencies where the incurrence of a loss is probable and can be reasonably estimated, and it discloses the amount accrued and the amount of a reasonably possible loss in excess of the amount accrued, if such disclosure is necessary for the Group's financial statements to not be misleading. To estimate whether a loss contingency should be accrued by a charge to income, the Group evaluates, among other factors, the degree of probability of an unfavourable outcome and the ability to make a reasonable estimate of the amount of the loss. The Group does not record liabilities when the likelihood that the liability has been incurred is probable, but the amount cannot be reasonably estimated. Based upon present information, the Group determined that there were no matters that required an accrual as of March 31, 2025 other than the accruals already recognized, nor were there any asserted or unasserted claims for which material losses are reasonably possible.

IV. Estimation of uncertainties in respect of bankruptcy proceedings of Russia operations

As announced on 21 August 2023, DP Eurasia B.V. (formerly DP Eurasia N.V.) (DPEU) initiated bankruptcy proceedings for Pizza Restaurants LLC (Russian subsidiary) and bankruptcy proceedings are currently underway. DPEU has applied Ind AS 105 "Non-current Assets Held for Sale and Discontinued Operations" for its operations in Russia. The operations in Russia have been suspended and accordingly the profit/ loss from Russia operations are disclosed as profit/ loss

from discontinued operations in the consolidated statement of profit and loss. The assets and liabilities of Russia operations are disclosed as held for sale.

V. Share based payment

The fair valuation of the share options granted under the equity settled transactions is measured using the prescribed valuation techniques, i.e. Black Scholes option pricing model, which involve use of judgements and estimates.

VI. Deferred tax assets

A deferred tax asset is recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilised. Accordingly, the Company exercises its judgement to reassess the carrying amount of deferred tax assets at the end of each reporting period.

VII. Leases

The Group uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate, as per the requirements of Ind AS 116 on Leases.

VIII. Capitalisation of in-house developed softwares

The Group capitalises in-house developed intangible assets in accordance with Ind AS 38 on Intangible Assets. Initial capitalisation of costs is based on judgement that technological and economic feasibility is confirmed.

IX. Employee benefit obligation

Long term and defined benefit obligation costs are assessed on the basis of certain assumptions. These assumptions include salary escalation rate, discount rates, expected rate of return on assets and mortality rates.

b. Application of Ind AS 29 - Hyperinflation in Turkey

The Turkish economy was designated as a hyperinflationary economy effective from June 30, 2022 and, as a result, Ind AS 29, 'Financial Reporting in Hyperinflationary Economies' had become applicable to the Group's subsidiaries whose functional currency is the Turkish Lira (Pizza Restaurantları A.Ş.).

The financial statements of an entity whose functional currency is of hyperinflationary economy are stated in terms of measuring unit current at the end of the reporting period. Monetary items are not restated as they are already stated at measuring unit current at the end of the reporting period.

Non-monetary items which are carried at amount current at the end of reporting period such as net realisable value or fair value are not restated. All other non-monetary items which are valued at cost or cost less depreciation are restated by applying the change in consumer price index (CPI) (of Turkey) from date of acquisition to the end of the reporting period to its historical cost and accumulated depreciation. The restated amount of a non-monetary item is reduced, in accordance with appropriate Ind ASs, when it exceeds the recoverable amount.

Statement of profit and loss is expressed in terms of the measuring unit current at the end of the reporting period, therefore, all amounts are restated by applying CPI from the dates when the items of income and expenses were initially recorded in the financial statements to the end of the reporting period.

At the beginning of the first period of application, the components of shareholder's equity, excluding retained earnings and any revaluation surplus are stated by applying CPI from the date on which the items were contributed or otherwise arose. Restated retained earnings are derived from all the other amounts in the restated statement of financial position.

The gain or loss on the net monetary position being the difference resulting from the restatement of non-monetary assets, owners' equity and items in the statement of profit and loss and the adjustment of index linked assets and liabilities is recognized in the consolidated statement of profit and loss.

The Group presents the restatement effect resulting from restating the Group's interest in the equity of the hyperinflationary foreign operation as required by Ind AS 29 and translation effects resulting from translating the Group's interest in the equity of the hyperinflationary foreign operation (excluding the effect of any restatement required by Ind AS 29) at a closing rate that differs from the previous closing rate in the other comprehensive income considering that the combination of transition and translation effects meets the definition of an exchange difference in Ind AS 21 "The Effects of Changes in Foreign Exchange Rates".

c. Revenue recognition

Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration we expect to receive in exchange for those products or services. The Group is generally the principal as it typically controls the goods or services before transferring them to the customer.

The Group recognizes revenue from contracts with customers based on a five-step model as set out in Ind AS 115:

Step 1: Identify contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.

Step 2: Identify performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.

Step 3: Determine the transaction price: The transaction price is the amount of consideration to which the Group expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Step 4: Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Group allocates the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Group expects to be entitled in exchange for satisfying each performance obligation.

Step 5: Recognize revenue when (or as) the Group satisfies a performance obligation.

Sale of manufactured goods

Retail sale:

The group recognizes revenue from sale of food through group's owned stores and are recognized at a point in time, upon transfer of control of products to the customers, which happens when the items are delivered to or carried out by customers. Customer's payments are generally due at the time of sale.

Wholesale:

The Group sells raw materials and other items to franchise-owned stores. Sales are recognised at a point in time when control of the products has transferred, being when the products are delivered to the franchisees, franchisees have full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the franchisees' acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the franchisee, and either the franchisee has accepted the products in accordance with the sales contract, the acceptance provisions have lapsed, or the Group has objective evidence that all criteria for acceptance have been satisfied. The financing component is only taken into consideration when the length of the time between the transfer of services and the related consideration is expected to exceed one year, and the effect is material.

The Group adjusts the promised amount of consideration for the effects of the time value of money when the timing of payments agreed provides either the customer or the entity with a significant benefit of financing.

Sale of traded goods:

The Group recognizes revenue from sale of supplies to its franchised stores (including subsidiaries operating Domino's Restaurants in Sri Lanka and Bangladesh) upon delivery or shipment of the related products, based on shipping terms and payments for supplies are generally due within 90 days of the shipping date.

Revenue is measured based on the consideration to which the group expects to be entitled from a customer, net of returns and allowances, discounts, volume rebates and cash discounts and excludes sales taxes or Value Added Tax or Goods and Service Tax collected from customer and remitted to the appropriate taxing authorities and are not reflecting in the Statement of Profit and Loss as "Revenue".

Customer loyalty program on sale of goods:

The Group operates loyalty program where customers accumulate loyalty points for purchases made which entitle them to discounted or free products in future on meeting applicable terms and conditions. A contract liability, towards such performance obligation to provide discounted or free products, is recognised (as unearned income) at the time of the initial sale. The transaction price on initial sale is allocated to the product and the loyalty points on a relative stand-alone selling price basis. Management estimates the stand-alone selling price of loyalty points based on the discount or value of free product granted when the points are redeemed and the likelihood of redemption, based on past experience. The stand-alone selling price of the product initially sold is estimated based on the retail price. Revenue is recognized when the loyalty points are redeemed by the customers or when the loyalty points expire as per terms of issuance.

Interest

For all financial instruments measured at amortized cost, interest income is recorded using the effective interest rate ("EIR"), which is the rate that exactly discounts the estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses.

Dividends

Revenue is recognized when the unconditional right to receive the payment is established by the balance sheet date.

Franchisee Fee (Sub franchisee income)

Franchisee fee is based on a percentage of franchise retail sales and are recognized when the items are delivered to or carried out by franchisees' customers, on accrual basis in accordance with the terms of the relevant agreement.

Store opening fees and area development fee received from international sub-franchisees are recognized as revenue on a straight-line basis over the term of each respective franchise store agreement by the Parent Company. Fee received in excess of revenues are classified as contract liabilities (which we refer to as unearned income).

Franchise arrangement involves the right to operate in a specific location as well as other goods and services, such as point-of-sale systems, restaurant concept, menus and benefits from national advertising campaigns. Revenue generated from franchise fees is generated

in proportion to time passed since the inception of the franchise contract.

In determining the transaction price, the Group adjusts the promised amount of consideration for the effects of the time value of money if the timing of payments agreed to by the parties to the contract provides the customer or the Group with a significant benefit of financing the transfer of goods or services to the customer. In those circumstances, the contract contains a significant financing component.

Incentive

The Group is eligible for certain benefits basis the target stores opening as agreed with franchisor. These benefits are recognized basis the satisfaction of performance obligations i.e. basis the number of stores opened. The incentive has been netted off against the royalty expenses considering the substance of transaction.

Scrap Sale

Sale of scrap is recognised upon transfer of control of products to the customers which coincides with the delivery to customer.

Cost to fulfill a contract:

The Group incurs certain costs with Domino's Pizza International related to the set-up of each franchise contract and IT systems used for recording of franchise revenue. The costs relate directly to the franchise contract, generate resources used in satisfying the contract and are expected to be recovered. They are therefore capitalised as costs to fulfil a contract and are expensed over the life of the contract. Costs to fulfil a contract are classified under "Other assets" in the statement of financial position.

d. Foreign currencies

Foreign currency transactions

Initial Recognition

Foreign currency transactions are recorded in the functional currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency on the date of the transaction.

Conversion

Foreign currency monetary items are reported using the closing rate. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction.

Exchange Differences

Exchange differences arising on the settlement of monetary items, or on reporting such monetary items of Group at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognized as income or as expenses in the year in which they arise.

Functional and presentation currency

The functional currency of the Parent Company in the Indian rupee. These financial statements are presented in Indian rupees.

Exchange Difference on consolidation of Foreign operations

For the purposes of presenting these consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into Indian Rupees using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during that period, in which case the exchange rates at the dates of the transactions are used. However, all amounts (i.e. assets, liabilities, equity items, income and expenses) of a foreign operation whose functional currency is the currency of a hyperinflationary economy, are translated into INR at the rate of exchange prevailing at the reporting date and the comparative figures shall be those that were presented as current year amounts in the relevant prior year financial statement (i.e. not adjusted for subsequent changes in the price level or subsequent changes in exchange rates).

Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity (and attributed to non-controlling interests as appropriate).

On the disposal of a foreign operation (i.e. a disposal of the Group's entire interest in a foreign operation, a disposal involving loss of control over a subsidiary that includes a foreign operation, or a partial disposal of an interest in a joint arrangement or an associate that includes a foreign operation of which the retained interest becomes a financial asset), all of the exchange differences accumulated in equity in respect of that operation attributable to the owners of the group are reclassified to profit or loss.

e. Taxes

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses/ credits.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of reporting period in the country where the Group operate and generate taxable income.

Provision is made for uncertain tax positions when it is considered probable that there will be a future outflow of funds to a tax authority. The provision is calculated using the best estimate where that outcome is more likely than not and a weighted average probability in other circumstances. The position is reviewed on an ongoing basis, to ensure appropriate provision is made for each known tax risk.

Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Deferred tax liabilities are not recognised for any undistributed reserves in subsidiaries where the Parent Company is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Current and deferred tax for the year

Deferred tax assets and liabilities are offset when there is legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income.

Acquired deferred tax benefits recognised within the measurement period reduce goodwill related to that acquisition if they result from new information obtained about facts and circumstances existing at the acquisition date. If the carrying amount of goodwill is zero, any remaining deferred tax benefits are recognised in OCI/ Capital reserve depending on the principle explained for bargain purchase gains. All other acquired tax benefits realised are recognised in profit or loss.

Deferred tax assets for unused tax losses

Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing of future taxable profits together with future tax planning strategises.

Goods and Service Tax(GST)

Expenses and assets are recognized net of the amount of Goods and Service Tax paid, except:

- When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognized as part of the cost of acquisition of the asset or as part of the expense item, as applicable
- When receivables and payables are stated with the amount of tax included.

The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

f. Property, plant and equipment

Property, plant and equipment are carried at cost less accumulated depreciation and accumulated impairment losses, if any. Cost includes its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates. It includes other costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

When significant parts of plant and equipment are required to be replaced at intervals, the Group depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in profit or loss as incurred. The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met.

Depreciation on property, plant and equipment is calculated on straight line basis using the rates arrived at based on the useful lives estimated by the management.

Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Group and the costs of the item can be measured

reliably. Repairs and maintenance costs are charged to the statement of profit and loss when incurred.

The management has estimated, supported by assessment by internal professionals, the useful lives of the following classes of assets and has used the following rates to provide depreciation on its property, plant and equipment which are different from those indicated in schedule II of Companies Act, 2013. The management believe that the above assessment truly represents the useful life of assets in the specific condition, these assets are put to use by the Group.

Property, Plant and Equipment	Estimated Useful Life (in no. of years)
Leasehold Improvements	5-9 or Actual lease period, whichever is lower
Building	30-60
Plant and Equipment	3 to 40
Office Equipment	2 to 10
Furniture and Fixtures	5 to 10
Vehicles	3 to 6

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognised.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

g. Investment properties

Investment properties are properties held to earn rentals and/or for capital appreciation. Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are measured in accordance with Ind AS 40's requirements for cost model.

h. Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Intangible assets acquired in a business combination are measured at acquisition date fair value. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any.

Intangible assets are amortized on a straight line basis over the estimated useful economic life. If the persuasive evidence exists to the affect that useful life of an intangible asset exceeds ten years, the Group amortizes the intangible asset over the best estimate of its useful life. Such intangible assets are tested for impairment annually, either individually or at the cash-generating unit level.

The Group has determined that the master franchisee right asset for Turkey, Azerbaijan and Georgia relating to Domino's Pizza Inc and arising on the acquisition of DP Eurasia B.V. are to be treated as indefinite life intangible assets. This judgment is based on the sufficiency of available evidence supporting the ability of the Group to renew the underlying agreements beyond their initial terms without incurring significant cost. The market and competitive trends suggests that the product will give cash flows to the group for an indefinite period therefore the management has carried the MFA over indefinite period without amortization. In respect of Coffy Brand Asset considering the substantial capital outlay, nature of business, management's plan to operate the brand as distinct business unit warrants sustained profitability and growth without foreseeable limitations on the benefits it provides to the Group. Therefore, the management is of the view that by recognizing Coffy Brand as having an indefinite life in financial statements, will have accurate representation of the Brand's value and potential for sustained growth and profitability.

All intangible assets are assessed for impairment whenever there is an indication that the intangible asset may be impaired.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

A summary of amortization policies applied to the Group intangible assets is as below:

Intangible assets	Estimated Useful Life (in no. of years)
Software	3 – 7
Store opening fees	5
Territory fees	10-20
Master franchise right asset	Indefinite
Coffy Brand asset	Indefinite

The territory fee has been paid to the franchisor for running and operating restaurants. This is amortized over the period of contract, during which the Group shall be deriving the economic benefits.

Internally-generated intangible assets - research and development expenditure

Expenditure on research activities is recognised as an expense in the period in which it is incurred. An internally-generated intangible asset arising from development (or from the development phase of an internal project) is recognised if, and only if, all of the following have been demonstrated:

- the technical feasibility of completing the intangible asset so that it will be available for use or sale;
- the intention to complete the intangible asset and use or sell it;
- the ability to use or sell the intangible asset;
- how the intangible asset will generate probable future economic benefits;
- the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset; and
- the ability to measure reliably the expenditure attributable to the intangible asset during its development.

The amount initially recognised for internally-generated intangible assets is the sum of the expenditure incurred from the date when the intangible asset first meets the recognition criteria listed above. Where no internally-generated intangible asset can be recognised, development expenditure is recognised in profit or loss in the period in which it is incurred.

Subsequent to initial recognition, internally-generated intangible assets are reported at cost less accumulated amortisation and accumulated impairment losses, on the same basis as intangible assets that are acquired separately.

i. Capital work-in-progress

Cost of property, plant and equipment not ready for use as at the reporting date are disclosed as capital work-in-progress.

j. Expenditure during construction period

Expenditure directly relating to construction activity (including borrowing costs) are capitalized. Other expenditure incurred during the construction period which are not related to the construction activity nor are incidental thereto, are charged to the statement of profit and loss.

k. Impairment of tangible and intangible assets

The Group tests indefinite life intangible assets for impairment annually or whenever there are any indicator for impairment. For other assets, the Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available.

An assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the Group estimates the asset's or cash-generating unit's recoverable amount.

A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of profit and loss.

l. Leases

In accordance with Ind AS 116 – Leases, at inception of the contract, the Group assesses whether a contract is, or contains a lease. A lease is defined as 'a contract, or part of a contract, that conveys the right to control the use an asset (the underlying asset) for a period of time in exchange for consideration'. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether:

- The contract involves the use of an identified asset – this may be specified explicitly or implicitly, and should be physically distinct or represent substantially all of the capacity of a physically distinct asset. If the supplier has a substantive substitution right, then the asset is not identified;
- The Group has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and
- The Group assesses whether it has the right to direct 'how and for what purpose' the asset is used throughout the period of use.

At inception or on reassessment of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of their relative standalone prices. However, for the leases of land and buildings in which it is a lessee, the Group has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

Where the Group is a lessor

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Where the Group is a lessee

For the lease contracts where the Group is a lessee, it recognizes right-of-use asset and lease liability at the date at which the leased asset is available for use by the Group. Assets and Liabilities arising from a lease are initially measured on a present value basis.

Right-of-use assets:

At the commencement of lease, right-of-use asset is recognized at cost which comprises the following:

- Initial measurement of lease liability
- Lease payments made before commencement date less lease incentives
- Initial direct costs incurred by the Group and estimate of any dismantling cost.

Right-of-use assets are depreciated on a straight line basis over the lease term as below:

Right-of-use assets	Estimated Useful Life (in no. of years)
Right-of-use buildings	1-30
Right-of-use land	90-99
Right-of-use Equipment	3-5

The right-of-use assets are subsequently measured at cost less accumulated depreciation and any accumulated impairment. Adjustment is made for any remeasurement of lease liability.

Lease liability:

At the commencement of lease the Group measures the lease liability at the present value of lease payments not paid at commencement date. The lease payments are discounted using the lessee's incremental borrowing rate.

The lease payments include fixed payments (including in-substance fixed payments) and variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date but does not include any variable lease payments that are based on sales.

The variable element in case of Turkey territory is the rent increase rate and is calculated based on the consumer price index ("CPI"), producer price index ("PPI") or an average of both. Such variable lease payments are based on an index or a rate and are initially measured using the index or the rate at the commencement date. The Group does not forecast future changes of the index/rate; these changes are considered when the lease payments change.

Subsequently, the lease liability is measured at amortised cost using the effective interest method. It is adjusted to reflect any reassessment or lease modifications.

Short term lease and low value leases:

The Group do not recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low value assets. The Group recognises the lease payments associated with these leases as an expense on a straight line basis over the lease term.

Sub leases:

In case of its Turkey operations, the Group operates as intermediate lessor for a significant proportion of its leases. The Group has evaluated its rent agreements and classified its sub-leases as financial leases as required in Ind AS 116. Where the Group recognised a leasing agreement from a sub-lease transaction, classified as financial leasing, the right-of-use asset from the head-lease is derecognised and a lease receivable equal to the derecognised right-of-use assets is recognised.

Extension and termination options:

In case of its Turkey operations, most of the extension and termination options held are exercisable both by the Group and by the respective lessor. Extension options are available for almost all contracts of the Group. In more than 90% of the contracts, the Group has the right to extend the contract unilaterally, which does not need the consent of the landlord. In determining the lease liability, the Group considers the extension and termination options. Periods covered by an option to extend the lease term are included in the lease term if the lessee is reasonably certain to exercise that option. The same rationale applies to termination options. The term covered by a termination option is not included in the lease term if the lessee is reasonably certain not to exercise the option. Otherwise, the lease term ends at the point in time when the lessee can exercise the termination option.

m. Inventories

Basis of valuation:

Inventories other than scrap materials are valued at lower of cost and net realizable value, if any. The comparison of cost and net realizable value is made on an item-by-item basis. Provision is made for items which are not likely to be consumed and other anticipated losses wherever considered necessary.

Method of Valuation:

- Cost of raw materials has been determined by using FIFO method and comprises all costs of purchase, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventories to their present location and condition.
- Cost of traded goods has been determined by using FIFO method and comprises all costs of purchase, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventories to their present location and condition.
- Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

n. Provisions

A provision is recognised when the Group has a present obligation (legal or constructive) as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

o. Contingent liabilities and assets

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Group does not recognize a contingent liability but discloses its existence in the financial statements. Contingent assets are not recognised and are disclosed only where an inflow of economic benefits is probable.

p. Dividend Distributions

The Group recognizes a liability to make payment of dividend to owners of equity when the distribution is authorized and is no longer at the discretion of the Group and is declared by the shareholders. A corresponding amount is recognized directly in equity.

q. Fair value measurement

The Group measures financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1- Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3- Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

r. Employee Benefits

- **Short-term obligations**

  Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within twelve months after the end of the period in which the employees render the related service are recognized in respect of employee service upto the end of the reporting period and are measured at the amount expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

- **Post-employment benefit obligations**

  Gratuity Plan (India Operations)

  The Employee's Gratuity Fund Scheme, which is defined benefit plan, is managed by Trust maintained with SBI Life Insurance Company Limited. The liabilities with respect to Gratuity Plan are determined by actuarial valuation on projected unit credit method on the balance sheet date, based upon which the Group contributes to the Group Gratuity Scheme. The difference, if any, between the actuarial valuation of the gratuity of employees at the year end and the balance of funds with SBI Life Insurance Company Limited is provided for

as assets/ (liability) in the books. Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. Future salary increases and pension increases are based on expected future inflation rates for the respective countries. Further details about the assumptions used, including a sensitivity analysis, are given in Note no 36.

The Group recognises the following changes in the net defined benefit obligation under Employee benefit expense in statement of profit or loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements
- Net interest expense or income

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the Balance Sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

Employment Termination Benefits under Turkish Labor Law

Provision for employment termination benefits, as required by Turkish Labor Law, represents the estimated present value of the total reserve of the future probable obligation of the Group companies operating in Turkey arising in case of the retirement of the employees, termination of employment without due cause or call for military service. The provision is based upon actuarial estimations using the projected unit credit method. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are recorded in the Balance Sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they arise.

Superannuation

Certain employees of the Group are also participants in the superannuation plan ('the Plan'), a defined contribution plan. Contribution made by the Group to the plan during the year is charged to the Consolidated Statement of Profit and Loss.

Provident Fund

The Parent Company contributes to the provident fund scheme for its eligible employees.

The Provident Fund scheme is a defined contribution plan. The Parent Company recognises contribution payable to the provident fund scheme as an expense, when an employee renders the related service.

Other long-term employee benefit obligation

Compensated Absences/Leave Encashment

Accumulated leaves which is expected to be utilized within next 12 months is treated as short term employee benefit. The Group measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement and discharge at the year end.

Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Group in respect of services provided by employees up to the reporting date.

Share-based payments

Employees (including senior executives) of the Group receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments (equity-settled transactions).

Equity-settled transactions

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using an appropriate valuation model.

That cost is recognised, together with a corresponding increase in share-based payment (SBP) reserves in equity, over the period in which the performance and/or service conditions are fulfilled in employee benefits expense. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Group best estimate of the number of equity instruments that will ultimately vest. The statement of profit and loss expense or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Group best estimate of the number of equity instruments that will ultimately vest. Market performance conditions are reflected within the grant date fair value. Any other conditions attached to an award, but without an associated service requirement, are considered to be non-vesting conditions. Non-vesting conditions are reflected in the fair value of an award and lead to an immediate expensing of an award unless there are also service and/or performance conditions.

No expense is recognised for awards that do not ultimately vest because non-market performance and/or service conditions have not been met. Where awards include a market or non-vesting condition, the transactions are treated as vested irrespective of whether the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

When the terms of an equity-settled award are modified, the minimum expense recognised is the expense had the terms had not been modified, if the original terms of the award are met. An additional expense is recognised for any modification that increases the total fair value of the share-based payment transaction, or is otherwise beneficial to the employee as measured at the date of modification. Where an award is cancelled by the entity or by the counterparty, any remaining element of the fair value of the award is expensed immediately through profit or loss.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

Treasury shares

JFL Employee Welfare Trust ("ESOP trust") allots shares to eligible employees of the Parent Company upon their exercise of ESOPs. The group treats ESOP trust as its extension and shares held by the ESOP trust are treated as treasury shares. Own equity instruments that are held by the trust are recognised at cost and deducted from equity. Any gain or loss on the purchase and sale of the Parent Company's own equity instruments is recognised in other equity.

s. Exceptional Items

Exceptional items are transactions which due to their size or incidence are separately disclosed to enable a full understanding of the group financial performance.

t. Earnings Per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and all periods presented is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effect of all potentially dilutive equity shares.

u. Business Combinations

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interest issued by the Group in exchange for control of the acquiree. Acquisition-related costs are recognised in profit or loss as incurred.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value at the acquisition date, except that:

- deferred tax assets or liabilities and assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with Ind AS 12 and Ind AS 19 respectively;
- liabilities or equity instruments related to share-based payment arrangements of the acquiree (unreplaced awards) are measured in accordance with Ind AS 102 at the acquisition date (see above); and
- assets (or disposal groups) that are classified as held for sale in accordance with Ind AS 105 are measured in accordance with that Standard.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date fair value of the identifiable assets acquired and the liabilities assumed.

For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets.

When a business combination is achieved in stages, the Group's previously held interests in the acquired entity are remeasured to its acquisition-date fair value and the resulting gain or loss, if any, is recognised in profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss, where such treatment would be appropriate if that interest were disposed of.

v. Goodwill

Goodwill is initially recognised and measured as set out above. After initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is not amortised but is reviewed for impairment annually.

w. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

The Group classifies its financial assets in the following measurement categories:

- Those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss)
- Those measured at amortized cost

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

i. Debt instruments at amortized cost

ii. Debt instruments at fair value through other comprehensive income (FVTOCI)

iii. Debt instruments at fair value through profit and loss (FVTPL)

iv. Equity instruments

Debt instruments at amortized cost

A debt instrument is measured at amortized cost if both the following conditions are met:

- **Business model test:** The objective is to hold the debt instrument to collect the contractual cash flows (rather than to sell the instrument prior to its contractual maturity to realise its fair value changes).
- **Cash flow characteristics test:** The contractual terms of the Debt instrument give rise on specific dates to cash flows that are solely payments of principal and interest on principal amount outstanding.

This category is most relevant to the Group. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of EIR. EIR is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses. The EIR amortisation is included in finance income in profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables.

Debt instruments at fair value through OCI

A Debt instrument is measured at fair value through other comprehensive income if following criteria are met:

- **Business model test:** The objective of financial instrument is achieved by both collecting contractual cash flows and for selling financial assets.
- **Cash flow characteristics test:** The contractual terms of the financial asset give rise on specific dates to cash flows that are solely payments of principal and interest on principal amount outstanding.

Financial Asset included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the Group recognized the interest income, impairment losses and reversals and foreign exchange gain or loss in the Consolidated Statement of Profit and Loss. On derecognition of asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to Consolidated Statement of Profit and Loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instruments at FVTPL

FVTPL is a residual category for financial instruments. Any financial instrument, which does not meet the criteria for amortized cost or FVTOCI, is classified as at FVTPL. A gain or loss on a debt instrument that is subsequently measured at FVTPL and is not a part of a hedging relationship is recognized in profit or loss and presented net in the statement of profit and loss within other gains or losses in the period in which it arises. Interest income from these Debt instruments is included in other income.

Equity investments of other entities

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognized by an acquirer in a business combination to which Ind AS 103 applies are classified as at FVTPL. For all other equity instruments, the Group may make an irrevocable election to present in other comprehensive income all subsequent changes in the fair value. The Group makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to profit and loss, even on sale of investment. However, the Group may transfer the cumulative gain or loss within equity. Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the Consolidated Statement of Profit and Loss.

Derecognition

A financial asset (or ,where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Group statement of financial position) when:

i. The rights to receive cash flows from the asset have expired, or

ii. The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass through" arrangement and either;

iii. The Group has transferred the rights to receive cash flows from the financial assets or

iv. The Group has retained the contractual right to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Group has transferred an asset, the Group evaluates whether it has transferred substantially all the risks and rewards of the ownership of the financial assets. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all the risks and rewards of the ownership of the financial assets, the financial asset is not derecognised.

Where the Group has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Group has not retained control of the financial asset. Where the Group retains control of the financial asset, the asset is continued to be recognized to the extent of continuing involvement in the financial asset.

Impairment of financial assets

In accordance with Ind AS 109, the Group applies expected credit losses(ECL) model for measurement and recognition of impairment loss on the following financial asset and credit risk exposure

- Financial assets measured at amortised cost;
- Financial assets measured at fair value through other comprehensive income(FVTOCI);

The Group follows "simplified approach" for recognition of impairment loss allowance on:

- Trade receivables or contract revenue receivables;
- All lease receivables resulting from the transactions within the scope of Ind AS 116

Under the simplified approach, the Group does not track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. The Group uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivables. The provision matrix is based on its historically observed default rates over the expected life of trade receivable and is adjusted for forward looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward looking estimates are analysed.

For recognition of impairment loss on other financial assets and risk exposure, the Group determines whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the Group reverts to recognising impairment loss allowance based on 12- months ECL.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified at initial recognition as financial liabilities at fair value through profit or loss, loans and borrowings, and payables, net of directly attributable transaction costs. The Group financial liabilities include loans and borrowings including trade payables, trade deposits, retention money and liability towards services, sales incentive, other payables and derivative financial instruments.

The measurement of financial liabilities depends on their classification, as described below:

Trade Payables

These amounts represents liabilities for goods and services provided to the Group prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 30 to 60 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognized initially at fair value and subsequently measured at amortized cost using EIR method.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are

classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

The Group has not designated any financial liability as at fair value through profit and loss.

Financial liabilities measured subsequently at amortised cost

Financial liabilities that are not (i) contingent consideration of an acquirer in a business combination, (ii) held-for-trading, or (iii) designated as at FVTPL, are measured subsequently at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost of a financial liability.

De-recognition

The Group derecognizes a financial liability when the obligation under the liability is discharged or cancelled or expires.

Offsetting of financial instruments

The Group offsets a financial asset and a financial liability and reports the net amount in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

Reclassification of financial assets:

The Group determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Group senior management determines change in the business model as a result of external or internal changes which are significant to the Group operations. Such changes are evident to external parties. A change in the business model occurs when the Group either begins or ceases to perform an activity that is significant to its operations. If the Group reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Group does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

Put option liability

While the Group continues to control DPEU, the Group has recorded non-controlling interest (NCI) for shares held by third parties. An agreement has been entered into with certain NCI holder, which provides for a put as well as a call option, exercisable at a price determined as per the terms of the agreement. The Group has concluded that it does not control these shares and hence has recorded these shares as part of the Group's NCI. The Group has determined that the triggering events for exercising the option under the agreement are not within the complete control of the Group and has thus recorded a put option liability at the present value of the expected buy-back amount, which is also the maximum amount, by debiting other equity (retained earnings). Subsequent re-measurement of this liability is also recognised in the same head considering adjustments for transactions with NCI, that do not result in loss of control, are accounted for as equity transactions.

x. Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

y. Segment Reporting Policies

As the Group business activity primarily falls within a single business and geographical segment and the Executive Management Committee monitors the operating results of its business units not separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on profit or loss and is measured consistently with profit or loss in the consolidated financial statements, thus there are no additional disclosures to be provided under Ind AS 108 – "Segment Reporting". The management considers that the various goods and services provided by the Group constitutes single business segment, since the risk and rewards from these services are not different from one another. The Group operating businesses are organized and managed separately according to the nature of products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets. The analysis of geographical segments is based on geographical location of the customers.

z. Statement of Cash Flows

Cash flows are reported using indirect method, whereby profit before tax is adjusted for the effects transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from regular revenue generating, financing and investing activities of the Group are segregated. Cash and cash equivalents in the cash flow comprise cash at bank, cash/ cheques in hand and short-term investments with an original maturity of three months or less.

aa. Current/Non Current classifications

The Group presents assets and liabilities in the balance sheet based on current/non- current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities and advance against current tax are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Group has identified twelve months as its operating cycle.

ab. Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

ac. Discontinued operations and assets and liabilities held for sale

Discontinued operation is a component of the Group that has been disposed of or classified as held for sale and represents a major line of business.

Assets and disposal groups are classified as held for sale if their carrying amount is intended to be recovered principally through a sale (rather than through continuing use) when the asset (or disposal group) is available for immediate sale in its present condition subject only to terms that are usual and customary for sale of such asset (or disposal group) and the sale is highly probable and is expected to qualify for recognition as a completed sale within one year from the date of classification. Non-current assets and disposal groups classified as held for sale are measured at lower of their carrying amount and fair value less costs to sell."

3 b Right-of-Use Assets

In respect of leases of store space: The Group has entered into various lease agreements for acquiring space to do its day to day operations. Such lease contracts include monthly fixed payments for rentals and in some cases these also have variable rent. The lease contracts are generally cancellable at the option of lessee during the lease tenure. The Group also has a renewal option after the expiry of contract term. There are no significant restrictions imposed under the lease contracts.

In respect of leases of land: The Parent Company has entered into land lease agreements for 90-99 years where its commissaries are operational. The lease rentals as per the contracts are fully paid and there are no significant restrictions imposed under the lease contracts.

In respect of leases of equipment: The Parent Company has also taken certain equipment on rent. The contracts are for a period of 3-5 years and include fixed monthly payments. These contract are non cancellable. There are no significant restrictions imposed under the lease contracts.

In respect of Vehicles: One of the subsidiaries of the Group has taken Vehicles on rent. The contracts are for a period of 4-5 years and include fixed monthly payments. These contract are non cancellable. There are no significant restrictions imposed under the lease contracts.

Below are the summary of financial information related to the above lease contracts:

^ Excluding penalty of INR 623.56 million (Previous Year: INR 477.89 million), wherever specified in the order.

Notes:

(a) The Parent Company received income tax assessment order for assessment year (AY) 2017-18, AY 2018-19, AY 2020-21, AY 2021-22 and assessing officer made adjustments for advertisement, marketing and promotion expenses (AMP Expense) of INR 1,099.83 million, INR 348.00 million, INR 87.96 million and INR 4,205.80 million respectively basis direction received from Transfer Pricing Officer stating AMP expenses as international transactions. On a similar issue, in case of other taxpayer, the Hon'ble Supreme Court has decided in favour of the taxpayer and dismissed department's appeal. Hence, no contingent liability has been reported in the view of the management.

(b) (i) Includes demand of INR 28.44 million (Previous year INR 28.44 million) raised on M/s. Domino's Pizza International Franchising Inc. (DPIF) for Value Added Tax (VAT) payable on Royalty received from the Parent Company for right to use "Domino's" brand name under Master Franchise Agreement. However, the Parent Company has paid service tax on Royalty under reverse charge mechanism (RCM) since there is no sale of goods involved rather there is purchase of service.

(ii) Includes levy of VAT on service tax charged from the customers for restaurant services for INR 5.82 million (Previous year INR 5.82 million) pending at Haryana Sales Tax Tribunal, Chandigarh Tax Tribunal and Rajasthan High Court, Jaipur.

(iii) In the previous years, the Parent Company had received demand of INR 57.97 million for the year 2013-14 to 2017-18 (April-June quarter) relating to VAT on service tax component charged from customers at the restaurant wherein question of VAT on service tax was raised by the Department of Commercial Taxes. The Parent Company was of the view that the demand was not tenable, as service tax was not consideration rather it was tax collected on behalf of the Government, secondly, VAT and Service tax were mutually exclusive and could not be levied on the same value. The Parent Company received revised order including VAT on Service Tax in the month of March 2022 for the year 2015-16 to 2017-18 (April-June quarter). The Parent Company had filed a writ petition before Hon'ble Gujarat High Court in the month of September 2022.

During the current year, the Parent Company has received a favourable order from Gujarat High Court with respect to the matter. Hence, the same is not considered as a contingent liability as at March 31, 2025.

(c) (i) GST rate on restaurant services was reduced from 18% to 5% subject to the condition that input tax credit (ITC) on input services/ goods will not be allowed with effect from (w.e.f.) November 15, 2017 resulting in loss of ITC. The Parent Company reduced GST rate from 18% to 5% w.e.f. November 15, 2017 and increased menu prices of various stock keeping units (SKUs) to recoup the loss of ITC in such a manner that at overall level the loss of ITC was higher than the price increase resulting net loss to the Parent Company at entity level. Based on customer complaint an Anti-Profiteering investigation was conducted by Director General Anti profiteering (DG). The DG extended the scope of investigation to all products of the Parent Company and submitted its report to National Anti-Profiteering Authority (NAA) on July 16, 2018.

The NAA vide its Order dated January 31, 2019 determined the profiteering amount of INR 414.30 million by the Parent Company for the period November 15, 2017 to May 31, 2018 and also directed the Parent Company to reduce its price by way of commensurate reduction, keeping in view the reduced rate of tax and the benefit of ITC denied, directed the DG to conduct further investigation.

The Parent Company filed a writ petition before Hon'ble Delhi High court (HC) challenging the order of the NAA and initiation of penalty proceeding on February 25, 2019. Delhi HC in an Interim Order passed on March 13, 2019 stayed the NAA order and the Penalty proceeding against the Parent Company subject to deposit of INR 200.00 million in Central Consumer Welfare Fund (CWF) The Parent Company has deposited INR 200.00 million with CWF in compliance with the stay order of Hon'ble Delhi High Court. The High Court took note of the fact that there are similar cases in which the constitutional validity of Section 171 of the CGST Act, 2017 has been challenged along with other constitutional/ common issues. Hence, the entire batch of all such cases has been clubbed together. On January 29, 2024 Delhi High Court upheld the constitutional validity and decided the matter against the Parent Company on Constitutional Validity. The Parent Company filed an appeal with Supreme Court on May 02, 2024 on grounds of Constitutional Validity. Arguments on merits of Anti-profiteering calculation is still pending before Delhi High Court

Basis legal expert opinion and other legal and commercial grounds presented in the writ petition, the Parent Company is of the view that the demand is not tenable as the Parent Company has incurred losses at the entity level.

ii) During the FY 2020-21, the Parent Company has received demand orders from Uttar Pradesh GST Department (UPGST) in respect of FY 2017-18 and 2018-19 aggregating to INR 1,322.38 million (including interest of INR 285.26 million and penalty 526.17 million). The key components of demand are; availing ITC in GSTR-3B which was not matched with GSTR-2A, availment of opening ITC as on November 14, 2017 (i.e. when GST rate reduced to 5% without ITC), ITC distributed by ISD against the procedures laid down under law and ITC incorrectly utilised against inter-state outward liability.

The Parent Company had filed appeal before Commissioner (Appeals), State Tax, along with predeposit of 10% of the disputed tax. Personal hearing completed for FY 2017-18 and order received with partial relief of INR 129.90 million. For rest of the demand, the Parent Company would be filing appeal before UPGST Tribunal (once formed). During the year, Personal hearing completed for FY 2018-19 and order received with partial relief of INR 46.50 million. For rest of the demand, the Parent Company would be filing appeal before UPGST Tribunal (once formed). Pursuant to the same, the Parent Company had paid pre-deposit of 20% of the disputed tax for the FY 2017-18 and FY 2018-19 as pre-requisite for filing appeal with UPGST tribunal during the current financial year.

Basis legal expert opinion and other legal and commercial grounds presented in the appeal, the Parent Company is of the view that the demand is not tenable.

(iii) During the current year, the Parent Company has received demand order from Maharashtra GST Department (MHGST) in respect of FY 2017-18 to FY 2020-21 aggregating to INR 145.67 million (excluding applicable interest and INR 145.67 million penalty). The demand is raised on account of ITC incorrectly availed and utilised against inter-state outward liability. The Parent Company had filed an appeal before Commissioner (Appeals) in the month of April 2025, along with pre-deposit of 10% of the disputed tax.

Basis legal expert opinion and other legal and commercial grounds presented in the appeal, the Parent Company is of the view that the demand is not tenable.

iv) During the current year, the Parent Company has received demand orders from Delhi (West) CGST Department, New Delhi in respect of FY 2020-21 to FY 2023-24 aggregating to INR 89.22 million (excluding applicable interest and INR 8.92 million penalty). The demand is raised on account of GST HSN/SAC classification of supply of 'Restaurant Services' by the Parent Company. The Parent Company will be filing an appeal before Commissioner (Appeals) along with pre-deposit of 10% of the disputed tax.

Basis legal expert opinion and other legal and commercial grounds presented in the appeal, the Parent Company is of the view that the demand is not tenable.

(d) Guarantee letters given by Pizza Restaurantları A.Ş. as at March 31, 2025 are TRY 29.69 million (equivalent to INR 66.82 million) (Previous Year: TRY 35.19 million equivalent to INR 92.18 million).

(e) The subsidiary company, Fidesrus B.V., has applied to the court in Russia for Pizza Restaurants LLC's bankruptcy on September 12, 2023. This is preceded by the announcement on December 28, 2022, which confirmed that the Company was evaluating its presence in Russia, the impact of sanctions and its continuing ability to serve its customers in Russia. As Fidesrus B.V. applied for bankruptcy for Pizza Restaurants LLC, the creditors have applied to the court in Russia for the collection of debts. The total legal claims exposure related to the debt amounts to TRY 336.00 million (equivalent to INR 756.30 million) (Previous Year: TRY 95.18 million equivalent to INR 244.33 million). Pizza Restaurants LLC has created requisite provision for contingency exposure basis its assessment.

(f) Represents the best possible estimate by the management, basis available information, about the outcome of various claims against the Group by different parties. As the possible outflow of resources is dependent upon outcome of various legal processes, a reliable estimate of such obligations cannot be made or it is not probable that an obligation to reimburse will arise.

B. Capital and other commitments

(a) Estimated amount of contracts remaining to be executed on capital account (net of advances) and not provided for INR 2,174.35 million (Previous Year INR 1,773.34 million).

(b) The Parent Company has given Bond to Department of Customs against import of material under "Manufacturing and Other Operations in Warehouse" (MOOWR) Scheme of INR 1,010.00 million. Under the Scheme, the Parent Company can avail benefit of not paying custom duty and GST against import of capital goods utilized for own purpose. The Parent Company has imported capital goods under the Scheme by availing benefit of INR 166.79 million as on March 31, 2025 (Previous Year: INR 111.66 million).

Notes:

(a) Balances and transactions between the Parent Company and its subsidiaries, which are related parties of the Parent Company, have been eliminated on consolidation and are not disclosed.

(b) The transactions with related parties are made on terms equivalent to those that prevail in arm's length transactions. Outstanding balances at the year-end are unsecured and interest free and settlement occurs in cash. This assessment is undertaken each financial year through examining the financial position of the related party and the market in which the related party operates.

(c) During the year ended March 31, 2025, 61,042 options (Previous Year: 75,106) and 172,367 options (Previous Year: 188,354) were granted to Key Management Personnels under ESOP scheme 2016 and under ESOP scheme 2011 respectively.

iv) The Parent Company has given guarantee aggregating to EUR 116,085,000 (equivalent to INR 10,733.75 million) as on March 31, 2025 (Previous Year EUR 116,085,000, equivalent to INR 10,439.73 million) in earlier years to the bank guaranteeing the borrowings availed by its wholly owned subsidiary, Jubilant FoodWorks Netherlands B.V. (JFN), for acquisition of shares of DP Eurasia B.V. (DPEU).

Other than this, the Group has not advanced or loaned or invested funds to any other person(s) or entity(ies), including foreign entities (intermediaries) with the understanding (whether recorded in writing or otherwise) that the intermediary shall:

(a) directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Group (ultimate beneficiaries)

(b) provide any guarantee, security or the like to or on behalf of the ultimate beneficiaries.

v) The Group has not received any fund from any person(s) or entity(ies), including foreign entities (funding parties) with the understanding (whether recorded in writing or otherwise) that the Group shall:

(a) directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Parties (Ultimate beneficiaries), or

(b) provide any guarantee, security or the like to or on behalf of the ultimate beneficiaries.

36 EMPLOYEE BENEFITS IN RESPECT OF THE COMPANY HAVE BEEN CALCULATED AS UNDER:

b. Defined benefit plan:

Gratuity:

The Parent Company has a defined benefit gratuity plan. Every employee who has completed five years or more of service gets a gratuity on departure at 15 days salary (last drawn salary) for each completed year of service. The scheme is partially funded.

The subsidiary companies also have defined benefit gratuity plans as per applicable laws of their respective countries.

In case of Jubilant FoodWorks Lanka (Pvt) Ltd every employee who has completed five years or more of service (not applicable in case of death or disability while in service) gets a gratuity on departure at half month last drawn salary plus budgetary relief allowance.

In case of Jubilant FoodWorks Bangladesh Limited every employee who has completed five years or more of service (not applicable in case of death or disability while in service) gets a gratuity on departure at 14 days (30 days in case of 10 years or more of service) last drawn salary.

The scheme of both subsidiary companies are not funded.

The liability for employee severance indemnity for Pizza Restaurantları A.Ş. represents the present value of the estimated future probable obligation of Pizza Restaurantları A.Ş. arising from the retirement of the employees and calculated in accordance with the Turkish Labor Law. It is computed and reflected in the financial statements on an accrual basis as it is earned by serving employees. The computation of the liabilities is based upon the retirement pay ceiling announced by the Turkish Government.

41 BUSINESS COMBINATION

A) Acquisition of additional interest in DP Eurasia B.V. (DPEU) (formerly DP Eurasia N.V.)

During the previous year, Jubilant Foodworks Netherlands B.V. ("JFN"), wholly owned subsidiary of the Parent Company had acquired further stake in DPEU for an aggregate consideration of INR 7,702.69 million and JFN holds 94.06% in DPEU as on March 31, 2025 (Previous year 94.33%). Pursuant to the aforesaid acquisition, DPEU had become subsidiary of JFN and accordingly the Group had accounted for its investment in accordance with IND AS 103 "Business Combinations" and Ind AS 110 "Consolidated Financial Statements" w.e.f. February 01, 2024. The business combination was accounted for using the acquisition method of accounting. Consequently, a gain of INR 1,701.65 million on remeasurement of previously held equity interest at acquisition date fair value had been disclosed under exceptional items in the financial statements in the previous year. The Group had elected to measure the non-controlling interests (NCI) in DPEU at fair value on date of acquisition.

Further, financial statements of DPEU were duly adjusted for inflation in accordance with IAS 29 on "Financial Reporting in Hyperinflationary Economies" were consolidated and accordingly previous year's consolidated financial statements were not comparable with that of FY 2022-23. Based on the Purchase Price Allocation carried out by the independent valuer during the previous year, the purchase consideration had been assigned as follows -

i) INR 9,718.10 million on identifiable intangibles (INR 5,761.30 million for master franchise right asset and INR 3,956.80 million for Coffy brand);

ii) INR 7,706.44 million accounted for as goodwill.

The Group acquired this business to build an attractive portfolio of brands in promising, high-growth and under-penetrated markets. This acquisition has strengthened the Group's position as a leader for Domino's in emerging economies, and has contributed in growing multiple brands and building & scaling large businesses in emerging economies.

Assets acquired and liabilities assumed

The fair values of the identifiable assets and liabilities of DPEU as at the date of acquisition were:

(INR in Million)

Particulars	As at February 01, 2024
Assets	
Property, plant and equipment (Refer Note: 3a)	763.89
Right-of-use assets (Refer Note: 3b)	812.94
Intangible assets (Refer Note: 3e)	557.62
Cash and cash equivalents	886.45
Trade receivables	1,557.95
Inventories	1,105.25
Lease receivables	625.75
Other assets	1,465.67
Brand (Refer Note: 3e)	3,956.80
Master Franchise Right Asset (Refer Note: 3e)	5,761.30
Total (A)	**17,493.62**
Liabilities	
Trade payables	2,213.87
Lease liabilities	1,279.36
Borrowings	2,918.32
Provisions	317.41
Other Liabilities	1,464.63
Deferred tax liability	2,472.10
Total (B)	**10,665.69**
Net identifiable assets at fair value (A-B)	**6,827.93**
Fair value of unvested ESOPs acquired	(146.18)
Sub total (C)	**6,681.75**
Fair value of existing stake	6,949.13
Non-controlling interests measured at fair value	803.80
Purchase consideration transferred	6,635.26
Total Enterprise Value (D)	**14,388.19**
Goodwill arising on acquisition (D-C)	7,706.44

The goodwill of INR 7,706.44 million comprises the fair value of expected synergies arising from acquisition. Goodwill is allocated to the acquired business as a whole. None of the goodwill recognized is deductible for income tax purposes.

The deferred tax liability includes tax impact recognised on intangible assets that is brand and master franchise right asset recognised on account of acquisition accounting.

The fair value of NCI in DPEU had been valued by removing control premium from the purchase consideration paid for acquiring control.

In the previous year, DPEU had contributed INR 2,173.18 million of revenue and INR 181.04 million to profit before tax from continuing operations of the Group from the date of acquisition. If the combination had taken place at the beginning of the previous year, the Groups revenue from continuing operations would have been INR 71,985.51 million and the profit before tax from continuing operations would have been INR 5,932.27 million.

In the current year, the application of hyperinflationary accounting along with Ind AS 21 has resulted in a reduction of INR 656.81 million to goodwill and indefinite life intangible assets. Gain on net monetary position related to entities under hyperinflationary economies for the year ended March 31, 2025 aggregates to gain of INR 872.46 million (Previous year: INR 285.87 million).

Analysis of cash flows on acquisition:

(INR in Million)

Particulars	As at February 01, 2024
Cash outflow on acquisition of subsidiary (including transaction costs)	(7,702.69)
Net cash acquired with the subsidiary	886.45
Net cash flow on acquisition	**(6,816.24)**

B) Recognition of put option liability

While the Group continues to control DPEU, the Group has recorded NCI for shares held by third parties. An agreement has been entered into with certain NCI holder, which provides for a put as well as a call option, exercisable at a price determined as per the terms of the agreement. The Group has concluded that it does not control these shares and hence has recorded these shares as part of the Group's NCI. The Group has determined that the triggering events for exercising the option under the agreement are not within the complete control of the Group and has thus recorded a put option liability of INR 1,190.75 (Previous year: INR 797.31 million), which is the present value of the expected buy-back amount and is also the maximum amount, by debiting other equity (retained earnings). Subsequent re-measurement of this liability is also recognised in the same head considering adjustments for transactions with NCI, that do not result in loss of control, are accounted for as equity transactions.

C) Assets and liabilities held for sale and discontinued operations

Subsequent to the year ended March 31, 2025, the Group has entered into a share transfer agreement for sale of its entire stake in its Russian subsidiary i.e. Pizza Restaurants LLC and accordingly, its assets and liabilities have been classified as "held for sale". The financial performance pertaining to Pizza Restaurants LLC has been disclosed as discontinued operations in the consolidated statement of profit and loss.

(i) The disposal groups were stated at their carrying values and comprised the following assets and liabilities:

D) Impairment assessment of goodwill and indefinite life intangible assets on business combination of DP Eurasia B.V. (DPEU)

The Group tests goodwill and indefinite life intangible assets arising on business combination of DP Eurasia B.V. (DPEU) for impairment annually. The Group conducts impairment assessment and compares the carrying amount of goodwill and indefinite life intangible assets with the recoverable amount.

The carrying value of these assets as on March 31, 2025 is INR 16,767.73 million (Previous year: INR 17,424.54 million). The recoverable amount is based on value in use, which are determined based on discounted cash flow projections.

The recoverable amount is determined through an independent valuer, based on a value in use calculation which uses cash flow projections and a discount rate of 32.50% per annum. The valuer confirms that the valuation is conducted in compliance with the provisions of Ind AS 36.

Cash flow projections are based on the expected gross margins and inventory price inflation throughout the period. The terminal growth has been taken as 14.90% per annum. The growth rate is estimated basis overall economic growth rate for the food industry in the respective market.

The key assumptions used for computation of value in use are the sales growth rate, EBITDA margins, long-term growth rate and the risk-adjusted discount rate. The discount rates are derived from the Parent Company's weighted average cost of capital, taking into account the cost of capital, to which specific market-related premium adjustments are made for the respective territory.

The Group has performed sensitivity analysis of the key assumptions used to determine the recoverable value and believes that no reasonably possible change in any of the key assumptions would cause the recoverable amount to be materially different from the recoverable amount in the base case.

The results of the impairment tests using these rates show that the recoverable amount exceeds the carrying amount, hence, the Group therefore concluded that no impairment was required.

^During the current year, the Group has further invested INR 1.33 million (Previous year: INR 25.44 million) in O2 Renewable Energy XVI Private Limited (""O2 Renewable"") for its power consumption requirement at new commissary in Bengaluru. O2 Renewable is constructing the power plant and will start supply of electricity in near future.

Further during the current year, the Group has also invested INR 9.31 million (Previous year: Nil) in Isharays Energy Two Private Limited for the purchase and supply of electricity in the future to the commissary in Greater Noida.

Considering the nature, threshold and timing of the investments, the value is considered at fair value as on March 31, 2025.

49 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial liabilities comprise borrowings, retention money payable, trade and other payables, security deposits, lease liabilities and unpaid dividend. The Group's principal financial assets include Investments, loan, trade and other receivables, cash and cash equivalents and other financial assets that derive directly from its operations.

The Group's financial risk management is an integral part of how to plan and execute its business strategies. The Group is exposed to market risk, credit risk and liquidity risk.

The Group's senior management oversees the management of these risks. The senior professionals work on to manage the financial risks and the appropriate financial risk governance framework for the Group are accountable to the Board of Directors and Audit Committee. This process provides assurance to Group's senior management that the Group's financial risk-taking activities are governed by appropriate policies and procedures and that financial risk are identified, measured and managed in accordance with Group policies and risk objective.

The Board of Directors reviews and agrees policies for managing each of these risks which are summarized as below:

a. Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprises three types of risk: currency rate risk, interest rate risk and other price risks , such as equity price risk and commodity price risk. Financial instruments affected by market risks include borrowings, deposits, investments and foreign currency receivables and payables. The sensitivity analysis in the following sections relate to the position as at March 31, 2025. The analysis excludes the impact of movements in market variables on: the carrying values of gratuity, pension obligation and other post-retirement obligations; provisions; and the non-financial assets and liabilities.The sensitivity of the relevant Profit and Loss item is the effect of the assumed changes in the respective market risks. This is based on the financial assets and financial liabilities held as at March 31, 2025.

i Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The group exposure to the risk of changes in foreign exchange rates relates primarily to the Group's operating activities (when revenue or expense is denominated in foreign currency and the group net investment in foreign subsidiaries). Foreign currency exchange rate exposure is partly balanced by purchasing of goods from the respective countries. The group evaluates exchange rate exposure arising from foreign currency transactions and follows appropriate risk management policies.

Foreign currency exposures recognised by the Group that have not been hedged by a derivative instrument or otherwise are as under:

Receivables and other current assets

Currency	As at March 31, 2025		As at March 31, 2024

USD	309.51	3.62	83.34	1.02
EURO	59.04	0.64	3.37	0.10
RUB	1.52	1.50	-	-

Payables

Currency	As at March 31, 2025		As at March 31, 2024	
	INR in million	Foreign currency in million	INR in million	Foreign currency in million
USD	439.66	5.15	2,981.83	35.97
EURO	97.46	1.05	70.79	0.79
RUB	111.44	110.29	250.02	280.25

Foreign currency risk sensitivity

The impact of foreign currency risk sensitivity on profit and equity of the Group is given in the table below:

Description	As at March 31, 2025		As at March 31, 2024	
	Increase by 5%	Decrease by 5%	Increase by 5%	Decrease by 5%
USD	(6.54)	6.54	145.63	(145.63)
EURO	(1.90)	1.90	3.10	(3.10)
RUB	(5.50)	5.50	12.58	(12.58)

The above sensitivity analysis is based on a reasonably possible change in the underlying foreign currency against the respective functional currency while assuming all other variables to be constant.

Based on the movements in the foreign exchange rates historically and the prevailing market conditions as at the reporting date, the Parent Company's management has concluded that the above mentioned rates used for sensitivity are reasonable benchmarks.

ii Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's policy is to minimise interest rate cash flow risk exposures on long term financing. The Group is exposed to changes in market interest rate as some of its borrowings from banks are at variable interest rate.

Interest rate sensitivity

Below table gives impact of interest rate changes to the profit and equity of the Company at +/ - 05 bps on an annual basis keeping other variables constant.

iii Other risks (Equity price risk for investments valued at FVTOCI):

The Parent Company has invested in equity shares of Barbeque-Nation Hospitality Limited (BNHL) which are valued at Fair Value through OCI. The market price movement of equity shares of BNHL affects the fair valuation gain/ loss recognized into OCI and hence affects the Equity of the Group. This does not have impact on Statement of Profit and Loss of the Group. Below is the sensitivity analysis of Equity Price of BNHL share and its impact on Equity of the Group.

(INR in Million)

Equity price sensitivity (BNHL)	As at March 31, 2025		As at March 31, 2024	
	Increase by 10%	Decrease by 10%	Increase by 10%	Decrease by 10%
Impact due to change on OCI	98.96	(98.96)	181.76	(181.76)

b. Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The group is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments. In respect of trade receivables the Group is not exposed to any significant credit risk exposure with a single counter party or a group of counter parties having similar characteristics.

Financial instruments and cash deposits

Credit risk from balances with banks and financial institutions is managed by the group's treasury department in accordance with the group's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

c. Liquidity risk

Liquidity risk is defined as the risk that the group will not be able to settle or meet its obligations on time or at reasonable price. The group's objective is to at all times maintain optimum levels of liquidity to meet its cash and liquidity requirements. The group closely monitors its liquidity position and deploys a robust cash management system. It maintains adequate source of financing through the use of short term bank deposits and cash credit facility. Processes and policies related to such risks are overseen by senior management. Management monitors the group's liquidity position through rolling forecasts on the basis of expected cash flows. The group assessed the concentration of risk with respect to its debt and concluded it to be low.

The table below summarises the maturity profile of the Group's financial liabilities based on contractual undiscounted payments.

d. Excessive risk concentration

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or have economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Group's performance to developments affecting a particular industry.

Based upon the Group's evaluation, there is no excessive risk concentration.

e. Collateral

There are no significant terms and conditions associated with the usage of collateral.

f. Reconciliation of liabilities whose cash flow movements are disclosed as part of financing activities in the statement of cash flows:

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of Jubilant FoodWorks Limited (the "Company"), which comprise the Standalone Balance Sheet as at March 31, 2025 and the Standalone Statement of Profit and Loss (including Other Comprehensive Income), the Standalone Statement of Cash Flows and the Standalone Statement of Changes in Equity for the year ended on that date, and notes to the standalone financial statements, including a summary of material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of report of the other auditor on separate financial statements of JFL Employees Welfare Trust (the "Trust") referred to in the Other Matter section below, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025 and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing ("SA"s) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditor in terms of their report referred to in the Other Matter section below, is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

1. Impairment of investments in subsidiaries:

The Company holds investments in subsidiaries namely Jubilant FoodWorks Lanka Private Limited, Jubilant FoodWorks Bangladesh Limited and Jubilant FoodWorks Netherlands B.V. aggregating to INR 1,553.44 million, INR 1,137.49 million and INR 3,044.79 million respectively as at March 31, 2025 and has recognized provision for diminution of INR 865.69 million for its investment in Jubilant FoodWorks Lanka Private Limited as on March 31, 2025.

The Company has undertaken an annual assessment of indicators of impairment in respect of the investments in subsidiaries as mentioned in Note 40 of the standalone financial statements.

To assess the recoverability of the investments in subsidiaries, management is required to make significant estimates and assumptions relating to forecast of future revenue, operating margins, growth rate and selection of the discount rates. The Company used the discounted cash flow model ("model") to determine the recoverable value of the investments. These assumptions are of particular importance due to the level of uncertainties and judgment involved, thus changes in these assumptions could have a significant impact on the recoverable value of the investments.

How the key audit matter was addressed in the audit

Our principal audit procedures in this area included, among others:

a. We evaluated the Company's impairment assessment process and tested the design and implementation of internal controls established to determine the estimates and judgments used for determining the carrying values and recoverable values of investments in subsidiaries.

b. Challenged Company's key market related assumptions used in the valuation model including discount rate, long term growth rates against external data, using our internal valuation specialist.

c. Assessed the reliability of cash flow forecasts through a review of actual past performance and comparison to earlier years' budgeted performances and assessed the reasonableness of the forecasts by challenging the assumptions in respect of growth strategies in the markets in which these subsidiaries operate;

d. Tested the mathematical accuracy of model and performed sensitivity analyses of key assumptions used therein;

e. Understood the commercial prospects of investments in subsidiaries under the current economic environment including the challenges faced by the subsidiaries in their respective local geographies to specifically evaluate whether these have been appropriately reflected in the forecast growth rates; and

f. Assessed the appropriateness and completeness of the related disclosures in the standalone financial statements in accordance with the applicable accounting standards.

2. Claims and litigations:

The Company is subject to lawsuits and claims which could have a significant impact on the results if the potential exposure were to materialize. For the current year ended March 31, 2025, we believe there is a risk relating to ongoing litigations on Goods and Services Tax matters (including Anti-profiteering) which are disclosed in Note 33 sub-note A(c) (i), (ii), (iii) of the standalone financial statements. The amounts involved are significant and the application of accounting standard to determine the amount, if any, to be provided as a liability or disclosed as a contingent liability, is inherently subjective. This includes assumptions relating to the likelihood and/or timing of cash outflows from the business and the pending decision of the appropriate authorities.

Due to the level of significant judgments involved, the above matter has been identified as a key audit matter.

How the key audit matter was addressed in the audit

Our audit procedures in this area included, among others:

a. We have evaluated the Company's processes and controls over litigations operated by the Management through regular meetings with in-house legal counsels and review of minutes of meetings of Board of Directors and Audit Committee;

b. We have assessed correspondences with the Company's external counsels accompanied by formal confirmations from that external counsels, discussions with and representations from in-house counsel;

c. We have involved our internal tax specialist to assess relevant historical and recent judgments passed by the judicial authorities in order to challenge the basis used for the accounting treatment and resulting disclosures in the standalone financial statements; and

d. Assessed whether the Company has adequately disclosed the litigation with relevant facts, circumstances and potential liabilities in its standalone financial statements in accordance with the applicable accounting standards.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Corporate Overview, Statutory Report including Management Discussion and Analysis, Board Report and Corporate Governance Report, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Board of Directors for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including Ind AS specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Company's Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to standalone financial statements in place and the operating effectiveness of such controls.

Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.

Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Obtain sufficient appropriate audit evidence regarding the financial information of the Company to express an opinion on the standalone financial statements. We are responsible for the direction, supervision and performance of the audit of the standalone financial statements of such entities or business activities included in the standalone financial statements of which we are the independent auditors. For the other entity or business activities included in the standalone financial statements, which has been audited by the other auditor, such other auditor remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal financial controls that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

We did not audit the financial statements of JFL Employees Welfare Trust (the "Trust") included in the standalone financial statements of the Company whose financial statements reflect total assets of INR 946.30 million as at March 31, 2025 and total revenue of INR 2.81 million for the year ended on that date, as considered in the standalone financial statements. The financial statements of this Trust have been audited by the other auditor whose report has been furnished to us, and our opinion in so far as it relates to the amounts and disclosures included in respect of this Trust and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the Trust, is based solely on the report of such other auditor.

Our opinion on the standalone financial statements and our report on Other Legal and Regulatory Requirements below is not modified in respect of this matter.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit and on the consideration of the report of the other auditor on the separate financial statements of the Trust, referred to in the Other Matter section above we report, to the extent applicable that:

   a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books and the report of the other auditor, except for not complying with the requirement of audit trail as stated in (i)(vi) below.

c) The Standalone Balance Sheet, the Standalone Statement of Profit and Loss including Other Comprehensive Income, the Standalone Statement of Cash Flows and Standalone Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account.

d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act.

e) On the basis of the written representations received from the directors as on March 31, 2025 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2025 from being appointed as a director in terms of Section 164(2) of the Act.

f) The modifications relating to the maintenance of accounts and other matters connected therewith, are as stated in paragraph (b) above.

g) With respect to the adequacy of the internal financial controls with reference to standalone financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with reference to standalone financial statements.

h) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

i) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:

i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements - Refer Note 33 to the standalone financial statements;

ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

iv. a) The Management has represented that, to the best of its knowledge and belief, other than as disclosed in the Note 35(iv) to the standalone financial statements no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

b) The Management has represented, that, to the best of its knowledge and belief, other than as disclosed in the Note 35(v) to the standalone financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

c) Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

v. The final dividend proposed in the previous year, declared and paid by the Company during the year is in accordance with section 123 of the Act, as applicable.

As stated in Note 45 to the standalone financial statements, the Board of Directors of the Company has proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. Such dividend proposed is in accordance with section 123 of the Act, as applicable.

vi. Based on our examination, which included test checks, the Company has used accounting softwares for maintaining its books of account for the year ended March 31, 2025, which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in these softwares (Refer Note 44 to the standalone financial statements) except that:-

a) in respect of primary accounting software which has been used by the Company during the period April 1, 2024 to February 21, 2025, audit trail feature for front end transactions operated throughout such period, however, the audit trail feature was not enabled for certain tables and at the database level to log any direct changes. The Company has updated its existing software to the upgraded version from February 22, 2025 to March 31, 2025, wherein the audit trail feature for front end transactions was operated throughout such period, however, the audit trail feature was not enabled for certain tables, whereas the same has been enabled at the database level in the upgraded version. Consequently, we are unable to comment whether there were any instances of the audit trail feature being tampered for the period where audit trail was not enabled.

b) in respect of primary sales recording software, audit trail feature at the application level has operated throughout the year for all relevant transactions recorded in the software. However, audit trail was not enabled at the database level to log any direct data changes. Consequently, we are unable to comment whether there were any instances of the audit trail feature being tampered with. Further, the Company has migrated to a new primary sales recording software in a phased manner on a few stores during the year, which has the audit trail feature at application level as well as database level to log any direct data changes and the same has operated from the date of migration at respective stores throughout the remaining period for all relevant transactions recorded in the software.

c) in respect of an accounting software operated by a third-party software service provider, for lease accounting having feature of audit trail, in the absence of independent auditor's System and Organisation Controls report, we are unable to comment whether audit trail feature of the said software was enabled and operated throughout the year, for all relevant transactions recorded in the software and whether there were any instances of the audit trail feature been tampered with.

d) in respect of softwares operated by third-party software service providers for maintaining significant processes such as utility bill processing, employee reimbursements, maintenance of payroll masters etc. having feature of audit trail, in the absence of independent auditor's reports covering the audit trail requirement for these softwares, we are unable to comment whether the audit trail at the application and database feature layers of the said softwares was enabled and operated throughout the year for all relevant transactions recorded in the softwares or whether there were any instances of the audit trail feature been tampered with.

Further, during the course of our audit, we did not come across any instance of the audit trail feature being tampered with, in respect of said accounting softwares for the period for which the audit trail feature was enabled and operating.

Additionally, the audit trail that was enabled and operated for the year ended March 31, 2024, has been preserved by the Company as per the statutory requirements for record retention, as stated in Note 44 to the standalone financial statements.

2. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1(g) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls with reference to standalone financial statements under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to standalone financial statements of **Jubilant FoodWorks Limited** ("the Company") as at March 31, 2025 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls with reference to financial statements based on "the internal control with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to standalone financial statements of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls with reference to standalone financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of internal financial controls with reference to standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to standalone financial statements.

Meaning of Internal Financial Controls with reference to standalone financial statements

A Company's internal financial control with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control with reference to standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to standalone financial statements

Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial control with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls with reference to standalone financial statements and such internal financial controls with reference to standalone financial statements were operating effectively as at March 31, 2025, based on, the criteria for internal financial control with reference to standalone financial statements established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE "B" TO THE INDEPENDENT AUDITOR'S REPORT OF JUBILANT FOODWORKS LIMITED

(Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

In terms of the information and explanations sought by us and given by the Company and the books of account and records examined by us in the normal course of audit and to the best of our knowledge and belief, we state that-

(i) (a) A. The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment, capital work-in-progress, investment properties and relevant details of right-of-use assets.

B. The Company has maintained proper records showing full particulars of intangible assets.

(b) The Company has a program of verification of property, plant and equipment, capital work in progress, investment properties and right-of-use assets to cover all the items in a phased manner over a period of three years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the program, some property, plant and equipment were due for verification during the year and were physically verified by the management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification.

(c) According to the information and explanations given to us and the records examined by us and based on the examination of the conveyance deed provided to us, we report that, the title deed, comprising the immovable property of land which is freehold, (other than immovable properties where the Company is the lessee and the lease agreements are duly executed in favour of the Company) disclosed in the standalone financial statements included in investment property is held in the name of the Company as at the balance sheet date.

In respect of immovable properties that have been taken on lease and disclosed in the standalone financial statements as Right-of-use asset as at the balance sheet date, the lease agreements are duly executed in favour of the Company except as disclosed in Note 38 to the standalone financial statements.

(d) The Company has not revalued any of its property, plant and equipment (including Right-of-use assets) and intangible assets during the year.

(e) No proceedings have been initiated during the year or are pending against the Company as at March 31, 2025 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.

(ii) (a) The inventories except for goods-in-transit were physically verified during the year by the Management at reasonable intervals. In our opinion and based on information and explanations given to us, the coverage and procedure of such verification by the Management is appropriate having regard to the size of the Company and the nature of its operations. In respect of goods-in-transit, the goods have been received subsequent to the year-end. No discrepancies of 10% or more in the aggregate for each class of inventories were noticed on such physical verification of inventories when compared with books of account.

(b) According to the information and explanations given to us, at any point of time of the year, the Company has not been sanctioned any working capital facility from banks or financial institutions on the basis of security of current assets, and hence reporting under Clause 3(ii)(b) of the Order is not applicable.

(iii) The Company has made investments in, provided guarantee or security, secured or unsecured, to companies or any other parties during the year, in respect of which

(a) The Company has not provided loans or advances in the nature of loans or provided security to any other entity during the year except stood guarantees, details of which are given below

INR in Million

	Guarantees
A. Aggregate amount of guarantees provided during the year:	
- Subsidiaries	172.38
B. Balance outstanding as at balance sheet date in respect of above cases:	
- Subsidiaries	10,306.50

(b) The investments made, guarantees provided and the terms and conditions of the grant of all the above mentioned guarantees provided, during the year are, in our opinion, prima facie, not prejudicial to the Company's interest.

(c) Since the Company has not provided any loans or advances in the nature of loans during the year, and hence reporting under clause (iii) (c),(d),(e) and (f) are not applicable.

(iv) The Company has complied with the provisions of Section 185 and 186 of the Companies Act, 2013 in respect of investments made and guarantees provided, as applicable.

(v) According to the information and explanations given to us, the Company has not accepted any deposit or amounts which are deemed to be deposits within the meaning of section 73 to 76 or any other relevant provisions of the Companies Act, 2013 and does not have any unclaimed deposits as at March 31, 2025 and therefore the provisions of clause 3(v) of the Order is not applicable.

(vi) The maintenance of cost records has not been specified for the activities of the Company by the Central Government under section 148(1) of the Companies Act, 2013. Thus, reporting under clause 3(vi) of the order is not applicable to the Company.

(vii) According to the information and explanations given to us, in respect of statutory dues:

(a) Undisputed statutory dues including Goods and Services Tax, Provident Fund, Employees' State Insurance, Income-Tax, Duty of Customs and other material statutory dues applicable to the Company have generally been regularly deposited by it with the appropriate authorities. We have been informed that the provisions of the Sales Tax, Duty of Excise, Value Added Tax and Cess are not applicable to the Company for the current year.

There were no undisputed amounts payable in respect of Goods and Services Tax, Provident Fund, Employees' State Insurance, Income-Tax, Duty of Customs and other material statutory dues in arrears as at March 31, 2025 for a period of more than six months from the date they became payable.

(b) Details of dues of Excise, Value Added Tax, Income-Tax and Goods and Services Tax which have not been deposited as on March 31, 2025 on account of disputes are given below:

1. Corporate information

Jubilant FoodWorks Limited (the Company) is a public limited Company domiciled in India and incorporated under the provisions of Companies Act, 1956. The Company was incorporated in 1995 and initiated operations in 1996. The Company's share is listed on National Stock Exchange of India Limited and Bombay Stock Exchange Limited. The Company is a food service company and engaged in retail sales of food through strong international and home grown brands addressing different food market segments. International brands include Domino's, Dunkin' and Popeyes. For Domino's, the Company has exclusive rights to open and operate Domino's Restaurants in India, Sri Lanka, Bangladesh and Nepal. Currently, Domino's is operated by the Company in India and by its subsidiaries in Sri Lanka and Bangladesh. The Company is into Chinese cuisine segment through its home grown brand Hong's Kitchen. The registered office of the Company is located at Plot No. 1A, Sector 16-A, Noida-201301, UP, India.

The standalone financial statements were authorised for issue in accordance with a resolution of the directors on May 14, 2025.

2. Material accounting policies

2.1 Basis of preparation of Financial Statements

The standalone financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the section 133 of the Companies Act 2013 (to the extent notified) read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 (as amended) and other accounting principles generally accepted in India (Indian GAAP). Accordingly, the Company has prepared these financial statements which comprise the Balance Sheet as at March 31, 2025, the Statement of Profit and Loss, the Statement of Cash Flows and the Statement of Changes in Equity for the year ended March 31, 2025, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information, on accrual and going concern basis.

The accounting policies adopted in the preparation of these standalone financial statements are consistent with those followed in the previous year.

2.2 Summary of material accounting policies

a. Use of estimates

The preparation of financial statements in conformity with Indian Accounting Standards (Ind AS) requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and disclosure of contingent liabilities at the end of the reporting period. Although these estimates are based upon management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods. Changes in estimates are reflected in the financial statements in the period in which changes are made and if material, their effects are disclosed in the notes to the financial statements.

Critical accounting estimates and judgements:

The areas involving critical estimates and judgements are:

(i) Useful lives and residual value of property, plant and equipment and intangible assets

Useful life and residual value are determined by the management based on a technical evaluation considering nature of asset, past experience, estimated usage of the asset, vendor's advice etc. and same is reviewed periodically, including at each financial year end. Management reviews the useful economic lives at least once a year and any changes could affect the depreciation rates prospectively and hence the asset carrying values changes accordingly. The Company also reviews its property, plant and equipment and intangible assets, for possible impairment if there are events or changes in circumstances that indicate that carrying amount of assets may not be recoverable. In assessing the property, plant and equipment and intangible assets for impairment, factors leading to significant reduction in profits, the Company's business plans and changes in regulatory/ economic environment are taken into consideration.

(ii) Impairment of investments

The Company has reviewed its carrying value of long term investments in equity shares as disclosed in note- 4 of standalone financial statements at the end of each reporting period, for possible impairment if there are events or changes in circumstances that indicate that carrying amount of assets may not be recoverable. If the recoverable value, which is based upon market price or economic circumstances and future plan is less than its carrying amount, the impairment loss is accounted.

(iii) Claims and litigations

The Company is the subject of lawsuits and claims arising in the ordinary course of business from time to time. The Company reviews any such legal proceedings and claims on an ongoing basis and follow appropriate accounting guidance when making accrual and disclosure decisions. The Company establishes accruals for those contingencies where the incurrence of a loss is probable and can be reasonably estimated, and it discloses the amount accrued and the amount of a reasonably possible loss in excess of the amount accrued, if such disclosure is necessary for the Company's financial statements to not be misleading. To estimate whether a loss contingency should be accrued by a charge to income, the Company evaluates, among other factors, the degree of probability of an unfavourable outcome and the ability to make a reasonable estimate of the amount of the loss. The Company does not record liabilities when the likelihood that the liability has been incurred is probable, but the amount cannot be reasonably estimated. Based upon present information, the Company determined that there were no matters that required an accrual as of March 31, 2025 other than the accruals already recognized, nor were there any asserted or unasserted claims for which material losses are reasonably possible.

(iv) Share based payment

The fair valuation of the share options granted under the equity settled transactions is measured using the prescribed valuation techniques, i.e. Black Scholes option pricing model, which involve use of judgements and estimates.

(v) Deferred tax assets

A deferred tax asset is recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilised. Accordingly, the Company exercises its judgement to reassess the carrying amount of deferred tax assets at the end of each reporting period.

(vi) Leases

The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate, as per the requirements of Ind AS 116 on Leases.

(vii) Capitalisation of in-house developed softwares

The Company capitalises in-house developed intangible assets in accordance with Ind AS 38 on Intangible Assets. Initial capitalisation of costs is based on judgement that technological and economic feasibility is confirmed.

(viii) Employee benefit obligation

Long term and defined benefit obligation costs are assessed on the basis of certain assumptions. These assumptions include salary escalation rate, discount rates, expected rate of return on assets and mortality rates.

b. Revenue recognition

Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration we expect to receive in exchange for those products or services. The Company is generally the principal as it typically controls the goods or services before transferring them to the customer.

The Company recognizes revenue from contracts with customers based on a five-step model as set out in Ind AS 115:

Step 1: Identify contract (s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.

Step 2: Identify performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.

Step 3: Determine the transaction price: The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Step 4: Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Company allocates the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Company expects to be entitled in exchange for satisfying each performance obligation.

Step 5: Recognize revenue when (or as) the Company satisfies a performance obligation.

Sale of manufactured goods:

The Company recognizes revenue from sale of food through Company's owned stores located in India and are recognized at a point in time, upon transfer of control of products to the customers, which happens when the items are delivered to or carried out by customers. Customer's payments are generally due at the time of sale.

Sale of traded goods:

The Company recognizes revenue from sale of supplies to its franchised stores (including subsidiaries operating Domino's Restaurants in Sri Lanka and Bangladesh) upon delivery or shipment of the related products, based on shipping terms and payments for supplies are generally due within 90 days of the shipping date.

Revenue is measured based on the consideration to which the Company expects to be entitled from a customer, net of returns and allowances, discounts, volume rebates and cash discounts and excludes sales taxes or Goods and Service Tax collected from customer and remitted to the appropriate taxing authorities and are not reflecting in the Statement of Profit and Loss as "Revenue".

Customer loyalty program on sale of goods:

The Company operates loyalty program where customers accumulate loyalty points for purchases made which entitle them to discounted or free products in future on meeting applicable terms and conditions. A contract liability, towards such performance obligation to provide discounted or free products, is recognised (as unearned income) at the time of the initial sale. The transaction price on initial sale is allocated to the product and the loyalty points on a relative stand-alone selling price basis. Management estimates the stand-alone selling price of loyalty points based on the discount or value of

free product granted when the points are redeemed and the likelihood of redemption, based on past experience. The stand-alone selling price of the product initially sold is estimated based on the retail price. Revenue is recognized when the loyalty points are redeemed by the customers or when the loyalty points expire as per terms of issuance.

Interest

For all financial instruments measured at amortized cost, interest income is recorded using the effective interest rate ("EIR"), which is the rate that exactly discounts the estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses.

Dividends

Revenue is recognized when the unconditional right to receive the payment is established by the balance sheet date.

Franchisee Fee (Sub franchisee income)

Franchisee fee is based on a percentage of franchise retail sales and are recognized when the items are delivered to or carried out by franchisees' customers, on accrual basis in accordance with the terms of the relevant agreement.

Store opening fees and area development fee received from international sub-franchisees are recognized as revenue on a straight-line basis over the term of respective franchise store agreement. Fee received in excess of revenues are classified as contract liabilities (which we refer to as unearned income).

Incentive

The Company is eligible for certain benefits basis the target stores opening as agreed with franchisor. These benefits are recognized basis the satisfaction of performance obligations i.e. basis the number of stores opened. The incentive has been netted off against the royalty expenses considering the substance of transaction.

Scrap Sale

Sale of scrap is recognised upon transfer of control of products to the customers which coincides with the delivery to customer.

c. Foreign currencies

Foreign currency transactions

Initial Recognition

Foreign currency transactions are recorded in the functional currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency on the date of the transaction.

Conversion

Foreign currency monetary items are reported using the closing rate. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction.

Exchange Differences

Exchange differences arising on the settlement of monetary items, or on reporting such monetary items of Company at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognized as income or as expenses in the year in which they arise.

Functional and presentation currency

The functional currency of the Company in the Indian rupee. These financial statements are presented in Indian rupees.

d. Taxes

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by unused tax losses/credits.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of reporting period in the country where the Company operate and generate taxable income.

Provision is made for uncertain tax positions when it is considered probable that there will be a future outflow of funds to a tax authority. The provision is calculated using the best estimate where that outcome is more likely than not and a weighted average probability in other circumstances. The position is reviewed on an ongoing basis, to ensure appropriate provision is made for each known tax risk.

Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the standalone financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income.

Goods and Service Tax – GST

Expenses and assets are recognized net of the amount of Goods and Service Tax paid, except:

(i) When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognized as part of the cost of acquisition of the asset or as part of the expense item, as applicable

(ii) When receivables and payables are stated with the amount of tax included.

The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

e. Property, Plant and Equipment

Property, plant and equipment are carried at cost less accumulated depreciation and accumulated impairment losses, if any. Cost includes its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates. It includes other costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Depreciation on property, plant and equipment is calculated on straight line basis using the rates arrived at based on the useful lives estimated by the management.

When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met.

Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the costs of the item can be measured reliably. All other repair and maintenance costs are recognised in profit or loss as incurred.

The management has estimated, supported by assessment by internal professionals, the useful lives of the following classes of assets and has used the following rates to provide depreciation on its property, plant and equipment which are different from those indicated in schedule II to Companies Act, 2013. The management believe that the above assessment truly represents the useful life of assets in the specific condition, these assets are put to use by the Company.

Property, Plant and Equipment	Estimated Useful Life (in no. of years)
Leasehold Improvements	9 or Actual lease period, whichever is lower
Building	30-60
Plant and Equipment	5 to 20
Office Equipment	2 to 10
Furniture and Fixtures	5 to 10
Vehicles	6

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognised.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

f. Investment properties

Investment properties are properties held to earn rentals and/or for capital appreciation. Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are measured in accordance with Ind AS 40's requirements for cost model.

g. Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any.

Internally-generated intangible assets - Software

Expenditure on research activities is recognised as an expense in the period in which it is incurred. An internally-generated intangible asset arising from development (or from the development phase of an internal project) is recognised if, and only if, all of the following have been demonstrated:

(I) the technical feasibility of completing the intangible asset so that it will be available for use or sale;

(II) the intention to complete the intangible asset and use or sell it;

(III) the ability to use or sell the intangible asset;

(IV) how the intangible asset will generate probable future economic benefits;

(V) the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset; and

(VI) the ability to measure reliably the expenditure attributable to the intangible asset during its development.

The amount initially recognised for internally-generated intangible assets is the sum of the expenditure incurred from the date when the intangible asset first meets the recognition criteria listed above. Where no internally-generated intangible asset can be recognised, development expenditure is recognised in profit or loss in the period in which it is incurred.

Intangible assets are amortized on a straight line basis over the estimated useful economic life. If the persuasive evidence exists to the affect that useful life of an intangible asset exceeds ten years, the Company amortizes the intangible asset over the best estimate of its useful life. Such intangible assets are tested for impairment annually, either individually or at the cash-generating unit level. All other intangible assets are assessed for impairment whenever there is an indication that the intangible asset may be impaired.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

A summary of amortization policies applied to the Company intangible assets is as below:

Intangible assets	Estimated Useful Life (in no. of years)
Software	4 – 7
Store opening fees	5
Territory fees	15-20

The territory fee has been paid to the franchisor for running and operating restaurants. This is amortized over the period of contract, during which the Company shall be deriving the economic benefits.

Subsequent to initial recognition, internally-generated intangible assets are reported at cost less accumulated amortisation and accumulated impairment losses, on the same basis as intangible assets that are acquired separately.

h. Capital work-in-progress

Cost of property, plant and equipment not ready for use as at the reporting date are disclosed as capital work-in-progress.

i. Expenditure during construction period

Expenditure directly relating to construction activity (including borrowing costs) are capitalized. Other expenditure incurred during the construction period which neither are related to the construction activity nor are incidental thereto, are charged to the statement of profit and loss.

j. Impairment of tangible and intangible assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. Where the carrying amount of an asset or a Cash Generating Unit (CGU) exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available.

An assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the Company estimates the asset's or cash-generating unit's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of profit and loss.

k. Investment in Subsidiary

The investments in subsidiaries are carried at cost. An investor, regardless of the nature of its involvement with an entity (the investee), shall determine whether it is a parent by assessing whether it controls the investee. An investor controls an investee when it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Thus, an investor controls an investee if and only if the investor has all the following:

(a) power over the investee;

(b) exposure, or rights, to variable returns from its involvement with the investee and

(c) the ability to use its power over the investee to affect the amount of the investor's returns

On disposal of investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

l. Investment in associate

The investment in associate are carried at cost. The Company assesses existence of significant influence in order to determine if an investee is an associate. Below criteria usually evidence existence of significant influence:

(a) holding of 20 percent or more of voting power of investee

(b) representation on the board of directors or equivalent governing body of the investee

(c) participation in policy-making processes, including participation in decisions about dividends or other distributions;

(d) material transactions between the entity and its investee;

(e) interchange of managerial personnel; or

(f) provision of essential technical information.

m. Leases

In accordance with Ind AS 116 – Leases, at inception of the contract, the Company assesses whether a contract is, or contains a lease. A lease is defined as a contract, or part of a contract, that conveys the right to control the use an asset (the underlying asset) for a period of time in exchange for consideration'. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- The contract involves the use of an identified asset – this may be specified explicitly or implicitly, and should be physically distinct or represent substantially all of the capacity of a physically distinct asset. If the supplier has a substantive substitution right, then the asset is not identified;
- The Company has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and
- The Company assesses whether it has the right to direct 'how and for what purpose' the asset is used throughout the period of use.

At inception or on reassessment of a contract that contains a lease component, the Company allocates the consideration in the contract to each lease component on the basis of their relative standalone prices. However, for the leases of land and buildings in which it is a lessee, the Company has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

Where the Company is a lessor

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Where the Company is a lessee

For the lease contracts where the Company is a lessee, it recognizes right-of-use asset and lease liability at the date at which the leased asset is available for use by the Company. Assets and Liabilities arising from a lease are initially measured on a present value basis.

Right-of-use assets:

At the commencement of lease, right-of-use asset is recognized at cost which comprises the following:

- Initial measurement of lease liability
- Lease payments made before commencement date less lease incentives
- Initial direct costs incurred by the Company and estimate of any dismantling cost.

Right-of-use assets are depreciated on a straight line basis over the lease term as below:

Right-of-use assets	Estimated Useful Life (in no. of years)
Right-of-use buildings	1-30
Right-of-use land	90-99
Right-of-use Equipment	3-5

The right-of-use assets are subsequently measured at cost less accumulated depreciation and any accumulated impairment. Adjustment is made for any re-measurement of lease liability.

Lease liability:

At the commencement of lease the Company measures the lease liability at the present value of lease payments not paid at commencement date. The lease payments are discounted using the Company's incremental borrowing rate.

The lease payments include fixed payments (including in-substance fixed payments) and does not include any variable lease payments that are based on sales.

Subsequently, the lease liability is measured at amortised cost using the effective interest method. It is adjusted to reflect any reassessment or lease modifications.

Short term lease and low value leases:

The Company does not recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low value

assets. The Company recognises the lease payments associated with these leases as an expense on a straight line basis over the lease term.

n. Inventories

Basis of valuation:

Inventories other than scrap materials are valued at lower of cost and net realizable value, if any. The comparison of cost and net realizable value is made on an item-by-item basis. Provision is made for items which are not likely to be consumed and other anticipated losses wherever considered necessary.

Method of Valuation:

- Cost of raw materials has been determined by using FIFO method and comprises all costs of purchase, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventories to their present location and condition.
- Cost of traded goods has been determined by using FIFO method and comprises all costs of purchase, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventories to their present location and condition.
- Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

o. Provisions

A provision is recognised when the Company has a present obligation (legal or constructive) as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

p. Contingent liabilities and assets

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements. Contingent assets are not recognised and are disclosed only where an inflow of economic benefits is probable.

q. Dividend Distributions

The Company recognizes a liability to make payment of dividend to owners of equity when the distribution is authorized and is no longer at the discretion of the Company and is declared by the shareholders. A corresponding amount is recognized directly in equity.

r. Fair value measurement

The Company measures financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1- Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3- Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

s. Employee Benefits

- **Short-term obligations**

  Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within twelve months after the end of the period in which the employees render the related service are recognized in respect of employee service upto the end of the reporting period and are measured at the amount expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

- **Post-employment benefit obligations**

Gratuity

The Employee's Gratuity Fund Scheme, which is defined benefit plan, is managed by Trust maintained with SBI Life Insurance Company Limited. The liabilities with respect to Gratuity Plan are determined by actuarial valuation on projected unit credit method on the balance sheet date, based upon which the Company contributes to the Company Gratuity Scheme. The difference, if any, between the actuarial valuation of the gratuity of employees at the year end and the balance of funds with SBI Life Insurance Company Limited is provided for as assets/ (liability) in the books. Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. Future salary increases and pension increases are based on expected future inflation rates for the respective countries. Further details about the assumptions used, including a sensitivity analysis, are given in Note 36.

The Company recognises the following changes in the net defined benefit obligation under Employee benefit expense in statement of profit or loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements
- Net interest expense or income

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the Balance Sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

Superannuation

Certain employees of the Company are also participants in the superannuation plan ('the Plan'), a defined contribution plan. Contribution made by the Company to the plan during the year is charged to Statement of Profit and Loss.

Provident Fund

The Company contributes to the provident fund scheme for its eligible employees.

The Provident Fund scheme is a defined contribution plan. The Company recognises contribution payable to the provident fund scheme as an expense, when an employee renders the related service.

- **Other long-term employee benefit obligation**

Compensated Absences/Leave Encashment

Accumulated leaves which is expected to be utilized within next 12 months is treated as short term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement and discharge at the year end.

Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Company in respect of services provided by employees up to the reporting date.

Share-based payments

Employees (including senior executives) of the Company receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments (equity-settled transactions).

Equity-settled transactions

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using an appropriate valuation model.

That cost is recognised, together with a corresponding increase in share-based payment (SBP) reserves in equity, over the period in which the performance and/or service conditions are fulfilled in employee benefits expense. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company best estimate of the number of equity instruments that will ultimately vest. The statement of profit and loss expense or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Company best estimate of the number of equity instruments that will ultimately vest. Market performance conditions are reflected within the grant date fair value. Any other conditions attached to an award, but without an associated service requirement, are considered to be non-vesting conditions. Non-vesting conditions are reflected in the fair value of an award and lead to an immediate expensing of an award unless there are also service and/or performance conditions.

No expense is recognised for awards that do not ultimately vest because non-market performance and/or service conditions have not been met. Where awards include a market or non-vesting condition, the transactions are treated as vested irrespective of whether the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

When the terms of an equity-settled award are modified, the minimum expense recognised is the expense had the terms had not been modified, if the original terms of the award are met. An additional expense is recognised for any modification that increases the total fair value of the share-based payment transaction, or is otherwise beneficial to the employee as measured at the date of modification. Where an award is cancelled by the entity or by the counterparty, any remaining element of the fair value of the award is expensed immediately through profit or loss.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

Treasury shares

JFL Employee Welfare Trust ("ESOP trust") allots shares to eligible employees of the Company upon their exercise of ESOPs. The Company treats ESOP trust as its extension and shares held by the ESOP trust are treated as treasury shares. Own equity instruments that are held by the trust are recognised at cost and deducted from equity. Any gain or loss on the purchase and sale of the Company's own equity instruments is recognised in other equity.

t. Exceptional Items

Exceptional items are transactions which due to their size or incidence are separately disclosed to enable a full understanding of the Company financial performance.

u. Earnings Per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and all periods presented is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares), etc. that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effect of all potentially dilutive equity shares.

v. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

The Company classifies its financial assets in the following measurement categories:

- Those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss)
- Those measured at amortized cost

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Debt instruments at amortized cost
- Debt instruments at fair value through other comprehensive income (FVTOCI)
- Debt instruments at fair value through profit and loss (FVTPL)
- Equity instruments

Debt instruments at amortized cost

A debt instrument is measured at amortized cost if both the following conditions are met:

- **Business model test:** The objective is to hold the debt instrument to collect the contractual cash flows (rather than to sell the instrument prior to its contractual maturity to realise its fair value changes).
- **Cash flow characteristics test:** The contractual terms of the Debt instrument give rise on specific dates to cash flows that are solely payments of principal and interest on principal amount outstanding.

This category is most relevant to the Company. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of EIR. EIR is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses. The EIR amortisation is included in finance income in profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables.

Debt instruments at fair value through OCI

A Debt instrument is measured at fair value through other comprehensive income if following criteria are met:

- **Business model test:** The objective of financial instrument is achieved by both collecting contractual cash flows and for selling financial assets.
- **Cash flow characteristics test:** The contractual terms of the financial asset give rise on specific dates to cash flows that are solely payments of principal and interest on principal amount outstanding.

Financial Asset included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the Company recognized the interest income, impairment losses and reversals and foreign exchange gain or loss in the Profit or Loss. On derecognition of asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to Profit or Loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instruments at FVTPL

FVTPL is a residual category for financial instruments. Any financial instrument, which does not meet the criteria for amortized cost or FVTOCI, is classified as at FVTPL. A gain or loss on a debt instrument that is subsequently measured at FVTPL and is not a part of a hedging relationship is recognized in profit or loss and presented net in the statement of profit and loss within other gains or losses in the period in which it arises. Interest income from these Debt instruments is included in other income.

Equity investments of other entities

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognized by an acquirer in a business combination to which Ind AS 103 applies are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income all subsequent changes in the fair value. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity. Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the Profit and loss.

De-recognition

A financial asset (or ,where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognised (i.e. removed from the Company statement of financial position) when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass through" arrangement and either;
- The Company has transferred the rights to receive cash flows from the financial assets or

- The Company has retained the contractual right to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Company has transferred an asset, the Company evaluates whether it has transferred substantially all the risks and rewards of the ownership of the financial assets. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all the risks and rewards of the ownership of the financial assets, the financial asset is not derecognised.

Where the Company has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognized to the extent of continuing involvement in the financial asset.

Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit losses(ECL) model for measurement and recognition of impairment loss on the following financial asset and credit risk exposure

- Financial assets measured at amortised cost;
- Financial assets measured at fair value through other comprehensive income(FVTOCI);

The Company follows "simplified approach" for recognition of impairment loss allowance on:

- Trade receivables or contract revenue receivables;
- All lease receivables resulting from the transactions within the scope of Ind AS 116

Under the simplified approach, the Company does not track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. The Company uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivables. The provision matrix is based on its historically observed default rates over the expected life of trade receivable and is adjusted for forward looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward looking estimates are analysed.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the Company reverts to recognising impairment loss allowance based on 12- months ECL.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified at initial recognition as financial liabilities at fair value through profit or loss, loans and borrowings, and payables, net of directly attributable transaction costs. The Company financial liabilities include loans and borrowings including trade payables, trade deposits, retention money and liability towards services, sales incentive, other payables and derivative financial instruments.

The measurement of financial liabilities depends on their classification, as described below:

Trade Payables

These amounts represents liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 30 to 60 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognized initially at fair value and subsequently measured at amortized cost using EIR method.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

The Company has not designated any financial liability as at fair value through profit and loss.

Financial liabilities measured subsequently at amortised cost

Financial liabilities that are not (i) contingent consideration of an acquirer in a business combination, (ii) held-for-trading, or (iii) designated as at FVTPL, are measured subsequently at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost of a financial liability.

De-recognition

The Company derecognizes a financial liability when the obligation under the liability is discharged or cancelled or expires.

Offsetting of financial instruments

The Company offsets a financial asset and a financial liability and reports the net amount in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

Reclassification of financial assets:

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company senior management determines change in the business model as a result of external or internal changes which are significant to the Company operations. Such changes are evident to external parties. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

w. Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

x. Segment Reporting Policies

As the Company business activity primarily falls within a single business and geographical segment and the Executive Management Committee monitors the operating results of its business units not separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on profit or loss and is measured consistently with profit or loss in the standalone financial statements, thus there are no additional disclosures to be provided under Ind AS 108 – "Segment Reporting". The management considers that the various goods and services provided by the Company constitutes single business segment, since the risk and rewards from these services are not different from one another. The Company operating businesses are organized and managed separately according to the nature of products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets. The analysis of geographical segments is based on geographical location of the customers.

y. Statement of Cash Flows

Cash flows are reported using indirect method, whereby profit before tax is adjusted for the effects transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from regular revenue generating, financing and investing activities of the Company are segregated. Cash and cash equivalents in the cash flow comprise cash at bank, cash/ cheques in hand and short-term investments with an original maturity of three months or less.

z. Current/Non-Current classifications

The Company presents assets and liabilities in the balance sheet based on current/non- current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities and advance against current tax are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

3b Right-of-use assets

In respect of leases of store space: The Company has entered into various lease agreements for acquiring space to do its day to day operations. Such lease contracts include monthly fixed payments for rentals and in some cases these also have variable rent. The lease contracts are generally cancellable at the option of lessee during the lease tenure. The Company also has a renewal option after the expiry of contract terms. There are no significant restrictions imposed under the lease contracts.

In respect of leases of land: The Company has entered into land lease agreements for 90-99 years where its commissaries are operational. The lease rentals as per the contracts are fully paid and there are no significant restrictions imposed under the lease contracts.

In respect of leases of equipment: The Company has also taken certain equipment on rent. The contracts are for a period of 3-5 years and include fixed monthly payments. These contracts are non cancellable. There are no significant restrictions imposed under the lease contracts.

Below are the summary of financial information related to the above lease contracts:

^ Excluding penalty of INR 623.56 million (Previous Year: INR 477.89 million), wherever specified in the order.

Notes:

(a) The Company received income tax assessment order for assessment year (AY) 2017-18, AY 2018-19, AY 2020-21, AY 2021-22 and assessing officer made adjustments for advertisement, marketing and promotion expenses (AMP Expense) of INR 1,099.83 million, INR 348.00 million, INR 87.96 million and INR 4,205.80 million respectively basis direction received from Transfer Pricing Officer stating AMP expenses as international transactions. On a similar issue, in case of other taxpayer, the Hon'ble Supreme Court has decided in favour of the taxpayer and dismissed department's appeal. Hence, no contingent liability has been reported in the view of the management.

(b) (i) Includes demand of INR 28.44 million (Previous year INR 28.44 million) raised on M/s. Domino's Pizza International Franchising Inc. (DPIF) for Value Added Tax (VAT) payable on Royalty received from the Company for right to use "Domino's" brand name under Master Franchise Agreement. However, the Company has paid service tax on Royalty under reverse charge mechanism (RCM) since there is no sale of goods involved rather there is purchase of service.

(ii) Includes levy of VAT on service tax charged from the customers for restaurant services for INR 5.82 million (Previous year INR 5.82 million) pending at Haryana Sales Tax Tribunal, Chandigarh Tax Tribunal and Rajasthan High Court, Jaipur.

(iii) In the previous years, the Company had received demand of INR 57.97 million for the year 2013-14 to 2017-18 (April to June quarter) relating to VAT on service tax component charged from customers at the restaurant wherein question of VAT on service tax was raised by the Department of Commercial Taxes. The Company was of the view that the demand was not tenable, as service tax was not consideration rather it was tax collected on behalf of the Government, secondly, VAT and Service tax were mutually exclusive and could not be levied on the same value. The Company received revised order including VAT on Service Tax in the month of March 2022 for the year 2015-16 to 2017-18 (April to June quarter). The Company had filed a writ petition before Hon'ble Gujarat High Court in the month of September 2022.

During the current year, the Company has received a favourable order from Gujarat High Court with respect to the matter. Hence, the same is not considered as a contingent liability as at March 31, 2025.

(c) (i) GST rate on restaurant services was reduced from 18% to 5% subject to the condition that input tax credit (ITC) on input services/ goods will not be allowed with effect from (w.e.f.) November 15, 2017 resulting in loss of ITC. The Company reduced GST rate from 18% to 5% w.e.f. November 15, 2017 and increased menu prices of various stock keeping units (SKUs) to recoup the loss of ITC in such a manner that at overall level the loss of ITC was higher than the price increase resulting net loss to the Company at entity level. Based on customer complaint an Anti-Profiteering investigation was conducted by Director General Anti profiteering (DG). The DG extended the scope of investigation to all products of the Company and submitted its report to National Anti-Profiteering Authority (NAA) on July 16, 2018.

The NAA vide its Order dated January 31, 2019 determined the profiteering amount of INR 414.30 million by the Company for the period November 15, 2017 to May 31, 2018 and also directed the Company to reduce its price by way of commensurate reduction, keeping in view the reduced rate of tax and the benefit of ITC denied, directed the DG to conduct further investigation.

The Company filed a writ petition before Hon'ble Delhi High court (HC) challenging the order of the NAA and initiation of penalty proceeding on February 25, 2019. Delhi HC in an Interim Order passed on March 13, 2019 stayed the NAA order and the Penalty proceeding against the Company subject to deposit of INR 200.00 million in Central Consumer Welfare Fund (CWF). The Company has deposited INR 200.00 million with CWF in compliance with the stay order of Hon'ble Delhi High Court.

The High Court took note of the fact that there are similar cases in which the constitutional validity of Section 171 of the CGST Act, 2017 has been challenged along with other constitutional/ common issues. Hence, the entire batch of all such cases has been clubbed together. On January 29, 2024 Delhi High Court upheld the constitutional validity and decided the matter against the Company on Constitutional Validity. The Company filed an appeal with Supreme Court on May 02, 2024 on grounds of Constitutional Validity. Arguments on merits of Anti-profiteering calculation is still pending before Delhi High Court.

Basis legal expert opinion and other legal and commercial grounds presented in the writ petition, the Company is of the view that the demand is not tenable as the Company has incurred losses at the entity level.

(ii) During the FY 2020-21, the Company has received demand orders from Uttar Pradesh GST Department (UPGST) in respect of FY 2017-18 and 2018-19 aggregating to INR 1,322.38 million (including interest of INR 285.26 million and penalty 526.17 million). The key components of demand are; availing ITC in GSTR-3B which was not matched with GSTR-2A, availment of opening ITC as on November 14, 2017 (i.e. when GST rate reduced to 5% without ITC), ITC distributed by ISD against the procedures laid down under law and ITC incorrectly utilised against inter-state outward liability.

The Company had filed appeal before Commissioner (Appeals), State Tax, along with predeposit of 10% of the disputed tax. Personal hearing completed for FY 2017-18 and order received with partial relief of INR 129.90 million. For rest of the demand, the Company would be filing appeal before UPGST Tribunal (once formed). During the year, Personal hearing completed for FY 2018-19 and order received with partial relief of INR 46.50 million. For rest of the demand, the Company would be filing appeal before UPGST Tribunal (once formed). Pursuant to the same, the Company had paid pre-deposit of 20% of the disputed tax for the FY 2017-18 and FY 2018-19 as pre-requisite for filing appeal with UPGST tribunal during the current financial year.

Basis legal expert opinion and other legal and commercial grounds presented in the appeal, the Company is of the view that the demand is not tenable.

(iii) During the current year, the Company has received demand order from Maharashtra GST Department (MHGST) in respect of FY 2017-18 to FY 2020-21 aggregating to INR 145.67 million (excluding applicable interest and INR 145.67 million penalty). The demand is raised on account of ITC incorrectly availed and utilised against inter-state outward liability. The Company had filed an appeal before Commissioner (Appeals) in the month of April 2025, along with pre-deposit of 10% of the disputed tax.

Basis legal expert opinion and other legal and commercial grounds presented in the appeal, the Company is of the view that the demand is not tenable.

(iv) During the current year, the Company has received demand orders from Delhi (West) CGST Department, New Delhi in respect of FY 2020-21 to FY 2023-24 aggregating to INR 89.22 million (excluding applicable interest and INR 8.92 million penalty). The demand is raised on account of GST HSN/SAC classification of supply of 'Restaurant Services' by the Company. The Company will be filing an appeal before Commissioner (Appeals) along with pre-deposit of 10% of the disputed tax.

Basis legal expert opinion and other legal and commercial grounds presented in the appeal, the Company is of the view that the demand is not tenable.

(d) Represents the best possible estimate by the management, basis available information, about the outcome of various claims against the Company by different parties. As the possible outflow of resources is dependent upon outcome of various legal processes, a reliable estimate of such obligations cannot be made or it is not probable that an obligation to reimburse will arise.

B. Capital and other commitments

40 Impairment in subsidiaries and associates

A) Impairment assessment of Jubilant FoodWorks Lanka (Private) Limited, Jubilant FoodWorks Bangladesh Limited and Jubilant Foodworks Netherlands B.V.

The management has conducted impairment evaluation on value of investments in subsidiaries, namely, Jubilant FoodWorks Lanka (Private) Limited ('Sri Lanka'), Jubilant FoodWorks Bangladesh Limited ('Bangladesh') and Jubilant Foodworks Netherlands B.V. ('Netherlands'). The carrying value of the investment as on March 31, 2025 is INR 687.75 million, INR 1,137.49 million and INR 3,044.79 million respectively. The recoverable amounts of the investment are based on value in use, which are determined based on six-year business plans.

The management has adopted a six-year plan for the purpose of impairment testing considering the underlying subsidiaries operate in emerging markets and wherein their business reach and foot-print is underpenetrated when compared to developed markets. In these emerging markets, short-term plans are not indicative of the long-term future prospects and performance of the subsidiaries.

Further, the management is confident that projections till year six are reliable and can demonstrate its ability, based on past experience to forecast cash flows accurately over a six year period. Accordingly, the Company has considered a forecast period of six years for the purpose of impairment testing.

The respective recoverable amount of these investments is determined through an independent valuer, based on a value in use calculation which uses cash flow projections and a discount rate of 28.20%, 28.50% and 32.50% per annum for Sri Lanka, Bangladesh and Netherlands subsidiary respectively. The valuer confirms that the valuation is conducted in compliance with the provisions of Ind AS 36.

Cash flow projections are based on the expected gross margins and inventory price inflation throughout the period. The terminal growth has been taken as 5.00%, 5.50% and 14.90% per annum for Sri Lanka, Bangladesh and Netherlands subsidiary respectively. The growth rate is estimated basis overall economic growth rate for the food industry in the respective markets.

The key assumptions used for computation of value in use are the sales growth rate, EBITDA margins, long-term growth rate and the risk-adjusted discount rate. The discount rates are derived from the Company's weighted average cost of capital, taking into account the cost of capital, to which specific market-related premium adjustments are made for the respective territory.

The management has performed sensitivity analysis of the key assumptions used to determine the recoverable value and believes that no reasonably possible change in any of the key assumptions would cause the recoverable amount to be materially different from the recoverable amount in the base case.

The results of the impairment tests using these rates show that the recoverable amount exceeds the carrying amount. The management therefore concluded that no impairment was required to the investment in Sri Lanka, Bangladesh and Netherlands subsidiary.

B) Impairment in associates

During the year ended March 31, 2025, the management has recorded an impairment charge of INR 247.51 million on the investment in associate company namely, Hashtag Loyalty Private Limited, on account of discontinuance of operations.

^During the current year, the Company has further invested INR 1.33 million (Previous year: INR 25.44 million) in O2 Renewable Energy XVI Private Limited (""O2 Renewable"") for its power consumption requirement at new commissary in Bengaluru. O2 Renewable is constructing the power plant and will start supply of electricity in near future.

Further during the current year, the Company has also invested INR 9.31 million (Previous year: Nil) in Isharays Energy Two Private Limited for the purchase and supply of electricity in the future to the commissary in Greater Noida.

Considering the nature, threshold and timing of the investments, the value is considered at fair value as on March 31, 2025.

50 Financial risk management objectives and policies

The Company's principal financial liabilities comprise borrowings, retention money payable, trade and other payables, security deposits, lease liability and unpaid dividend. The Company's principal financial assets include investments, loan, trade and other receivables, cash and cash equivalents and other financial assets that derive directly from its operations.

The Company's financial risk management is an integral part of how to plan and execute its business strategies. The Company is exposed to market risk, credit risk and liquidity risk.

The Company's senior management oversees the management of these risks. The senior professionals work on to manage the financial risks and the appropriate financial risk governance framework for the Company are accountable to the Board of Directors and Audit Committee. This process provides assurance to Company's senior management that the Company's financial risk-taking activities are governed by appropriate policies and procedures and that financial risk are identified, measured and managed in accordance with Company policies and risk objective.

The Board of Directors reviews and agrees policies for managing each of these risks which are summarized as below:

a. Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprises three types of risk: currency rate risk, interest rate risk and other price risks , such as equity price risk and commodity price risk. Financial instruments affected by market risks include borrowings, deposits, investments and foreign currency receivables and payables. The sensitivity analysis in the following sections relate to the position as at March 31, 2025. The analysis excludes the impact of movements in market variables on: the carrying values of gratuity, pension obligation and other post-retirement obligations; provisions; and the non-financial assets and liabilities. The sensitivity of the relevant Profit and Loss item is the effect of the assumed changes in the respective market risks. This is based on the financial assets and financial liabilities held as of March 31, 2025.

i Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (when revenue or expense is denominated in foreign currency and the Company's net investment in foreign subsidiaries). Foreign currency exchange rate exposure is partly balanced by purchasing of goods from the respective countries. The Company evaluates exchange rate exposure arising from foreign currency transactions and follows appropriate risk management policies.

Foreign currency exposures recognised by the Company that have not been hedged by a derivative instrument or otherwise are as under:

Receivables and other current assets

Currency	As at March 31, 2025		As at March 31, 2024	
	INR in million	Foreign Currency in million	INR in million	Foreign Currency in million
USD	96.49	1.13	47.92	0.59
EURO	59.04	0.64	-	-

Payables

Currency	As at March 31, 2025		As at March 31, 2024	
	INR in million	Foreign Currency in million	INR in million	Foreign Currency in million
USD	205.61	2.41	66.05	0.79
EURO	1.35	0.01	6.48	0.07

Foreign currency risk sensitivity

The impact of foreign currency risk sensitivity on profit and equity of the Company is given in the table below:

Description	As at March 31, 2025		As at March 31, 2024	
	Increase by 5%	Decrease by 5%	Increase by 5%	Decrease by 5%
USD	(5.47)	5.47	(0.83)	0.83
EURO	2.91	(2.91)	(0.31)	0.31

The above sensitivity analysis is based on a reasonably possible change in the underlying foreign currency against the respective functional currency while assuming all other variables to be constant.

Based on the movements in the foreign exchange rates historically and the prevailing market conditions as at the reporting date, the Company's management has concluded that the above mentioned rates used for sensitivity are reasonable benchmarks.

ii Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's policy is to minimise interest rate cash flow risk exposures on long term financing. The Company is exposed to changes in market interest rate as some of its borrowings from banks are at variable interest rate.

Interest rate sensitivity

Below table gives impact of interest rate changes to the profit and equity of the Company at +/ - 05 basis points ("bps") on an annual basis keeping other variables constant.

(INR in Million)

Interest rate sensitivity	As at March 31, 2025		As at March 31, 2024	
	Increase by 05 bps	Decrease by 05 bps	Increase by 05 bps	Decrease by 05 bps
Impact due to change on Profit/ Equity	(1.62)	1.62	(1.04)	1.04

iii Other risks (Equity price risk for Investments valued at FVTOCI):

The Company has invested in equity shares of Barbeque-Nation Hospitality Limited (BNHL) which are valued at Fair Value through OCI. The market price movement of equity shares of BNHL affects the fair valuation gain/ loss recognized into OCI and hence affects the Equity of the Company. This does not have impact on Statement of Profit and Loss of the Company. Below is the sensitivity analysis of Equity Price of BNHL share and its impact on Equity of the Company.

(INR in Million)

Equity price sensitivity (BNHL)	As at March 31, 2025		As at March 31, 2024	
	Increase by 10%	Decrease by 10%	Increase by 10%	Decrease by 10%
Impact due to change on OCI	98.96	(98.96)	181.76	(181.76)

b. Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments. In respect of trade receivables the Company is not exposed to any significant credit risk exposure with a single counter party or a group of counter parties having similar characteristics.

c. Financial instruments and cash deposits

Credit risk from balances with banks and financial institutions is managed by the Company's treasury department in accordance with the Company's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

d. Liquidity risk

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time or at reasonable price. The Company's objective is to at all times maintain optimum levels of liquidity to meet its cash and liquidity requirements. The Company closely monitors its liquidity position and deploys a robust cash management system. It maintains adequate source of financing through the use of short term bank deposits and cash credit facility. Processes and policies related to such risks are overseen by senior management. Management monitors the Company's liquidity position through rolling forecasts on the basis of expected cash flows. The Company assessed the concentration of risk with respect to its debt and concluded it to be low.

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments.

e. Excessive risk concentration

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or have economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Company's performance to developments affecting a particular industry.

Based upon the Company's evaluation, there is no excessive risk concentration.

f. Collateral

There are no significant terms and conditions associated with the usage of collateral.
